Part 2 explores the intersections of identity for sexual minority men, older men, and fathers, and discusses spiritual work with men in life transitions. Part 3 addresses the concerns of men in the military, prevention of sexual violence, and treating men with addictions and trauma-related issues. Part 4 provides the specific clinical frames of female counselors using relational-cultural theory with men and examines using motivational and masculine-sensitive therapy with men. Kimmel, 2006 This volume fills a unique gap. Gerontologists seldom focus on special concerns of gay and lesbian older adults. Lesbian, gay, bisexual, and transgender aging organizations rarely address issues of aging, and the mental health field has demonstrated an ability to marginalize both aging and homosexuality. This book lays out the state of knowledge with respect to lesbian, gay, bisexual, and transgender aging, physical health, sexuality, family ties, victimization, and legal and financial concerns. The references at the end of individual chapters and the bibliographical material at the end of the book provide an invaluable resource. For any gerontologist intrigued by the interplay of historical changes and individual aging, it is difficult to imagine a more powerful example than *Lesbian, Gay, Bisexual, and Transgender Aging*. Evolution of attitudes toward homosexuality, the emergence of HIV/AIDS, and legal protections beginning to be afforded to same-sex relationships are all part of the changing world that has shaped and been shaped by lesbian, gay, bisexual, and transgender individuals who are now old.
