Positive Theories Of Congressional Institutions:

Positive Theories of Congressional Institutions Kenneth A. Shepsle, Barry R. Weingast, 1995 An ambitious synthesis Positive Theories of Congressional Institutions attempts to reconcile a number of rational choice viewpoints to produce a comprehensive look at congressional institutions While most theorists have presented their work as exclusive alternatives for understanding Congress this volume reconsiders that basic premise If in fact these approaches are mutually exclusive what evidence favors one over the other Could it be that these views focus on different aspects of a more complex puzzle Kenneth A Shepsle and Barry R Weingast have assembled leading proponents of rational choice approaches to debate these issues Some emphasize the problems of legislative decisionmaking under uncertainty and the role institutions play in providing incentives for relevant actors to provide information Other theorists focus on political parties and emphasize the conditions under which parties exercise institutional authority and monitor institutional practices or fail to do so Still others investigate legislative delegation both within and without the legislature In debating the relationships between these research strands the contributors not only provide powerful evidence for the power of formal modelling but also invite those involved in other modes of research to join the discussion Thus the volume suggests how a more satisfying and complete model might emerge Positive Theories of Congressional Institutions is a timely volume that will provide the foundation for all future work in this area Contributors include John H Aldrich David P Baron Gary W Cox John A Ferejohn Morris P Fiorina Thomas W Gilligan Keith Krehbiel John Londregan Arthur Lupia Mathew D McCubbins Forrest Maltzman David W Rohde Kenneth A Shepsle Barbara Sinclair Steven S Smith James Snyder and Barry R Weingast Kenneth A Shepsle is Professor of Government Harvard University Barry R Weingast is Professor of Political Science and Senior Fellow Hoover Institution Stanford University

Positive Theories of Congressional Institutions Kenneth A. Shepsle, Barry R. Weingast, 1995 A comparison of rational choice models of Congress **Theories of Institutions** Joseph Jupille, James A. Caporaso, 2022-01-20 The human condition teems with institutions intertemporal social arrangements that shape human relations in support of particular values and the social scientific work developed over the last five decades aimed at understanding them is similarly vast and diverse This book synthesizes scholarship from across the social sciences with special focus on political science sociology economics and organizational studies Drawing out institutions essentially social and temporal qualities and their varying relationships to efficiency and power the authors identify more underlying similarity in understandings of institutional origins maintenance and change than emerges from overviews from within any given disciplinary tradition Most importantly Theories of Institutions identifies dozens of avenues for cross fertilization the pursuit of which can help keep this broad and inherently diverse field of study vibrant for future generations of scholars **Supreme Court Decision-Making** Cornell W. Clayton, Howard Gillman, 1999 What influences decisions of the U S Supreme Court For decades social scientists focused on the ideology of individual justices Supreme Court Decision Making moves beyond this focus by exploring how justices are

influenced by the distinctive features of courts as institutions and their place in the political system Drawing on interpretive historical institutionalism as well as rational choice theory a group of leading scholars consider such factors as the influence of jurisprudence the unique characteristics of supreme courts the dynamics of coalition building and the effects of social movements The volume s distinguished contributors and broad range make it essential reading for those interested either in the Supreme Court or the nature of institutional politics Original essays contributed by Lawrence Baum Paul Brace Elizabeth Bussiere Cornell Clayton Sue Davis Charles Epp Lee Epstein Howard Gillman Melinda Gann Hall Ronald Kahn Jack Knight Forrest Maltzman David O Brien Jeffrey Segal Charles Sheldon James Spriggs II and Paul Wahlbeck

The American Congress Reader Steven S. Smith, Jason M. Roberts, Ryan J. Vander Wielen, 2008-12-15 The American Congress Reader provides a supplement to the popular and updated American Congress undergraduate textbook By the same authors who drew upon Capitol Hill experience and nationally recognized scholarship to present a crisp introduction and analysis of Congress s inner mechanics the Reader compiles the best relevant scholarship on party and committee systems leadership voting and floor activity to broaden and illuminate the key features of the text

Handbook of Parliamentary Studies Cyril Benoît, Olivier Rozenberg, 2020-11-27 This comprehensive Handbook takes a multidisciplinary approach to the study of parliaments offering novel insights into the key aspects of legislatures legislative institutions and legislative politics Connecting rich and diverse fields of inquiry it illuminates how the study of parliaments has shaped a wider understanding surrounding politics and society over the past decades

Common Ground John Russell Baughman, 2006 Common Ground shows that while committees in the House of Representatives face overlapping and ambiguous jurisdictions on issues ranging from health care reform to homeland security the problem of turf wars is overstated as panels are able to bargain and cooperate successfully matters of shared interest

Routledge Handbook of Comparative Political Institutions Jennifer Gandhi, Rubén Ruiz-Rufino, 2015-04-10 The Routledge Handbook of Comparative Political Institutions HCPI is designed to serve as a comprehensive reference guide to our accumulated knowledge and the cutting edge of scholarship about political institutions in the comparative context It differs from existing handbooks in that it focuses squarely on institutions but also discusses how they intersect with the study of mass behaviour and explain important outcomes drawing on the perspective of comparative politics The Handbook is organized into three sections The first section consisting of six chapters is organized around broad theoretical and empirical challenges affecting the study of institutions It highlights the major issues that emerge among scholars defining measuring and analyzing institutions The second section includes fifteen chapters each of which handles a different substantive institution of importance in comparative politics This section covers traditional topics such as electoral rules and federalism as well as less conventional but equally important areas including authoritarian institutions labor market institutions and the military Each chapter not only provides a summary of our current state of knowledge on the topic but also advances claims that emphasise the research frontier on the topic and that should

encourage greater investigation The final section encompassing seven chapters examines the relationship between institutions and a variety of important outcomes such as political violence economic performance and voting behavior The idea is to consider what features of the political sociological and economic world we understand better because of the scholarly attention to institutions Featuring contributions from leading researchers in the field from the US UK Europe and elsewhere this Handbook will be of great interest to all students and scholars of political institutions political behaviour and comparative politics Jennifer Gandhi is Associate Professor Department of Political Science Emory University Rub n Ruiz Rufino is Lecturer in International Politics Department of Political Economy King s College London **Competing**

Principals Forrest Maltzman,1998 The book discusses the role of congressional committees in the legislative process

Misreading Law, Misreading Democracy Victoria Nourse,2016-09-26 Victoria Nourse argues that lawyers must be educated on the basic procedures that define how Congress operates today Lawmaking creates winners and losers If lawyers and judges do not understand this they may embrace the meanings of those who opposed legislation turning legislative losers into judicial winners and standing democracy on its head **Legislatures** Gerhard Loewenberg,Peverill Squire,D. Roderick Kiewiet,2002 Explores the implications of recent research on the U S Congress for legislative research outside the United States

Institutions, Politics and Fiscal Policy Rolf R. Strauch,Jürgen von Hagen,2012-12-06 Rolf R Strauch and Jiirgen von Hagen Center for European Integration Studies ZEI University of Bonn ZEI University of Bonn Indiana University and CEPR The large and persistent deficits rising levels of debt and growing levels of public spending observed in many DECO economies during the past 25 years have stimulated much theoretical and empirical research on the political economy of public finance Although a number of issues have been studied extensively certain areas are still at an exploratory stage and need further theorizing and thorough empirical research During the last two decades the theoretical debate on budgeting has been dominated by the controversy between partisan and institutionalist approaches Within the more political science oriented institutionalist literature a controversy exists between the distributive and the informational perspectives each setting forth a distinctive organizational rationale of parliaments with different fiscal implications The papers in this volume cover these different perspectives extend previous models and test their empirical validity The papers were originally written for a conference on Institutions Politics and Fiscal Policy organized by the Center for European Integration Studies at the University of Bonn Germany in July 1998 The book is organized in three parts each focusing on a distinctive aspect The first part is dedicated to the partisan perspective The second part focuses on budget institutions The third part consists of three case studies of institutional reform of the budget process This book is directed to academics and practitioners alike

Congress and the Politics of Problem Solving E. Scott Adler,John D. Wilkerson,2013-01-14 How do issues end up on the agenda Why do lawmakers routinely invest in program oversight and broad policy development What considerations drive legislative policy change For many Congress is an institution consumed by partisan bickering and gridlock Yet the institution

s long history of addressing significant societal problems even in recent years seems to contradict this view Congress and the Politics of Problem Solving argues that the willingness of many voters to hold elected officials accountable for societal conditions is central to appreciating why Congress responds to problems despite the many reasons mustered for why it cannot The authors show that across decades of policy making problem solving motivations explain why bipartisanship is a common pattern of congressional behavior and offer the best explanation for legislative issue attention and policy change

When Majorities Fail Josephine T. Andrews, 2002-10-21 When Majorities Fail is a study of institutional failure in Russia's first democratic legislature Inadequate rules and a chaotic party system combined to make it nearly impossible to pass a coherent legislative program including a new constitution The internal instability in Russia's parliament is known as cycling one of the most important theoretical concepts in formal study of legislatures There are few recorded cases of cycling in politically important settings This book documents the presence of cyclical majorities in Russian Parliament with comprehensive case and statistical analysis and demonstrates how the failure to adopt a new constitution led to the confrontation between parliament and president in the fall of 1993 Earlier research has shown that the design of a legislative institution is crucial in preventing cycling The author shows how the institutional design of the parliament failed underscoring the importance of institutional design in a democratic transition

Participation in Congress Richard L. Hall, 1998-09-10 For every issue that arises on the legislative agenda each member of Congress must make two decisions What position to take and how active to be The first has been thoroughly studied But little is understood about the second In this landmark book a leading scholar of congressional studies draws on extensive interviews and congressional documents to uncover when and how members of congress participate at the subcommittee committee and floor stages of legislative decision making Richard L Hall develops an original theory to account for varying levels of participation across members and issues within House and Senate and across pre and postreform periods of the modern Congress By closely analyzing behavior on sixty bills in the areas of agriculture human resources and commerce Hall finds that participation at each stage of the legislative process is rarely universal and never equal On any given issue most members who are eligible to participate forego the opportunity to do so leaving a self selected few to deliberate on the policy These active members often do not reflect the values and interests evident in their parent chamber A deeper understanding of congressional participation the author contends informs related inquiries into how well members of congress represent constituents interests what factors influence legislative priorities how members gain legislative leverage on specific issues and how well collective choice in Congress meets democratic standards of representative deliberation

The Oxford Handbook of Legislative Studies Shane Martin, Thomas Saalfeld, Kaare W. Strøm, 2014-06-19 Legislatures are political bodies essential to democracy and the rule of law They present social scientists with numerous intriguing puzzles with far reaching implications for our understanding of political institutions Why and how have these ancient assemblies established in pre democratic times

survived the transition to mass democracies How have they adapted How do they structure such processes as budgeting legislation and executive oversight How do their members get selected and what consequences flow from differences in these rules What roles do committees and political parties play in contemporary legislatures What functions do legislatures perform in autocratic semi democratic or recently democratized societies What explains the similarities and differences in legislative rules powers and recruitment What are the policy and other consequences of variation in how legislatures are organized and function The 33 chapters in The Oxford Handbook of Legislative Studies written by 47 of the most distinguished legislative scholars provide a comprehensive and up to date description and assessment of the state of the art in legislative studies Key themes explored include theoretical paradigms and methodological approaches to the study of legislatures representation and legislative careers internal organization the role of parties within legislatures and the role of legislatures in policy making and accountability The Handbook also explores the emergence of parliaments in historical and contemporary contexts including new democracies and trans national institutions

Handbook on Theories of Governance Ansell, Christopher, Torfing, Jacob, 2022-02-18 The thoroughly revised and updated Handbook on Theories of Governance brings together leading scholars in the field to summarise and assess the diversity of governance theories The Handbook advances a deeper theoretical understanding of governance processes illuminating the interdisciplinary foundations of the field

All in the Family Patricia Strach, 2007 All in the Family demonstrates how policymakers employ family across a host of policy areas to achieve their non family goals and the consequences this has for policy stability over time

21st Century Political Science: A Reference Handbook John T Ishiyama, Marijke Breuning, 2011 Offering full coverage of major subthemes and subfields within political science this reference handbook includes entries on topics from theory and methodology to international relations and institutions

Budgetary Institutions and Expenditure Outcomes José Edgardo L. Campos, Sanjay Kumar Pradhan, 1996

Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Positive Theories Of Congressional Institutions full book , it can

give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Positive Theories Of Congressional Institutions eBooks, including some popular titles.

FAQs About Positive Theories Of Congressional Institutions Books

What is a Positive Theories Of Congressional Institutions PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Positive Theories Of Congressional Institutions PDF?**

There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Positive Theories Of Congressional Institutions PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Positive**

Theories Of Congressional Institutions PDF to another file format? There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Positive Theories Of Congressional Institutions PDF?**

Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
