Radical Theatrics Craig J. Peariso, 2014-12-01 From burning draft cards to staging nude protests much left wing political activism in 1960s America was distinguished by deliberate outrageousness This theatrical activism aimed at the mass media and practiced by Abbie Hoffman and the Yippies the Black Panthers and the Gay Activists Alliance among others is often dismissed as naive and out of touch or criticized for tactics condemned as silly and off putting to the general public In *Radical Theatrics* however Craig Peariso argues that these over the top antics were far more than just the spontaneous actions of a self indulgent radical impulse Instead he shows they were well considered aesthetic and political responses to a jaded cultural climate in which an unreflective tolerance masked an unwillingness to engage with challenging ideas Through innovative analysis that links political protest to the art of contemporaries such as Andy Warhol Peariso reveals how the put on the signature activist performance of the radical left ended up becoming a valuable American political practice one that continues to influence contemporary radical movements such as Occupy Wall Street

Living for the City Donna Jean Murch, 2010-10-04 In this nuanced and groundbreaking history Donna Murch argues that the Black Panther Party BPP started with a study group Drawing on oral history and untapped archival sources she explains how a relatively small city with a recent history of African American settlement produced such compelling and influential forms of Black Power politics During an era of expansion and political struggle in California s system of public higher education black southern migrants formed the BPP In the early 1960s attending Merritt College and other public universities radicalized Huey Newton Bobby Seale and many of the young people who joined the Panthers rank and file In the face of social crisis and police violence the most disfranchised sectors of the East Bay s African American community young poor and migrant challenged the legitimacy of state authorities and of an older generation of black leadership By excavating this hidden history *Living for the City* broadens the scholarship of the Black Power movement by documenting the contributions of black students and youth who created new forms of organization grassroots mobilization and political literacy

Target Zero Eldridge Cleaver, 2024-03-26 Former Black Panther information minister Eldridge Cleaver was a complex man who inspired profound adulation love rage and among many fear *Target Zero* brings Cleaver s controversial story into focus through his own words This books charts Cleaver s life through his writings his quiet childhood

his youth spent in prison his startling emergence as a Black Panther leader who became a fugitive from justice by the end of 1968 his seven year exile and his religious and political conversion following his return to the U S Target Zero which brings together previously unpublished essays short stories letters interviews and poems is the most significant collection of Eldridge Cleaver's writing since his bestselling book *Soul on Ice* 1968 New Day in Babylon William L. Van Deburg, 1993-09-01 The most comprehensive account available of the rise and fall of the Black Power Movement and of its dramatic transformation of both African American and larger American culture With a gift for storytelling and an ear for street talk William Van Deburg chronicles a decade of deep change from the armed struggles of the Black Panther party to the cultural nationalism of artists and writers creating a new aesthetic Van Deburg contends that although its tactical gains were sometimes short lived the Black Power movement did succeed in making a revolution one in culture and consciousness that has changed the context of race in America *New Day in Babylon* is an extremely intelligent synthesis a densely textured evocation of one of American history's most revolutionary transformations in ethnic group consciousness Bob Blauner *New York Times* Winner of the Gustavus Myers Center Outstanding Book Award 1993 *Black Feelings* Lisa M. Corrigan, 2020-02-25 Honorable Mention Recipient of the 2021 Marie Hochmuth Nichols Award for Outstanding Scholarship in Public Address by the National Communication Association In the 1969 issue of *Negro Digest* a young Black Arts Movement poet then named Ameer Amiri Baraka published *We Are Our Feeling* The Black Aesthetic Baraka's emphasis on the importance of feelings in Black selfhood expressed a touchstone for how the Black liberation movement grappled with emotions in response to the politics and racial violence of the era In her latest book award winning author Lisa M Corrigan suggests that Black Power provided a significant repository for negative feelings largely Black pessimism to resist the constant physical violence against Black activists and the psychological strain of political disappointment Corrigan asserts the emergence of Black Power as a discourse of Black emotional invention in opposition to Kennedy era white hope As integration became the prevailing discourse of racial liberalism shaping midcentury discursive structures so too did racial feelings mold the biopolitical order of postmodern life in America By examining the discourses produced by Martin Luther King Malcolm X Stokely Carmichael Huey Newton Eldridge Cleaver and other Black Power icons who were marshaling Black feelings in the service of Black political action Corrigan traces how Black liberation activists mobilized new emotional repertoires Civil War Memories Robert J. Cook, 2017-11-12 Cook makes clear the powerful ways that the reverberations of the Civil War still resonate within American political culture A compelling story Joan Waugh author of *U S Grant* Winner of the 2018 Book Prize in American Studies of the British Association of American Studies At a cost of at least 800 000 lives the Civil War preserved the Union aborted the breakaway Confederacy and liberated a race of slaves *Civil War Memories* is the first comprehensive account of how and why Americans have selectively remembered and forgotten this watershed conflict since its conclusion in 1865 Drawing on an array of textual and visual sources as well as a wide range of modern scholarship

on Civil War memory Robert J Cook charts the construction of four dominant narratives by the ordinary men and women as well as the statesmen and generals who lived through the struggle and its tumultuous aftermath Part One explains why the Yankee victors memory of the War of the Rebellion drove political conflict into the 1890s then waned with the passing of the soldiers who had saved the republic Part Two demonstrates the Civil War s capacity to thrill twentieth century Americans in movies such as The Birth of a Nation and Gone with the Wind It also reveals the war s vital connection to the black freedom struggle in the modern era Written in vigorous prose for a wide audience and designed to inform popular debate on the relevance of the Civil War to the racial politics of modern America Civil War Memories is required reading for informed Americans today Fast paced well researched and gripping John David Smith author of A Just and Lasting Peace Famous Lines Robert Andrews,1997 This scientific detective story is the first book which explains clearly the science used by paleontologists and the new cutting edge techniques that led to the discovery of Seismosaurus the longest dinosaur yet known and possibly the largest land animal to have ever lived Gillette s first person account of the project answers the most frequently asked questions about Seismosaurus How was it discovered How do we know it is a new species How did it die Part catalogue of the workings of paleontological science in the 1990s the book also illustrates the exciting collaboration between Gillette the chemists and physicists who helped to reconstruct Seismosaurus **Berkeley at War : The 1960s** W.J. Rorabaugh Professor of History University of Washington,1989-05-04 Berkeley California was the bellwether of the political social and cultural upheaval that made the 1960s a unique period of American history a time when the top down methods of a conservative establishment collided head on with the bottom up grass roots ethos of the civil rights movement and an increasingly well educated and individualistic middle class W J Rorabaugh who attended the graduate school of the University of California at Berkeley in the early 1970s presents a lively and informative account of the events that overtook and changed forever what had once been a quiet conservative white suburb The rise of the Free Speech Movement which gave a voice to disfranchised students the growth and increasing militance of a black community struggling to end segregation the emergence of radicalism and the anti war movement the blossoming of hippie culture with its scorn for materialism and enthusiasm for experimentation with everything from sex and drugs to Eastern philosophies the beginnings of modern day feminism and environmentalism and how all of these coalesced in the explosive conflict over People s Park are traced in a meticulously researched and authoritative narrative At issue was the question of power and the struggle between the establishment and the powerless led to developments that the advocates of a freer society could scarcely have foreseen Ronald Reagan elected governor of California in reaction to the events at Berkeley and Edwin H Meese III who battled against the student movement and People s Park rose to national power in the 1980s without however gaining any popularity in Berkeley where Walter Mondale won 83 percent of the vote in 1984 An invaluable account of its time and place this book anchors the 60s in American history both before and since that colorful decade *Terror and Democracy in West Germany*

Karrin Hanshew,2012-08-20 Karrin Hanshew examines West German responses to 1970s terrorism to explain why the experience had lasting significance for German politics and society

African American Environmental Thought Kimberly K. Smith,2021-02-02 African American intellectual thought has long provided a touchstone for national politics and civil rights but as Kimberly Smith reveals it also has much to say about our relationship to nature In this first single authored book to link African American and environmental studies Smith uncovers a rich tradition stretching from the abolition movement through the Harlem Renaissance demonstrating that black Americans have been far from indifferent to environmental concerns Beginning with environmental critiques of slave agriculture in the early nineteenth century and evolving through critical engagements with scientific racism artistic primitivism pragmatism and twentieth century urban reform Smith highlights the continuity of twentieth century black politics with earlier efforts by slaves and freedmen to possess the land She examines the works of such canonical figures as Frederick Douglass Booker T Washington W E B Du Bois and Alain Locke all of whom wrote forcefully about how slavery and racial oppression affected black Americans relationship to the environment Smith s analysis focuses on the importance of freedom in humans relationship with nature According to black theorists the denial of freedom can distort one s relationship to the natural world impairing stewardship and alienating one from the land Her pathbreaking study offers the first linkage of the early conservation movement to black history the first detailed description of black agrarianism and the first analysis of scientific racism as an environmental theory It also offers a new way to conceptualize black politics by bringing into view its environmental dimension as well as a normative environmental theory grounded in pragmatism and aimed at identifying the social conditions for environmental virtue Smith s work offers a new approach to established writers and thinkers and shows that they justly deserve a place in the canon of

American environmental thought African American Environmental Thought enriches our understanding of black politics and environmental history and of environmental theory in general Because slavery and racism have shaped the meaning of the American landscape this body of thought offers us fresh conceptual resources by which we can make better sense of our world *Oxford Dictionary of Modern Quotations* Elizabeth Knowles, 2007-08-23 Containing more than 5 000 quotations from authors as diverse as Bertolt Brecht George W Bush Homer Simpson Carl Sagan William Shatner and Desmond Tutu the dictionary is organized alphabetically by author with generous cross referencing and keyword and thematic indexes This new edition features more than 500 new quotations and 187 new authors The book includes special sections featuring quotations from cartoons films political slogans famous last words misquotations official advice newspaper headlines and more **The Dangerous Class** Clyde Barrow, 2020-10-19 Marx and Engels concept of the lumpenproletariat or underclass an anglicized politically neutral term appears in *The Communist Manifesto* and other writings It refers to the dangerous class the social scum that passively rotting mass thrown off by the lowest layers of old society whose lowly status made its residents potential tools of the capitalists against the working class Surprisingly no one has made a substantial study of the lumpenproletariat in Marxist thought until now Clyde Barrow argues that recent discussions about the downward spiral of the American white working class its main problem is that it is not working have reactivated the concept of the lumpenproletariat despite long held belief that it is a term so ill defined as not to be theoretical Using techniques from etymology lexicology and translation Barrow brings analytical coherence to the concept of the lumpenproletariat revealing it to be an inherent component of Marx and Engels analysis of the historical origins of capitalism However a proletariat that is destined to decay into an underclass may pose insurmountable obstacles to a theory of revolutionary agency in post industrial capitalism Barrow thus updates historical discussions of the lumpenproletariat in the context of contemporary American politics and suggests that all post industrial capitalist societies now confront the choice between communism and dystopia **Prison Power** Lisa M. Corrigan, 2016-11-04 Winner of the 2017 Diamond Anniversary Book Award and the African American Communication and Culture Division's 2017 Outstanding Book Award both from the National Communication Association In the Black liberation movement imprisonment emerged as a key rhetorical theoretical and media resource Imprisoned activists developed tactics and ideology to counter white supremacy Lisa M Corrigan underscores how imprisonment a site for both political and personal transformation shaped movement leaders by influencing their political analysis and organizational strategies Prison became the critical space for the transformation from civil rights to Black Power especially as southern civil rights activists faced setbacks Black Power activists produced autobiographical writings essays and letters about and from prison beginning with the early sit in movement Examining the iconic prison autobiographies of H Rap Brown Mumia Abu Jamal and Assata Shakur Corrigan conducts rhetorical analyses of these extremely popular though understudied accounts of the Black Power movement She introduces the notion of the Black Power vernacular as a term for the prison memoirists rhetorical

innovations to explain how the movement adapted to an increasingly hostile environment in both the Johnson and Nixon administrations Through prison writings these activists deployed narrative features supporting certain tenets of Black Power pride in Blackness disavowal of nonviolence identification with the Third World and identity strategies focused on Black masculinity Corrigan fills gaps between Black Power historiography and prison studies by scrutinizing the rhetorical forms and strategies of the Black Power ideology that arose from prison politics These discourses demonstrate how Black Power activism shifted its tactics to regenerate even after the FBI sought to disrupt discredit and destroy the movement
