Mao's China And Post-mao China: Revolution, Recovery And Rejuvenation Robert Weatherley,2022-09-06 If the history of modern China was written as a book its author would be accused of losing touch with reality During the twentieth century China underwent two revolutions a number of wars endured a radical and destabilising form of communism and then hurried quickly towards a system of open market economics whilst remaining under the control of a nominally communist party Currently the fastest growing economy in the world with an increasingly sophisticated and expanding military China is widely expected to emerge as the world s next superpower eclipsing the United States in the not too distant future However not everything is going smoothly for Beijing Unemployment rates are spiralling inequality is rife and official corruption at all levels remains an Achilles heel for the Chinese Communist Party despite Xi Jinping s best endeavours to wipe it out Worst of all environmental degradation is at such a serious level that it threatens the success of the Chinese economy and the stability of Chinese society Against this scarcely believable backdrop and based on a series of lectures seminars and research conducted by the author Mao s China and Post Mao China captures the dynamics dynamism and disasters of Chinese politics since the establishment of the People s Republic of China in 1949 This advanced textbook identifies three key themes that have underpinned the post revolutionary era the so called three Rs Revolution Recovery and Rejuvenation and is essential reading for anyone interested in the politics of modern China at the undergraduate and postgraduate level

Party and State in Post-Mao China Teresa Wright,2015-05-06 In recent decades China has become a quasi capitalist economic powerhouse Yet it continues to be ruled by the same Communist Party dominated government that has been in power since 1949 But how has China s political system achieved such longevity And what does its stability tell us about the future of authoritarian versus liberal democratic governance In this detailed analysis of the deeply intertwined relationship between the ruling Communist Party and governing state noted China expert Teresa Wright provides insightful answers to these important questions Though many believe that the Chinese party state has maintained its power despite its communist and authoritarian features Wright argues that the key to its sustained success lies in its careful safeguarding of some key communist and authoritarian characteristics while simultaneously becoming more open and responsive to public participation She contends that China s post Mao party state compares well to different forms of political rule including liberal democratic government It has fulfilled the necessary functions of a stable governing regime satisfying key demographic groups and responding to public grievances maintaining economic stability and growth and delivering public services without any real reduction in CCP power and influence Questioning current understandings of the nature strengths and weaknesses of democracy and authoritarianism this thought provoking book will be essential reading for all students and scholars of Chinese politics and international relations

Sovietology in Post-Mao China Jie Li,2023-02-13 The breakup

of the Union of Soviet Socialist Republics USSR in 1991 had significant repercussions on Chinese politics foreign policy and other aspects In this book Jie Li examines the evolution of Chinese intellectual perceptions of the Soviet Union in the 1980s and 1990s before and after the collapse Relying on a larger body of updated Chinese sources Li re evaluates many key issues in post Mao Chinese Sovietology arguing that the Chinese views on the Soviet Union had been influenced and shaped by the ups and downs of Sino Soviet and later Sino Russian relations China s domestic political climate and the political developments in Moscow By researching the country of the Soviet Union Chinese Soviet watchers did not focus on the USSR alone but mostly attempted to confirm and legitimize the Chinese state policies of reform and open door in both decades By examining the Soviet past Chinese scholars not only demonstrated concern for the survival of the CCP regime but also attempted to envision the future direction and position of China in the post communist world *Doing Business with China*

,1980 **The Politics of China's Accession to the World Trade Organization** Hui Feng,2006-01-16 Grounded on a series of first hand interviews with Chinese government officials this book examines China s accession to the World Trade Organization providing an inside look at Chinese WTO accession negotiations Presenting a systematic political economy model in analyzing Beijing s decision making mechanisms the book argues that China s WTO policy making is a state led leadership driven and top down process Feng explores how China s determined political elite partly bypassed and partly restructured a largely reluctant and resistant bureaucracy under constant pressure from an increasingly globalized international system By addressing China s accession to the WTO from a political analysis perspective the book provides a theoretically informed and intriguing examination of China s foreign economic policy making regime The book highlights contemporary debates relating to state and institutionalist theory and provides new and useful insights into a significant development of this century **Doing Business with China** United States. Industry and Trade Administration,1979 This publication provides background and practical information for those interested in doing business with China The United States officially recognized the People s Republic of China PRC on January 1 1979 Chinese leaders view international trade as an important factor in transforming China into a modern industrial state as well as an instrument to foster the overall political and economic goals of making China a strong unified nation capable of exercising leadership in Asia and the world China now has trading relations with more than 150 countries Prior to approaching the Chinese foreign trade corporations FTCs many firms may want to assess the potential PRC market for their goods and services Various groups in the United States attempt to survey Chinese industries and to assess the potential for American goods and services Some of these may be found as sectoral reports in the China Business Review published by the National Council for United States China Trade The Commerce Department also has an ongoing effort to develop further market information The publication lists Chinese FTCs describing the commodities handled by each Specific steps for establishing contact with FTCs are discussed The document then goes on to describe other trade related entities of the People s Republic of China In China end users play a

major role in deciding what commodities are to be procured One excellent way to contact end users in an attempt to influence their decisions is by exhibiting equipment where engineers and other representatives of consuming entities have an opportunity to observe and ask questions Various Chinese fairs are described Other topics discussed in the publication include currency shipping and insurance United States regulations governing trade with the PRC trademarks inventions and copyrights and travel to China United States domestic exports and imports are listed in the appendices Author RM

The Political Logic of the US-China Trade War Shipping Hua,2022-03-18 This is the first comprehensive study by the world's leading scholars about the political logic of the U S China trade war that started during the Trump administration The book is divided into three parts The first part looks at changed leadership styles of the two countries in the last few years It also examines the liberal international order since World War II in which the trade war emerged It then explores the theoretical perspectives from both the United States and China that are related to the trade war The second part is about the domestic factors that impacted on the trade war from China's perspective These factors include China's institutional adaptation of the new international environment the radicalization of the Chinese political discourse and Big Power Diplomacy The third part explores the U S domestic factors that impacted the trade war such as the Trump administration's different China policy in general the role played by the U S Congress business lobby and the transition of foreign policy from a Wilsonian World Order to Jacksonian Nationalism
