Noisy River: the Saga of Captain Paul Dowlin Kenneth E. Dowlin,2013-09-05 Ruidoso Spanish for noisy river is the name given to the burbling stream tumbling out of the White Mountains in New Mexico These mountains and much of the plains to the east were inhabited by natives known as the Mescalero who have tribal ties to the Apache It was alongside this busy stream that Paul Dowlin an ancestor of Irish immigrants who migrated to the United States even before the Revolutionary war found his destiny He was born and lived in eastern Pennsylvania for over 30 years His yearning for adventure and advancement led him to make his way across the country in 1859 Soon after his arrival in New Mexico Territory he joined the newly formed New Mexico Volunteers to resist the invasion by the Confederate forces and supporters The fighting in the Civil War in New Mexico was brief but the battles against the native tribes took much longer Dowlin served directly under the command of Kit Carson the commander of the New Mexico Volunteer Army in the Civil War battles and the major campaigns against the Mescalero Navajo and other tribes After separation from the army Dowlin was able to acquire land and build a thriving settlement in what became Lincoln County New Mexico At one time he was one of the largest tax payers in the county and one of the political leaders of the county and the state He was always cordial to all people including the Mescalero the Mexican descendants in the area and the late coming Americans The question is Why was he shot and killed in 1877 He was unarmed and knew his killer Ken Dowlin a descendent of Captain Paul Dowlin has woven facts derived from 4 years of research in libraries museums archives and site visits into family stories that were passed down from generation to generation His education career and lifelong learning has provided him with the necessary skills to produce a historical novel based on facts and family stories

Scott,2022-03-30 *Personalising Trauma Treatment* is about helping trauma victims back to their old selves and focuses on altering the perception of the centrality of the trauma In this book clients are taught to rediscover their sense of self by reframing the trauma Within this new framework the focus is on the client s mental time travel from the trauma to today and reimagining their future The therapeutic targets are the thoughts and images cognitions that interfere with day to day functioning It does not assume that arrested information processing lies at the heart of the development of PTSD with a consequent need for the client to re live the trauma For those clients who were abused in childhood their experiences are

viewed through a particular central window but other windows may make for more appropriate engagement with their personal world and a reimagining of their view of themselves Treatment delivery options from telephone consultation group work and videoconferencing are discussed With illustrative examples the author highlights the pathway to recovery for a wide range of clients with the comorbidity often found in real world settings The book will be essential reading for therapists and other mental health professionals working with trauma survivors
