History of Modern

Design David Raizman, 2003 An exploration of the parallel development of product and graphic design from the 18th century to the 21st The effects of mass production and consumption man made industrial materials and extended lines of communication are also discussed *What is Post-Modernism?* Charles Jencks, 1986 What is Post Modernism Is it a new world view or an outgrowth of the Post Industrial Society Is it a shift in philosophy the arts and architecture In this fourth entirely revised edition Charles Jencks one of the founders of the Post Modern Movement shows it is all these things plus many other forces that have exploded since the early 1960s In a unique analysis using diagrams designed especially for this edition he reveals the evolutionary social and economic forces of this new stage of global civilisation But why has post modern culture arrived In an ironic parable the Protestant Crusade Jencks uncovers some hitherto hidden origins the Modernists abhorrence for all things sensuous and natural and their zeal for all things orderly and mechanistic This pseudo religion led in the 1920s to the famous vacuum cleaning period the purgation of values metaphysics and emotion In the 1970s it led on to the Protestant Inquisition which inadvertently created the very enemy Modernists feared Post Modernism a Counter Reformation the reassertion of worldliness fecundity humour and pluralism However more than one tradition emerged and Jencks distinguishing two types of Post Modernism deconstructive and reconstructive demonstrates that the former is often a disguised form of Late Modernism This takes the de creation and nihilism of its parent to extremes The main engine that drives global culture today post modernisation the electronic economy and instant communications network is analysed in its close relation to other posts Post Fordism Post Socialism and the post national world of trading blocs and unstable nations Jencks argues that this may result in catastrophe and global governance or a web of transnational institutions and obligations The most radical idea of this challenging book is the conclusion the notion that the post modern world does not mean the end of metanarratives but something quite different Belief systems are flourishing as never before and Jencks argues a new metanarrative based on the story of the universe and its generative qualities will soon create a new world view that will affect all areas It is a story which grows directly out of the post modern sciences of complexity and is thus both true and mythic Other What is titles include What is Abstraction What is Deconstruction **Towards**
