Post Communist Democratization Political Discourses Across Thirteen Countries:

Postcommunist Democratization John S. Dryzek, 2002 Democracy is not just a matter of constitutions parliaments elections parties and the rule of law In order to see if or how democracy works we must attend to what people make of it and what they think they are doing as they engage with politics or as politics engages them This book examines the way democracy and democratization are thought about and lived by people in China Russia and eleven other countries in the post communist world It shows how democratic politics and sometimes authoritarian politics works in these countries and generates insights into the prospects for different kinds of political development The authors explore the implications for what is probable and possible in terms of trajectories of political reform and examine four roads to democratization liberal republican participatory and statist The book will be of interest to students and scholars of comparative politics political theory and post communist studies Jacket *The Post-Communist Condition* Aleksandra Galasińska, Dariusz Galasiński, 2010-06-17 This volume offers interdisciplinary perspectives on discourses in one national context of post communist transformation Proposing a macro micro approach to discourse analysis and transformation it examines a spectrum of topics including Polish history with its interpreters changes in political bodies and the media policies of the Catholic Church and the Institute of National Remembrance xenophobia and anti-Semitism with the emergence of unemployment and homelessness experiences of new gender relations and migrations In effect drawing upon unique sets of data the book shows how post communist transformation can be understood through analyses of the changing public and private discourses It shows Polish post communism as a fragile and uneasy transformation with people and institutions struggling to make sense of it and of life within it The volume will be of interest to a broad range of social scientists discourse analysts sociologists modern historians and political scientists as well as to the informed lay public Postcommunist Democratization John S. Dryzek, 2002 Democracy is not just a matter of constitutions parliaments elections parties and the rule of law In order to see if or how democracy works we must attend to what people make of it and what they think they are doing as they engage with politics or as politics engages them This book examines the way democracy and democratization are thought about and lived by people in China Russia and eleven other countries in the post communist world It shows how democratic politics and sometimes authoritarian politics works in these countries and generates insights into the prospects for different kinds of political development The authors explore the implications for what is probable and possible in terms of trajectories of political reform and examine four roads to democratization liberal republican participatory and statist The book will be of interest to students and scholars of comparative politics political theory and post communist studies Jacket

Transnational Public Spheres Mohammadbagher Forough, 2024-10-28 This book offers the first systematic theorisation of transnational public spheres from non Western spatial and infrastructural perspectives The current era is characterised by transnational challenges such as climate change pandemics and financial crises that cannot be adequately

addressed by national public spheres Public spheres defined as arenas of collective communication and action are the cornerstone of any people centred system of governance This book puts forward a transnational public sphere theory and focuses on spatial infrastructural and non Western perspectives thus adding to the public sphere theory and practice at both national and transnational levels The author offers a new conceptual construct the right to space as a way of transnationalising the theory and addressing its efficacy issues Providing conceptual clarity on the public private distinction this book examines the historical roots of the public sphere in both Asia and Europe establishes the methodological and ontological foundations for a theory of transnational publics and analyses contemporary empirical instances of transnational publics in both Asia and the West This transnationalisation is crucial now that authoritarianism is on the rise and democracy is in decline worldwide A timely addition to the literature this book will be of interest to researchers in international relations political science political theory sociology media and communication cultural and literary studies and Asian studies

Deliberative Systems John Parkinson, Jane Mansbridge, 2012-07-05 Deliberative democracy is often dismissed as a set of small scale academic experiments This volume seeks to demonstrate how the deliberative ideal can work as a theory of democracy on a larger scale It provides a new way of thinking about democratic engagement across the spectrum of political action from towns and villages to nation states and from local networks to transnational even global systems Written by a team of the world's leading deliberative theorists *Deliberative Systems* explains the principles of this new approach which seeks ways of ensuring that a division of deliberative labour in a system nonetheless meets both deliberative and democratic norms Rather than simply elaborating the theory the contributors examine the problems of implementation in a real world of competing norms competing institutions and competing powerful interests This pioneering book will inspire an exciting new phase of deliberative research both theoretical and empirical

Changing Images of the Left in Bulgaria Boris Popivanov, 2015-08-01 Is Bulgaria's Left heading towards decomposition or to a new identity Popivanov offers an excellent analytical answer Georgi Karasimeonov Professor of Political Science at Sofia University

Issues and Methods in Comparative Politics Todd Landman, 2003-12-16 Building on the strengths of the first edition this accessible and user friendly textbook explores the strategies of comparative research in political science It begins by examining different methods then highlights some of the big issues in comparative politics using a wealth of topical examples before discussing the new challenges in the area Thoroughly revised throughout with the addition of extensive new material this edition is also supplemented by the availability online of the author's datasets The book is designed to make a complex subject easier and more accessible for students and contains briefing boxes explaining key concepts and ideas suggestions for further reading at the end of each chapter a glossary of terms

Democratisation in the European Neighbourhood Michael Emerson, 2005 Approaches democratization of the European neighbourhood from two sides first exploring developments in the states themselves and then examining what the European Union has been doing to promote the process

Liberal Nationalism

in Central Europe Stefan Auer, 2004-07-31 After the collapse of communism there was a widespread fear that nationalism would pose a serious threat to the development of liberal democracy in the countries of central Europe This book examines the role of nationalism in post communist development in central Europe focusing in particular on Poland the Czech Republic and Slovakia It argues that a certain type of nationalism that is liberal nationalism has positively influenced the process of postcommunist transition towards the emerging liberal democratic order *East European Faces of Law and Society: Values and Practices* William B. Simons, 2014-10-09 This volume offers readers a multi layer analysis of issues of law and society in Central and Eastern Europe Russia and Ukraine This collection of thought provoking essays deals with a wide range of subject matter including constitutional administrative civil and criminal law as well as aspects of legal culture corruption corporate social responsibility and informal practices of judiciaries Throughout the volume readers are given not only a comparative perspective of current practices but are also offered a historical glimpse of law and philosophy in the region The conclusions and analysis offered by these authors from the East as well as from the West are supported by survey data literature legislation and court practice in the region and abroad **Europe - Space for Transcultural Existence?** Martin Tamcke, Janny de Jong, Lars Klein, Margriet van der Waal, 2013 Europe Space for Transcultural Existence is the first volume of the new series Studies in Euroculture published by G ttingen University Press The series derives its name from the Erasmus Mundus Master of Excellence Euroculture Europe in the Wider World a two year programme offered by a consortium of eight European universities in collaboration with four partner universities outside Europe This master highlights regional national and supranational dimensions of the European democratic development mobility migration and inter multi and transculturality The impact of culture is understood as an element of political and social development within Europe The articles published here explore the field of Euroculture in its different elements it includes topics such as cosmopolitanism cultural memory and traumatic past s colonial heritage democratization and Europeanization as well as the concept of European identity in various disciplinary contexts such as law and the social sciences In which way have Europeanization and Globalization influenced life in Europe more specifically To what extent have people in Europe turned transcultural The trans is understood as indicator of an overlapping mix of cultures that does not allow for the construction of sharp differentiations It is explored in topics such as im migration and integration as well as cultural products and lifestyle The present economic crisis and debt crisis have led as side result to a public attack on the open cosmopolitan outlook of Europe The values of the multicultural and civil society and the idea of a people s Europe have become debatable This volume offers food for thought and critical reflection **Challenges to Democracies in East Central Europe** Jan Holzer, Miroslav Mareš, 2016-05-12 Democratic development in Central and Eastern Europe is not a finished project nor is its progress immune to internal and external threats The current social economic ethnic and political situation within the region presents new dangers This text identifies and analyses challenges to current East Central European democracies in terms of

potential deconsolidation of democracy reflected in the changes in the institutional and procedural framework polity and in the choice of instruments and strategies in the policy area Specifically examining the regimes of the Czech Republic Hungary Poland Slovakia and Slovenia these challenges include political extremism and violence corruption ethnic and religious conflicts Presenting original Central European data and utilising the concept of consolidation of democracy from von Beyme and Merkel s concept the book demonstrates that these challenges are as much influenced by imported phenomena such as immigration organized crime and other potential systemic undemocratic volatilities as the domestic situation This text will be of key interest to scholars and students East European politics post Soviet politics EU Studies security and strategic studies international relations area studies modern history and sociology **Deliberating in the Real World** John

Parkinson,2006-06-15 Deliberative democracy has become the central reference point for democracy theorists over the last decade or so influencing normative frameworks and the ways we conceptualize the workings of democratic societies It has also been linked with a burst of experimentation with new procedures that involve citizens directly in deliberations about public policy But there is a contradiction at the heart of deliberative democracy it seems that it cannot deliver legitimate agreements Deliberative decisions are said to be legitimate when all those subject to them take part in free and equal debate but in complex societies that can never happen Few people can deliberate together at any one time certainly not in any strict sense so how can the results of a deliberative event be legitimate for non participants And why would people with passionately held views sit down and deliberate when there seems little advantage in them doing so This book explores these problems in theory and practice searching for a solution that does not merely dismiss a strict understanding of deliberative democratic criteria It reconsiders the theory of legitimacy and deliberative democracy but goes further by examining cases of deliberation on health policy in the United Kingdom to see what problems emerge in practice and how real political actors deal with them The result is a complete rethink of the institutional limits and possibilities of deliberative democracy one which abandons the search for perfection in any one institution and looks instead to the concept of a multifaceted deliberative system **Derailing Democracy in Afghanistan** Noah Coburn,Anna Larson,2014-01-07 This volume shows

how Afghani elections since 2004 have threatened to derail the country s fledgling democracy Examining presidential parliamentary and provincial council elections and conducting interviews with more than one hundred candidates officials community leaders and voters the text shows how international approaches to Afghani elections have misunderstood the role of local actors who have hijacked elections in their favor alienated communities undermined representative processes and fueled insurgency fostering a dangerous disillusionment among Afghan voters *Central Europe* Lonnie Johnson,1996 Throughout the ages small nations struggled valiantly against a series of imperial powers Ottoman Turkey Habsburg Austria imperial Germany czarist Russia Nazi Germany and the Soviet Union and they lost regularly Johnson s account is present minded in the best sense in describing actual historical events he illustrates the ways they have been remembered and how

they contribute to the national assumptions that still drive European politics today Deliberative Democracy for Diabolical Times André Bächtiger, John S. Dryzek, 2024-04-04 Argues that critical contemporary challenges to democracy can be overcome by a citizen centric deliberative approach **Trust and Transitions** Joseph D. Lewandowski, Milan

Znoj, 2009-01-23 Employing a range of empirical and theoretical approaches contributors to this volume examine the nature and function of trust from within the framework of social capital theory The empirically oriented chapters focus on post Communist countries including Serbia and Montenegro Romania and especially the Czech Republic Indeed the collection contains an entire section devoted to analyzing trust and transition in the wake of the velvet revolution The theoretical chapters engage the work of Tocqueville Putnam and Uslaner among others as they seek to clarify and rethink what in fact trust is where trust originates the causal relevance of trust for successful marketization and democratization and the extent to which existing conceptions of social capital can be adequately deployed in diverse contexts With contributions from noted American and Central European political scientists sociologists and philosophers this book presents an illuminating set of contemporary perspectives on the complex role of trust in times of transition The Prospects for Liberal Nationalism in Post-Leninist States Cheng Chen, 2010-11-01 **The Media in Transitional Democracies** Katrin Voltmer, 2013-07-10 The

last quarter of a century has seen an unprecedented wave of democratization around the globe In these transitions from authoritarian rule to a more democratic order the media have played a key role both by facilitating but frequently also inhibiting democratic practices to take root This book provides an accessible and systematic introduction to the media in transitional democracies It analyses the problems that occur when transforming the media into independent institutions that are able to inform citizens and hold governments to account The book covers the following topics normative conceptions of media and democracy the role of the past in the transition process the internet as a new space for democratic change the persistence of political interference in emerging democracies the interlocking power of media markets and political ownership the challenges to journalistic professionalism in post authoritarian contexts the role of the media in divided societies The book takes a global view by exploring the interplay of political and media transitions in different pathways of democratization that have taken place in Eastern Europe Latin America Africa and Asia It will be of interest to advanced students and scholars who want a better understanding of the media outside established Western democracies The book will also be of great value to policymakers and activists who are involved in strengthening the media in transitional democracies

Islam and Democracy in the Maldives Azim Zahir, 2021-11-29 This book examines Islam's relationship to democratization in the Indian Ocean nation of the Maldives It explores how and why an electoral democracy based in a constitution that has many liberal features but also Islam based limitations especially lack of religious freedom emerged in the country by 2009 In doing so the book interrogates a major approach to Muslim politics that assumes reformist interpretations of Islam are a positive and even a necessary force for liberalization and democratization in Muslim majority contexts This book shows

reformist Islam did play certain positive roles in democratization in the Maldives. However, the book suggests that reformist Islam may not be an invariably uncontroversial force in the space of politics. It argues that modern nation building in the Maldives, shaped by political actors with reformist Islamic orientations since around the 1930s, has also completely transformed Islam as a modern institutional and discursive political religion. These transformations of Islam as a modern political religion have existed as path dependent constraints on the depth of democratization, ensuring religion based limitations and intensifying controversy over religion vis vis the state and individual rights. An original empirical contribution towards a better understanding of Islam and politics in the Maldives, this book will be of interest to academics and students working on democracy and Islam in particular and in the fields of political science and area studies, especially South Asian politics.
