*Post-Communist Romania at Twenty-Five* Lavinia Stan, Diane Vancea, 2015-06-24 2014 marked the 25th anniversary of the collapse of communist regimes in Eastern Europe The events of 1989 are widely seen as having ushered in new all encompassing reforms in almost all areas of life In few other places were reforms more contested and divisive than in Romania a country that suffered greatly under the sultanistic cum totalitarian dictatorship of Nicolae Ceausescu faced the region's only bloody anti communist revolt and as such had the longest to travel on the road from communism to democracy We now have a generation's worth of experience with these wrenching reforms that have deeply affected Romania's political institutions and political culture and ultimately allowed it to become a member of the coveted European Union club This volume gathers key lessons for democratic theory and practice from Romania's first twenty five years of post communist transformation Written by leading experts in the field of Romanian Studies the chapters focus on the most important factors that have shaped the country's political transformation during the first 25 years of post communism

**Democratization and Securitization** Adina Marina Stefan, 2009 Securitization and Democratization reveals the mutual dependency between democratization and securitization two processes that while evolving reinforce each other The study of the democratic consolidation is complemented by the more complex and dynamic securitization elements that offer an in depth view of the internal threats to be faced Ms Stefan's analysis creates an articulated and coherent concept underlying the close dependence between democracy and security As a study case Romania provides a wide scale of situations in several security sectors and contributes to building a model that is operational in any post communist society

Millard, 2016-01-08 Elections Parties and Representation in Post Communist Europe 1990 2002 stresses the ways in which the development of political parties affected the quality of democracy the nature of political representation and political accountability in the early stages of post communist politics It also analyzes the nature and consequences of the corpus of parliamentary candidates and deputies for the representation of social classes women and minorities In contrast with the wide social profile of communist parliaments politics largely became the playground of new highly educated male elites

**Branding Post-Communist Nations** Nadia Kaneva, 2011-08-26 Nation branding a set of ideas rooted in Western marketing gained popularity in the post communist world by promising a quick fix for the identity malaise of transitional societies Since 1989 almost every country in Central and Eastern Europe has engaged in nation branding initiatives of varying scope and sophistication For the first time this volume collects in one place studies that examine the practices and discourses of the nation branding undertaken in these countries In addition to documenting various rebranding initiatives these studies raise important questions about their political and cultural implications      **Transformational Diplomacy after the Cold War** Keith Hamilton, 2013-04-12 This book examines the Know How Fund Britain's bilateral technical assistance programme in post communist central and eastern Europe devised in response to the end of the Cold War The Know How Fund KHF was the technical assistance programme which Margaret Thatcher's government launched in the spring of 1989 to encourage Poland's transition from communism to democracy and free market capitalism It was subsequently extended to other countries of central and eastern Europe and might be considered a novel experiment in what the US secretary of state Condoleezza Rice would later term transformational diplomacy Drawing upon still closed records of the Cabinet Office the Department for International Development DFID and the Foreign and Commonwealth Office this book explores the political origins of the KHF In particular the author examines its influence upon the transitional process in the lands of the former Soviet bloc its part in attenuating the potentially destabilising effects of revolutionary change in Europe the interdepartmental cooperation and rivalry to which its administration gave rise in Whitehall and the links forged between officials and the worlds of business finance and academe in project design and implementation The volume offers new insights into Britain's reactions to the collapse of communism in central Europe and the Soviet Union the role of aid in the making and conduct of British foreign policy and the significance of New Labour's establishment of DFID as a separate government department This book will be of much interest to students of British Foreign Policy Diplomacy Studies European history Post Communist Transitions and IR in general      The European Union Handbook Jackie Gower, 2013-10-31 First Published in 2002 Routledge is an imprint of Taylor Francis an informa company      **Transitional Justice in Eastern Europe and the Former Soviet Union** Lavinia Stan, 2009-01-13 This book examines transitional justice in Eastern Europe

Hipper,2015-04-20 Anitta M

Hipper examines to what extent and under what conditions the EU s transformative power met with resistance in Romania The book touches upon a raw nerve for most post communist societies justice and anti corruption reform Through the use of a context sensitive approach it assesses how domestic factors influenced the implementation of EU conditionality towards Romania from 1990 to 2012 Empirical investigations reveal a struggle between various interested parties in complying with EU conditionality As a result a complex layer of non compliance emerged and it became a Herculean task to ensure the sustainability of reform by reformist forces within Romania and the EU      **Eastern Christianity in the Digital Space**

Dragos-Ioan Samsudean,2024-05-15 Existing through the ordeals of the Communist regimes of the last century and then facing the expansion of the Internet and the digitalization of the present one East European Orthodoxy seeks to re establish itself on the geopolitical and religious map of today s world Drago Ioan am udean argues that within this context new religious actors such as Ortho bloggers manifest themselves in the digital environment of blogs and social media driven not only by spiritual and religious motivations but also by political economic and institutional ones Caught between the inabilities of the Orthodox Church to offer them a safe religious online framework to express themselves and their various personal and socio political aspirations Orthodox bloggers become religious influencers theologians but also promoters of disinformation and misinformation am udean chose Romania as a case study on Ortho bloggers motivations based on four characteristics of this state the majority Orthodox population a well developed internet infrastructure a local Orthodox Church active online and offline as well as the Geopolitical position of Romania at the intersection of the clash between civilizations and cultures

Party Organization and Electoral Volatility in Central and Eastern Europe Sergiu Gherghina,2014-10-17 Political parties in post communist countries have very high levels of electoral volatility In these environments political factions fail to establish long term connections with the electorate and thus regularly rise and fall from the political arena This book provides an organizational explanation for the variations in party level electoral volatility It looks comparatively at 29 political parties in six Central and Eastern European democracies between 1990 and 2008 to examine how political parties can influence their electoral environment Using empirical evidence Gherghina tests the effect of candidate selection procedures membership organizations and re nomination of incumbent MPs on voters loyalty and in doing so demonstrates how party organization greatly affects electoral stability Including case studies from Bulgaria Czech Republic Hungary Poland Romania and Slovakia this book will be of interest to students and scholars of comparative politics party politics democratization elections and Central and Eastern European politics      **Reflections on 1989 in Eastern Europe** Terry Cox,2013-09-13 This book presents a selection of recent research on the events and developments of 1989 in Eastern Europe

It offers a mix of detailed examinations of the events of 1989 in Eastern Europe thoughtful and considered appraisals of developments and middle range theoretical discussions of patterns of cause and effect The authors range in their approaches from detailed examinations of government and ruling party papers from the archives some of it originally labelled top secret to personal observations and oral history based on interviews with participants to analysis of survey data and official statistics In their chosen focus the essays range from explorations of the emerging crisis in the communist regimes that led to the events of 1989 reflections and insights into the events and changing mood during 1989 itself and examinations of some of the consequences and legacies of 1989 This book was published as a special issue of Europe Asia Studies

**European Integration Since the 1920s** Mark Hewitson, 2024-10-14 Brexit populism and Euroscepticism seem to have challenged old assumptions about European integration and raised the prospect of disintegration This book re examines why the European Union and its forerunners were created and investigates how and why they have changed It links contemporary events to historical explanation arguing that there were long term sets of conditions dating back to the 1920s which pushed European governments to cooperate economically and to try to resolve their diplomatic differences The failure of the French and German governments to create what Aristide Briand had called a European federal union demonstrated both the precariousness of the enterprise and its connection to the domestic politics of European states After 1945 the unexpected advent of a Cold War and the military diplomatic and economic presence of the United States in Europe facilitated the gradual development of habits of cooperation and institutional integration but they also placed limits on European governments activities as did disagreements between political parties and the expectations of citizens As a consequence supranational bodies such as the European Commission have been accompanied and often overshadowed by intergovernmental institutions such as the European Council with the EU as a whole functioning in important respects as a type of confederation The volume addresses a series of large scale historical questions which are integral to an understanding of the European Union It asks how and why citizens of member states have identified with the EU how matters of security affected the development of the European Community during and after the Cold War whether economic and social convergence have taken place and with what consequences and why European institutions have come to function as they have The study is thematic focusing on the most important aspects of European integration and explaining why member states have decided to carry out or have consented to the unique experiment of the European Union

**Making European Citizens** R. Bellamy, D. Castiglione, J. Shaw, 2015-12-31 Making European Citizens examines the forms of transnational citizenship developing in Europe Active citizenship involves more than simply voting Achieving mobilization at a transnational level may involve new democratic techniques and skills The volume explores how far European citizens have acquired the requisite methods and qualities

**Encyclopedia of the United Nations and International Agreements: N to S** Edmund Jan Osmańczyk, 2003 This thoroughly revised and updated edition is the most comprehensive and detailed reference

ever published on United Nations The book demystifies the complex workings of the world's most important and influential international body

*The Romanian Revolution of December 1989* Peter Siani-Davies, 2007 The Romanian Revolution of 1989 was the most spectacularly violent and remains today the most controversial of all the East European upheavals of that year Despite or perhaps because of the media attention the revolution received it remains shrouded in mystery How did the seemingly impregnable Ceausescu regime come to be toppled so swiftly and how did Ion Iliescu and the National Salvation Front come to power Was it by coup d'état Who were the mysterious terrorists who wreaked such havoc on the streets of Bucharest and the other major cities of Romania Were they members of the notorious securitate What was the role of the Soviet Union Blending narrative with analysis Peter Siani Davies seeks to answer these and other questions while placing the events and their immediate aftermath within a wider context Based on fieldwork conducted in Romania and drawing heavily on Romanian sources including television and radio transcripts official documents newspaper reports and interviews this book is the most thorough study of the Romanian Revolution that has appeared in English or any other major European language Recognizing that a definitive history of these events may be impossible Siani Davies focuses on the ways in which participants interpreted the events according to particular scripts and myths of revolution rooted in the Romanian historical experience In the process the author sheds light on the ways in which history and the conflicting retellings of the 1989 events are put to political use in the transitional societies of Eastern Europe

**Constructing South East Europe** Dimitar Bechev, 2011-03-15 Regional cooperation has become a distinctive feature of the Balkans an area known for its turbulent politics Exploring the origins and dynamics of this change this book highlights the transformative power of the EU and other international actors
