methodological journey examining a series of activist approaches to design research The book is a methodological appendix for design research discussing a number of intersecting and overlapping lines of artistic and academic research practices Taking a hacktivist perspective the methodology explores how action and participatory forms of research interventions interrogative practice and small change intensifications can shape new research agendas and applications By using a nomadic practice and diffractive thinking the methods aim to create new possibilities and open wider action spaces for grounded design research with rhizomatic validity all in an effort to redesign design *Antonin Artaud's Writing Bodies*

Adrian Morfee, 2005-07-28 Publisher Description **The Edges of Trauma** Tamás Béneyei, Alexandra Stara, 2014-06-30 A collection of essays by an international group of scholars The Edges of Trauma Explorations in Visual Art and Literature addresses the vast cultural and discursive construction that trauma has become in recent decades Unravelling aspects of representing narrating testifying to trauma and of sharing or conveying traumatic non experience many of the essays offer new perspectives on traditionally central topics of trauma studies including shellshock sexual abuse the Holocaust AIDS and 9 11 or on canonical trauma texts such as Art Spiegelman's Maus W G Sebald's Austerlitz and Virginia Woolf's autobiographical writings Some authors take issue with the at least partly commercially motivated canonisation of trauma fiction and with the automatic linking of certain textual features with traumatic experiences In other essays trauma works as an interpretative device that allows us to see otherwise familiar texts like Paul Scott's Raj Quartet and the fiction of Beckett and Agota Kristof in a new light Other contributors interrogate less obvious cultural and artistic representations including First World War British painting Jean Richard Bloch's wartime writings Félix González Torres's candy spills the photography of Peter Piller and Ori Gersht and recent American television comedy in the context of trauma while one author explores her own artistic practice as part of the working through of traumatic experiences The Edges of Trauma differs from other volumes concerned with trauma and art in that it gathers together essays on both literature and visual art These essays are concerned with the relationship between trauma and art traumatic non experience and aesthetic experience exploring how the non experience of trauma finds its way into artistic representations **Theophylact of Ochrid** Margaret

Mullett, 2016-12-05 Few works exist on Byzantine literature as literature and still fewer studies of individual texts This reading of the letter collection c 1090 c 1110 of Theophylact of Ochrid employs a variety of approaches to characterise a work which is both a literary artefact in a long Greek tradition and the only trace of a complex network of friends colleagues patrons and clients within Byzantine Bulgaria and also within the empire as a whole These letters are of great importance from the point of view of local economic or ecclesiastical history relations with the Slavs the arrival of the First Crusade but have not hitherto been studied as an example of Byzantine letter writing This was a genre taken seriously by Byzantines offering us unique insight into the mentality of the Byzantine elite but also into what the Byzantines regarded as literature This book is important as an attempt to raise the status of the study of Byzantine literature and of letters within that

literature It is a first attempt to place an epistolary text in a succession of literary and historical contexts its aim too is to probe the reliability of any rhetorical text for straightforward biography especially at the time of the revival fiction in Byzantium At the heart of the book is an analysis of the personal network of Theophylact as presented in the collection with further methodological discussion of network analysis in medieval texts *Robert Walser* Samuel Frederick, Valerie Heffernan, 2018-06-15 The Swiss writer Robert Walser 1878 1956 is now recognized as one of the most important European authors of the modernist period having garnered high praise from such prominent voices as Susan Sontag W G Sebald and J M Coetzee Robert Walser A Companion is the first comprehensive guide to Walser s work in English The twelve essays in this collection examine Walser s literary output historical milieu and idiosyncratic writing process addressing aspects of his biography discussing the various genres in which he wrote the novel short prose drama lyric poetry and letters and analyzing his best known novels and short stories alongside lesser known but no less fascinating poems plays and prose pieces An essential addition to the scholarship about this eccentric prolific and influential writer s work Robert Walser A Companion will be of interest both to established scholars and to those coming to Walser for the first time **Literary Culture and U.S. Imperialism** John Carlos Rowe, 2000 John Carlos Rowe considered one of the most eminent and progressive critics of American literature has in recent years become instrumental in shaping the path of American studies His latest book examines literary responses to U S imperialism from the late eighteenth century to the 1940s Interpreting texts by Charles Brockden Brown Poe Melville John Rollin Ridge Twain Henry Adams Stephen Crane W E B Du Bois John Neihardt Nick Black Elk and Zora Neale Hurston Rowe argues that U S literature has a long tradition of responding critically or contributing to our imperialist ventures Following in the critical footsteps of Richard Slotkin and Edward Said Literary Culture and U S Imperialism is particularly innovative in taking account of the public and cultural response to imperialism In this sense it could not be more relevant to what is happening in the scholarship and should be vital reading for scholars and students of American literature and culture **The Ethics of Literary Communication** Roger D. Sell, Adam Borch, Inna Lindgren, 2013-09-25 Viewing literature as one among other forms of communication Roger D Sell and his colleagues evaluate writer respondent relationships according to the same ethical criterion as applies for dialogue of any other kind In a nutshell Are writers and readers respecting each other s human autonomy If and when the answer here is Yes Sell s team describe the communication that is going on as genuine In this latest book they offer new illustrations of what they mean by this and ask whether genuineness is compatible with communicational directness and communicational indirectness Is there a risk for instance that a very direct manner of writing could be unacceptably coercive or that a more indirect manner could be irresponsible or positively deceitful The book s overall conclusion is Not necessarily A directness which is truthful and stimulates free discussion does respect the integrity of the other person And the same is true of an indirectness which encourages readers themselves to contribute to the construction and assessment of ideas stories and experiences sometimes

literary indirectness may allow greater scope for genuineness than does the directness of a non literary letter By way of illustrating these points the book opens up new lines of inquiry into a wide range of literary texts from Britain Germany France Denmark Poland Romania and the United States

*After the Long Silence* Claudia Tatinge Nascimento, 2019-07-23 *After the Long Silence* offers a ground breaking meticulously researched criticism of Brazilian contemporary performance created by its post dictatorship generation whose work expresses the consequences of decades of state imposed censorship By offering an in depth examination of key artists and their works Claudia Tatinge Nascimento highlights Brazil's political trajectory while never allowing the weight of historical events to offset key aesthetic trends Brazilian theater artists born around the time of the nation's 1964 military coup experienced the oppressive rule of dictatorship throughout their formative years but came of age as Brazil re entered democracy some two decades later This book showcases how the post dictatorship generation developed performances that mapped the uncharted territories of Brazil's political trauma with new dramaturgies site specific and street productions and aesthetic experimentation The author's in depth research into a wide array of archival materials and publications in both Portuguese and English demonstrates how the artistic practices of significant post dictatorship artists such as Cia dos Atores Teatro da Vertigem Grupo Galp o Os Fofos Encenam and Newton Moreno were driven by critical thinking and a postcolonial sentiment proving symptomatic of the nation's shift from an ethos of half truth telling into a transitional justice that fell short in affirming citizenship Ideal for scholars of the intersection of theatre and politics *After the Long Silence* The Theater of Brazil's Post Dictatorship Generation offers insight into the function of theater in times of political turmoil and artmaking practices that emerge in response to oppressive regimes
