separation anxiety is and how to manage it for your Puppy What kind of training Puppies actually want to engage in How to get your Puppy potty trained in as little as 3 weeks Why praise is more than TWICE as effective as punishment The BEST way to do obedience training with your Puppy And much much more The Punishment and Dominance of dog training methods that were used for decades are quite clearly outdated and come with LOTS of negatives for the dogs They work for sure but at a slower rate and in a way that can negatively harm the poor dog for years and also doesn't build a healthy loving relationship with your puppy Instead it's time to wake up to the mountains of Scientific evidence like the Service Dogs Industry have and look towards the more loving and friendly types of dog training and give your Puppy the training he deserves and loves So if you're ready to train your Puppy to incredible standards in a loving manner while building an amazing relationship then scroll up and click add to cart

Good Puppy Academics Margie Cantwell, 2012-09 This book was written for people who feel overwhelmed confused or simply turned off by all the conflicting dog training methods available to us today There is so much information created by people on the subject that it is difficult to sort out who's right who's wrong what works and what doesn't work I have designed this simple book to touch on the basic things that apply to all dogs and their owners because it's not my way it's nature's way a sensible universal place to start regardless of what kind of dog or puppy you have because it's encoded in their genes As an educator I enjoy teaching people how to live more balanced lives with their pets because I believe dogs are meant to be in our lives as stress reducers not stress producers People should have a pet to enjoy them not to annoy them If your dog is causing you stress chances are you are doing the same to him Who you are and how you interact on a daily basis with your dog will determine what kind of leadership style you represent and what kind of feedback your dog will give you in return Good Puppy Academics incorporates the science of the mind along with canine psychology to achieve a balance that enhances the human and canine partnership You will discover how pain versus pleasure problem solving and having the no skill no kill mentality can help you to tap into your dog's primal intelligence and train your dog more efficiently and humanely because it's not my way it's nature's way
