Gorman, 2019-06-26 Whether the nearly twelve years of military rule in Peru between October 1968 and July 1980 are labelled a revolution so called revolution or simply a military dictatorship one fact remains inescapable the reforms and programs of the armed forces during that period profoundly altered Peruvian society This book examines the social political and economic legacies of the military government and identifies major areas of tension that are likely to pose problems for the new civilian government Following a review of the ideology socio economic goals and political performance of the Institutional Revolution of the Armed Forces the authors analyze the contemporary political economy of Peru and catalog the political and economic policy alternatives available to the Bela nde regime in the next few years They discuss the return to partisan politics in Peru urban and rural conditions and the way in which real political power has remained with the military forces despite their surrender of formal authority Subsequent chapters outline the IMF imposed stabilization program revealing its devastating effects on Lima s urban poor and summarize recent Peruvian foreign policy A final chapter draws on the prior discussion to present a critical analysis of the transitionary process from military to civilian rule in Peru Higher Education, State Repression, and Neoliberal Reform in Nicaragua Wendi Bellanger, Serena Cosgrove, Irina Carlota Silber, 2022-09-27 This innovative volume makes a key contribution to debates around the role of the university as a space of resistance by highlighting the liberatory practices undertaken to oppose dual pressures of state repression and neoliberal reform at the Universidad Centroamericana UCA in Nicaragua Using a critical ethnographic approach to frame the experiences of faculty and students through vignettes chapters present contextualized analytical contributions from students scholars and university leaders to draw attention to the activism present within teaching research and administration while simultaneously calling attention to critical higher education and international solidarity as crucial means of maintaining academic freedom university autonomy oppositional knowledge production and social outreach in higher education globally This text will benefit researchers students and academics in the fields of higher education
