Positive Match:

Hands-On Entity Resolution Michael Shearer,2024-02 Entity resolution is a key analytic technique that enables you to identify multiple data records that refer to the same real world entity With this hands on guide product managers data analysts and data scientists will learn how to add value to data by cleansing analyzing and resolving datasets using open source Python libraries and cloud APIs Author Michael Shearer shows you how to scale up your data matching processes and improve the accuracy of your reconciliations You ll be able to remove duplicate entries within a single source and join disparate data sources together when common keys aren t available Using real world data examples this book helps you gain practical understanding to accelerate the delivery of real business value With entity resolution you ll build rich and comprehensive data assets that reveal relationships for marketing and risk management purposes key to harnessing the full potential of ML and AI This book covers Challenges in deduplicating and joining datasets Extracting cleansing and preparing datasets for matching Text matching algorithms to identify equivalent entities Techniques for deduplicating and joining datasets at scale Matching datasets containing persons and organizations Evaluating data matches Optimizing and tuning data matching algorithms Entity resolution using cloud APIs Matching using privacy enhancing technologies **Vital and Health Statistics** ,1991 **Agents and Artificial Intelligence** Joaquim Filipe,Ana Fred,Bernadette Sharp,2011-03-16 This book constitutes the thoroughly refereed post conference proceedings of the Second International Conference on Agents and Artificial Intelligence ICAART 2010 held in Valencia Spain in January 2010 The 17 revised full papers presented together with an invited paper were carefully reviewed and selected from 364 submissions Same as the conference the papers are organized in two simultaneous tracks Artificial Intelligence and Agents The selected papers reflect the interdisciplinary nature of the conference The diversity of topics is an important feature of this conference enabling an overall perception of several important scientific and technological trends **Advances in Motivation Science** Andrew J. Elliot,2020-02-17 Advances in Motivation Science Volume Seven the latest release in Elsevier s serial on the topic of motivation science contains interesting articles that cover topics such as Moving from Research on Message Framing to Principles of Message Matching The Use of Gain and Loss Framed Messages to Promote Healthy Behavior 35 Years of Research on Students Subjective Task Values and Motivation A Look Back and a Look Forward The Motivational Potency of Nostalgia The Future is Called Yesterday Adaptive Self Regulation Subjective Well Being and Physical Health The Importance of Goal Adjustment Capacities and much more The Semantic Web and Web Science Dongyan Zhao,Jianfeng Du,Haofen Wang,Peng Wang,Donghong Ji,Jeff Z. Pan,2014-11-17 This book constitutes the thoroughly refereed papers of the 8th Chinese Conference on The Semantic Web and Web Science CSWS 2014 held in Wuhan China in August 2014 The 22 research papers presented were carefully reviewed and selected from 61 submissions The papers are organized in topical sections such as ontology reasoning and learning semantic data generation and management and semantic technology and applications

The Semantic Web – ISWC 2017 Claudia d'Amato,Miriam Fernandez,Valentina Tamma,Freddy Lecue,Philippe Cudré-Mauroux,Juan Sequeda,Christoph Lange,Jeff Heflin,2017-10-11 The two volume set LNCS 10587 10588 constitutes the refereed proceedings of the 16th International Semantic Web Conference ISWC 2017 held in Vienna Austria in October 2017 ISWC 2017 is the premier international forum for the Semantic Web Linked Data Community The total of 55 full and 21 short papers presented in this volume were carefully reviewed and selected from 300 submissions They are organized according to the tracks that were held Research Track Resource Track and In Use Track   **Official Gazette of the United States Patent and Trademark Office** United States. Patent and Trademark Office,2001   **Watching the Watch List** United States. Congress. Senate. Committee on Homeland Security and Governmental Affairs,2008   *Sons of Soldiers* Tomlin Simon,2009   **Data Mining and Analysis in the Engineering Field** Bhatnagar, Vishal,2014-05-31 Particularly in the fields of software engineering virtual reality and computer science data mining techniques play a critical role in the success of a variety of projects and endeavors Understanding the available tools and emerging trends in this field is an important consideration for any organization Data Mining and Analysis in the Engineering Field explores current research in data mining including the important trends and patterns and their impact in fields such as software engineering With a focus on modern techniques as well as past experiences this vital reference work will be of greatest use to engineers researchers and practitioners in scientific engineering and business related fields   **Engineering Psychology and Cognitive Ergonomics** Don Harris,2007-08-24 The 12th International Conference on Human Computer Interaction HCI Inter tional 2007 was held in Beijing P R China 22 27 July 2007 jointly with the Symposium on Human Interface Japan 2007 the 7th International Conference on Engineering Psychology and Cognitive Ergonomics the 4th International Conference on Universal Access in Human Computer Interaction the 2nd International Conf ence on Virtual Reality the 2nd International Conference on Usability and Inter tionalization the 2nd International Conference on Online Communities and Social Computing the 3rd International Conference on Augmented Cognition and the 1st International Conference on Digital Human Modeling A total of 3403 individuals from academia research institutes industry and governmental agencies from 76 countries submitted contributions and 1681 papers judged to be of high scientific quality were included in the program These papers address the latest research and development efforts and highlight the human aspects of design and use of computing systems The papers accepted for presentation th oughly cover the entire field of Human Computer Interaction addressing major vances in knowledge and effective use of computers in a variety of application areas This volume edited by Don Harris contains papers in the thematic area of En neering Psychology and Cognitive Ergonomics addressing the following major topics Cognitive and Affective Issues in User Interface Design Cognitive Workload and Human Performance Cognitive Modeling and Measuring Safety Critical Applications and Systems   *Computer Vision* Richard Szeliski,2022-01-03 Computer Vision Algorithms and Applications explores the variety of techniques used to analyze and interpret images It also describes challenging real world

applications where vision is being successfully used both in specialized applications such as image search and autonomous navigation as well as for fun consumer level tasks that students can apply to their own personal photos and videos More than just a source of recipes this exceptionally authoritative and comprehensive textbook reference takes a scientific approach to the formulation of computer vision problems These problems are then analyzed using the latest classical and deep learning models and solved using rigorous engineering principles Topics and features Structured to support active curricula and project oriented courses with tips in the Introduction for using the book in a variety of customized courses Incorporates totally new material on deep learning and applications such as mobile computational photography autonomous navigation and augmented reality Presents exercises at the end of each chapter with a heavy emphasis on testing algorithms and containing numerous suggestions for small mid term projects Includes 1 500 new citations and 200 new figures that cover the tremendous developments from the last decade Provides additional material and more detailed mathematical topics in the Appendices which cover linear algebra numerical techniques estimation theory datasets and software Suitable for an upper level undergraduate or graduate level course in computer science or engineering this textbook focuses on basic techniques that work under real world conditions and encourages students to push their creative boundaries Its design and exposition also make it eminently suitable as a unique reference to the fundamental techniques and current research literature in computer vision **Handbook of Face Recognition** Stan Z. Li,Anil K. Jain,2011-08-22 This highly anticipated new edition provides a comprehensive account of face recognition research and technology spanning the full range of topics needed for designing operational face recognition systems After a thorough introductory chapter each of the following chapters focus on a specific topic reviewing background information up to date techniques and recent results as well as offering challenges and future directions Features fully updated revised and expanded covering the entire spectrum of concepts methods and algorithms for automated face detection and recognition systems provides comprehensive coverage of face detection tracking alignment feature extraction and recognition technologies and issues in evaluation systems security and applications contains numerous step by step algorithms describes a broad range of applications presents contributions from an international selection of experts integrates numerous supporting graphs tables charts and performance data

Adventuring Through Spanish Colonies Matthew Brown,2006-11-01 Between 1810 and 1825 7 000 English Scottish and Irish mercenaries sailed to Gran Colombia to fight against Spanish colonial rule under the rebel forces of Sim n Bol var Their motives were mixed Some travelled for money others travelled for honour Adventuring Through Spanish Colonies explores the lives of these men their encounters with other soldiers indigenous people local women and slaves as recounted in documents that fall outside the usual remit of military political and economic historians Matthew Brown considers the social and cultural aspects of the presence of these foreigners and shows how they were an essential part of the revolution which eventually gave South America its freedom Using archival research from England Scotland Ireland Spain Ecuador Venezuela

and Colombia Adventuring Through Spanish Colonies clearly shows the active role that these mercenaries informal outriders of the British Empire played in the creation of Latin America as we know it today **Aviation Law: Cases, Laws, and Related Sources** Paul B. Larsen,Joseph Sweeney,John Gillick,2022-06-08 In our post 9 11 world the laws of aviation are under intense scrutiny From torts law and victim compensation to passenger screening pilots with guns and international aviation agreements the practice of aviation law is burgeoning The book AVIATION LAWS Cases Laws and Related Sources fills a gap in legal literature It is directed to both practicing lawyers and to law students The book introduces all the major areas of air law International air law regime crimes involving aircraft economic regulation of domestic and international air carriage litigation management domestic and international liability regimes governmental immunity from liability airport law airline travel restrictions airport law insurance NTSB accident investigation aircraft financing FAA regulation of air safety and airline labor relations These subjects are presented not only in explanatory text but also in cases and related source materials The most important texts are annexed The authors Professors Larsen and Gillick have regularly taught the course in Air Law at Georgetown University Law Center for more than 30 years They have long time hands on experience at the Department of Transportation and in private practice Professor Sweeney John D Calamari Distinguished Professor of Law has taught the course at Fordham University Law School for 30 years He also has extensive transportation practice background Classroom adoption 85 copy for 10 or more copies Student Edition 1 57105 340 9 95 copy Published under the Transnational Publishers imprint **Living a good life with Dementia** Liz Leach Murphy,Jayna Patel,2025-02-28 A practical guide to helping those living with dementia live their best life in a way that makes sense to them Essential reading for anyone working with people living with dementia this book explains the concept of Self Directed Support and Care for people living with dementia and links the various Person Centred approaches within dementia care with Person Centred Planning and Community based approaches As the content unfolds the concept of the Dementia Care Triad people living with dementia unpaid carers and professional carers is explored and developed further to include the layer of community The links between the health and social care legal context guidance documents and national dementia strategies are presented with good actionable practice approaches tools and informed advice to achieve Person Centred dementia care and support with an emphasis on communities Living a Good Life with Dementia will help professionals and carers gain knowledge and insight to be able to develop creative ideas for the care and support they want to have in place Practical Skills in Forensic Science Alan Langford,John R. Dean,Robert H. Reed,Jonathan D. B. Weyers,David Holmes,Allan M. Jones,2018 If you are studying forensic science or a related course such as forensic chemistry or biology then this book will be an indispensable companion throughout your entire degree programme This one stop text will guide you through the wide range of practical analytical and data handling skills that you will need during your studies It will also give you a solid grounding in the wider transferable skills such as teamwork and study skills **Security without Obscurity** J.J. Stapleton,2014-05-02 The traditional view of

information security includes the three cornerstones confidentiality integrity and availability however the author asserts authentication is the third keystone As the field continues to grow in complexity novices and professionals need a reliable reference that clearly outlines the essentials Security without Obscurit **Forensic DNA Applications** Dragan Primorac,Moses Schanfield,2014-01-29 Forensic DNA Applications An Interdisciplinary Perspective was developed as an outgrowth of a conference held by the International Society of Applied Biological Sciences The topic was human genome based applications in forensic science anthropology and individualized medicine Assembling the contributions of contributors from numerous regions around the world this volume is designed as both a textbook for forensic molecular biology students and a reference for practitioners and those in the legal system The book begins with the history and development of DNA typing and profiling for criminal and civil purposes It discusses the statistical interpretation of results with case examples mitochondrial DNA testing Y single nucleotide polymorphisms SNPs and short tandem repeats STRs and X SNP and STR testing It also explores low copy number DNA typing mixtures and quality assurance and control The second section examines the collection and preservation of biological evidence under a variety of different circumstances and the identification of human remains including in mass disaster settings It discusses applications to bioterrorism investigations animal DNA testing in criminal cases pedigree questions and wildlife forensic problems applications in forensic entomology and forensic botany The third section explores recent developments and new technologies including the rigorous identification of tissue of origin mtDNA profiling using immobilized probe strips chips and next generation sequencing the use of SNPs to ascertain phenotypic characteristics and the molecular autopsy that looks at aspects of toxicogenetics and pharmacogenetics The book concludes with a discussion on law ethics and policy It examines the use of DNA evidence in the criminal justice system in both the United States and Europe ethical issues in forensic laboratory practices familial searches DNA databases ancestry searches physical phenotyping and report writing The contributors also examine DNA applications in immigration and human trafficking cases and international perspectives on DNA databases **Digital Communication. Towards a Smart and Secure Future Internet** Alessandro Piva,Ilenia Tinnirello,Simone Morosi,2017-09-11 This book constitutes the proceedings of the 28th International Tyrrhenian Workshop on Digital Communication TIWDC 2017 which took place in Palermo Italy in September 2017 The 18 papers presented in this volume were carefully reviewed and selected from 40 submissions They were organized in topical sections named biometric systems emerging services with Network Function Virtualization NFV multimedia forensics security protocols software defined networks and technologies for Internet of Things IoT

Fuel your quest for knowledge with is thought-provoking masterpiece, Explore **Positive Match** . This educational ebook, conveniently sized in PDF (*), is a gateway to personal growth and intellectual stimulation. Immerse yourself in the enriching content curated to cater to every eager mind. Download now and embark on a learning journey that promises to expand your horizons. .
