**Democracy and Post-Communism** Graeme Gill, 2003-08-27 The collapse of communism was widely heralded as the dawn of democracy across the former Soviet region However the political outcome has been much less uniform The post communist states have developed political systems from democracy to dictatorship Using examples and empirical data collected from twenty six former Soviet states Graeme Gill provides a detailed comparative analysis of the core issues of regime change the creation of civil society economic reform and the changing nature of post communism Within these individual cases it becomes clear that political outcomes have not been arbitrary but directly reflect the circumstances surrounding the birth of independence

**Postcolonial Perspectives on Postcommunism in Central and Eastern Europe** Dorota

Kołodziejczyk, Cristina Șandru, 2017-10-02 A quarter of a century after the fall of the Berlin Wall and from the vantage point of a post Cold War globalised world there is a need to address the relative neglect of postcommunism in analysis of postcolonial and neo colonial configurations of power and influence This book proposes new critical perspectives on several themes and concepts that have emerged within or been propagated by postcolonial studies These themes include structures of exclusion inclusion formations of nationalism structures of othering and representations of difference forms and historical realisations of anti colonial anti imperial struggle the experience of trauma involving issues of collective memory amnesia and the re writing of history resistance as a complex of cultural practices and concepts such as alterity ambivalence self colonisation dislocation hegemonic discourse minority and subaltern cultures Taken together this volume suggests that some of the methodological instruments of postcolonial criticism can be fruitfully applied to the study of postcommunist cultures and conversely that the experience of the Soviet brand of imperialist rule in the form of communism in East Central Europe can function as an ideological moderator in Third World oriented Marxist inspired postcolonial discourses This book was originally published as a special issue of the Journal of Postcolonial Writing

*The Political Analysis of Postcommunism* Volodymyr Polokhalo, 1997 Transformation is still the order of the day in the politics of the former Soviet Union and Eastern Europe as they emerge from decades of communism and try to forge new identities new economies new societies The Political Analysis of Postcommunism offers the perspectives of prominent political scientists historians sociologists philosophers and others each writing on a particular aspect of the transformation of society from communist to postcommunist forms Originally published in English and Ukrainian in 1995 in Kiev by the editors of the Ukrainian journal Political Thought this volume is written by those who have themselves lived through the changes Political scientists sociologists and others interested in the progress of postcommunist society in the independent formerly communist nations of Eastern Europe and Central Asia will profit from reading these thought provoking early insights into the world to come

*Postcommunism from Within* Jan Kubik, Amy Linch, 2013-08-26 While the decline of communism in the late twentieth century brought democracy political freedom and better economic prospects for many people it also produced massive social dislocation and engendered social problems that were far less pronounced under the old regimes The fall of state socialism led to enormously complex political economic social and cultural transformations and while political liberalization was a lofty goal it was neither uniform in its effects nor unqualified in its benefits Postcommunism from Within foregrounds the diversity of the historical experiences and current realities of people in the postcommunist region in examining how they are responding to these monumental changes at home The original essays in this volume lay out a bold new approach to research on the postcommunist region and to democratization studies more broadly that focuses on the social and cultural microprocesses behind political and economic transformation Thematic essays by eminent scholars of postcommunism from across the social sciences are supported by case studies to demonstrate the limitations of current democratization paradigms

and suggest ways of building categories of research that more closely capture the role of vernacular knowledge in demanding creating and adapting to institutional change A novel approach to understanding one of the greatest political and social transformations in recent history Postcommunism from Within explores not just how citizens respond to political and economic restructuring engineered at the top but also how people enact their own visions of life politics and justice by responding to daily challenges *Postcommunism and the Body Politic* Ellen E. Berry,1995-07 The epidemic of mass rape in the former Yugoslavia has illustrated once again and in particularly brutal fashion the inextricable relationship between national politics sexual politics and body politics The nexus of these three forces is highly charged in any culture at any time in history but especially so among cultures in which rapid even cataclysmic changes in material realities and national self conceptions are eroding or overwhelming previously secure boundaries The postcommunist moment in the so called Second World Central and Eastern Europe and the former Soviet Union has dramatically exposed the opportunities and dangers that arise when the political cultural and economic foundations of a society are de and then re structured Gender roles and relations expressions of sexuality or attempts to recontain them representations of the body especially the female body and the larger cultural meanings it assumes are particularly marked sites to witness the performance of complex national dramas of crisis and change This groundbreaking volume turns its attention to the Second World specifically to such subjects as the birth of the sex media and porn industry in Russia Russian women and alcoholism cinema in post communist Hungary patriotism and gender in Poland sexual dissidence in Eastern Europe and women in the former Yugoslavia go to the Genders website **Video Games between Postcolonialism and Postcommunism** Andrei Nae,2025-12-14 Although in recent years there has been a growing interest in the racial politics of video games the wider context of colonialism is yet to benefit from the same level of academic consideration Moreover when colonialism is tackled directly the approach is limited to a Global North Global South or West East binary that does not do justice to the multiple forms of coloniality that have existed around the world This volume sets out to fill the existing gap in scholarship on colonialism in video games by featuring a collection of essays that together provide insight into the complex ramifications of coloniality and its multiple intersecting power structures not only in video games of the Global North Global South or West East divides but also in regions traditionally overlooked by postcolonial theory One such region that this volume focuses on is Eastern Europe and its postcommunist contexts that intersect with coloniality in video games produced inside or outside the region Through its methodological diversity and non provincial understanding of colonial power relations the present volume will offer scholars and students of game studies and area studies a rich perspective on video games entanglement with colonial legacies **Encyclopedia of Government and Politics** M. E. Hawkesworth,Maurice Kogan,2004 This is a brand new edition of the critically acclaimed Encyclopedia of Government and Politics which has been fully revised and updated to provide a systematic account of politics and political studies at the beginning of the new millennium Providing a penetrating analysis of

**Representations of Post-Communism** Andaluna Borcila, 2014-07-11 With the televised events of 1989 territories of Eastern and Central Europe that had been marked as impenetrable and inaccessible to the Western gaze exploded into visibility As the narratives of the Cold War crumbled new narratives emerged and new geographies were produced on and by American television Using an understudied archive of American news broadcasts and tracing their flashes and echoes through travel guides and narratives of return written by Eastern European Americans this book explores American ways of seeing and mapping communism's disintegration and the narratives articulated around post communist sites and subjects

**The Romanian Mass Media and Cultural Development** David Berry, 2017-07-05 This compelling book assesses the development of the mass media since the Romanian Revolution in December 1989 and the media's impact on cultural development the public sphere civil society and democracy It controversially claims that Romania's failure to experience a thoroughgoing enlightenment project in its entire history remains a major obstacle for producing democratic ownership of the media and democratic development of society Analyzing both the print and broadcast media and their respective effects on development the book also discusses the effects of Romanian law on media and societal development ethics and media responsibilities It concludes however that far from having an absolutely negative impact on Romanian post communism the media has helped produce a contradictory empirical form that equally contains positive moments in terms of subjective cultural development **Gender and Identity Construction** Feride Acar, Günes-Ayate, 2021-12-28 This volume deals with

issues and problems of national and gender identity in Central Asia the Caucasus and Turkey Articles discuss experiences and position of women vis vis state intervention economic political and cultural change in both public and private spheres of life In the book the real life conditions and experiences of women are analyzed on three complementary levels The first of these is the economic and institutional circumstances shaped by structural adjustment policies globalization and transnational policies The second is realities of everyday life particularly pertaining to family religion tradition and education The third level is that of politics and ideology where national and nationalist discourses often build on the gender identity shaped by the economic and social levels The book does not only present a cross cultural analysis of women s position in the region but also reflects the varied perspectives of female scholars from many different countries and disciplines **The Social Sciences Empowered** Ford Lumban Gaol,Fonny Hutagalung,Chew Fong Peng,2020-04-14 The Social Sciences Empowered contains papers presented at the 7th International Congress on Interdisciplinary Behavior and Social Science 2018 ICIBSoS 2018 held 21 22 July 2018 Bangkok Thailand 22 23 September 2018 Bali Indonesia 6 7 October 2018 Kuta Bali Indonesia and 24 25 November 2018 Yogyakarta Indonesia ICIBSoS 2018 provided the economic and social analysis necessary for addressing issues in Humanities disciplines such as Education Sociology Anthropology Politics History Philosophy Psychology as well as food security Contributions to these proceedings give necessary insight into the cultural and human dimension of such diverse research areas as transport climate change energy and agriculture ICIBSoS 2018 also analyses the cultural behavioural psychological social and institutional drivers that transform people s behaviour and the global environment ICIBSoS 2018 proposes new ideas strategies and governance structures for overcoming the crisis from a global perspective innovating the public sector and business models promoting social innovation and fostering creativity in the development of services and product design Imagining Postcommunism Beverly A. James,2005-03-29 Although the 1956 Hungarian uprising failed to liberate the country from Soviet domination it became a symbol of freedom for people throughout Eastern Europe and beyond Labeling the events a counterrevolution communist authorities exacted revenge in two years of terror and intimidation Then for the next thirty years they pursued a policy of forced forgetting attempting to obliterate public memory of the events As communism unraveled in the late 1980s the 1956 revolution was resurrected as inspiration for a new political order In Imagining Postcommunism Beverly James demonstrates how 1956 became a foundational myth according to which the bloody events of that fall led to the ceremonial reburial of the martyred prime minister Imre Nagy in 1989 free elections in 1990 and the withdrawal of the last Soviet soldiers on June 19 1991 She shows how museums monuments and holiday rituals have aided the construction of a new Hungary through the reclamation and expression of competing memories of the critical events of 1956 Surveying the dazzling array of ceremonies exhibitions and memorials commemorating the revolution and its heros James invites readers to consider the difference between the communist regime s master narrative of 1956 with its smug false unity and the multiple polemical stories woven by

competing political forces in postcommunist Hungary A thoughtful application of communication and historical theories on the uses of memory this study offers a unique perspective on a crucial episode in the history of Eastern Europe     Writing Postcommunism D. Williams,2013-08-16 Moving through the elegiac ruins of the Berlin Wall and the Yugoslav disintegration Writing Postcommunism explores literary evocations of the pervasive disappointment and mourning that have marked the postcommunist twilight     The Promise of the Third Way O. Newman,R. De Zoysa,Richard De Zoysa,2001-05-16 Aiming to transcend the outdated conflict between Left and Right the Third Way was welcomed by leading figures on the world stage Its programme of modernisation flexibility and community regeneration indicated a way forward for the New Age Within a firm market emphasis equality of opportunity and social inclusion were given a prominent place However its lack of direction and disinclination to face hard decisions have left its promise unfulfilled This book puts forward a rigorous rethinking towards making the Third Way an effective instrument of progress for Britain as well as abroad
