## **Post War Integration In Europe:**

**Post-war Integration in Europe** Richard Vaughan, 1976      *A European Security Architecture after the Cold War* G. Aybet, 2000-06-05 A European Security Architecture after the Cold War provides a critical account of the re projection and redefinition of Western values and security institutions in the post Coldwar era This transformation is explored in three stages The first stage covers the period 1990 91 and explains the preservation of a western security community inherited from the Cold War through a process of institutional reconstruction largely carried out on paper The second stage from 1991 to 1992 sees the incorporation of a purpose for these institutions as a framework for the implementation of collective security The third stage explores the emerging questions of legitimacy surrounding the new tasks of these institutions as they become embroiled in the war in the former Yugoslavia The precedents of legitimate intervention in upholding democracy free markets and human rights in the post coldwar era are examined from the perspectives of international law and Gramscian derived concepts of legitimacy focusing on the acceptance of military power by civil society and how intervention in these terms becomes a cultural practice      **European Integration and Disintegration** Robert Bideleux, Richard Taylor, 1996 This book deals with the principle problems and challenges confronting Europe in the aftermath of the Cold War and the collapse of European communism It concentrates on the changing political economic cultural morphology of Europe      **A Converging Post-War European Discourse** Thomas C. Hoerber, 2014-12-24 This book explores the most important components and contributing factors to the European integration process during the 1950s It seeks to combine comparative politics and political history to examine core themes such as war experience national security military security economic security societal security and research and education in three major European countries i e France Germany and Britain It analyses the references to the ensuing European integration process in national parliamentary debates analyzing which national needs were thought European integration could cater to but also which national positions were seen as being compromised by a closer European commitment The development of a national position on European integration and in turn the evolution of European concepts are considered by using discourse theory on parliamentary debates in France Germany and Britain Parliamentary discourses are shown to be an ideal source for analyzing grand themes such as European integration because they cover all fundamental ideas they have to be public and open ended deliberations which in turn determined the position of each country towards European integration The great variety of positions reflected in the parliamentary discourse in particular those which did not prevail and which did not find their way into the commonly accepted historical storyline of European integration provide a greater comprehensiveness and a better understanding of the history of the European integration process      *Post-war Europe* Mark Blacksell, 1978      *The EU and its Relations with Eastern Europe* de Deugd, Nienke, Hoen, Herman W., 2022-02-15 The politico economic relations between the European Union EU and Eastern Europe are currently entering a new phase which some scholars qualify as a revival of the Cold War

*Splitting Europe* Jens Stilhoff Sørensen,2022-02-04 Europe today is deeply divided Thirty years after the end of the Cold War and the celebratory moment when the wall came down we are faced with a new Cold War Russia Western relations are arguably more dangerous than ever since the Cuban missile crisis Diplomatic relations are frozen sanctions installed the old arms control treaties abandoned and new nuclear weapons and carriers developed EU Europe itself is divided It is not just Brexit marking the first real break away from the Union but also clashes within From the yellow vests clashes with police in the heart of Paris to so called populist movements on the rise in the periphery and across the continent The Visegrad countries Hungary Poland Slovakia Czech Republic are regularly at odds with the EU core Brussels and the France Germany axis to a degree where the idea of sanctions is invoked The Western security framework and NATO itself appears to break down with Turkey the NATO member with the organisations second largest military numerically now purchasing Russian weapon systems and seeking strategic relations in Eurasia How did it come to this and what happened with the post Cold War dream And what has happened to the post world war visions of European integration and security order What are the critical processes and events that have led us unto this path This book aims to address and explore these historical problems

Encyclopedia of Government and Politics M. E. Hawkesworth,Maurice Kogan,1992      European Union Politics Michelle|Borragan Cini (Nieves Perez-Solorzano),2025 This edited textbook covers a broad range of topics being taught in courses on the European Union The 25 chapters are written by experts from around the world and provide extensive coverage of history theories institutions and actors policies and issues and debates      *Northeast Asian Regionalism* Christopher M. Dent,David W. F. Huang,2002-03-28 Examines both actual and potential developments in North East Asian regionalism from various levels and fields of analysis considering cooperative and integrative structures and processes

Particular reference is made to the contemporary experience of Europe which provides important models of cooperation and integration in both the government and the economy. Europe's Cold War Relations Ulrich Krotz, Kiran Klaus Patel, Federico Romero, 2019-10-17 This thought provoking collection analyses the European Community's external relations between 1957 and 1992 with a particular focus upon their broader impact and global significance. Reconceptualizing the long arc of the EC's international role from its inception in the 1950s to the end of the Cold War, the chapters identify and assess the factors that either supported or impeded Europe's international projection within this period. Organized into three parts, the authors investigate the EC's relations with key countries and world regions, discuss its activities within key policy areas, and offer reflections and conclusions on the various arguments that are put forward. Each chapter considers the entire period from 1957-1992 to identify and explain overarching trends, key decisions, and historical conjunctions through scholarly literature, key debates, and original discussion of each topic or policy issue. A final chapter situates the main findings within wider contexts, situating the EC in Cold War history. Bringing together international history and international relations, this project allows for cross-disciplinary dialogue and the careful discussion of key concepts, analytical approaches, and empirical findings. Filling a gap in our understanding of the early development of the EC's role as an autonomous global actor, this book holds important messages for the modern day as the EU's position in global politics continues to shape the world. *International Cooperation in Cold War Europe* Daniel Stinsky, 2021-04-08 Formed in 1947, the United Nations Economic Commission for Europe (UNECE) was the first postwar international organization dedicated to economic cooperation in Europe. Linking the universalism of the UN to European regionalism, both Cold War superpowers, the USA and the Soviet Union, were founding members of the UNECE. Building on the League of Nations' difficult heritage and in an increasingly challenging political environment, the UNECE's mission was to facilitate European cooperation transcending the boundaries set by the Cold War. With a number of competitor organizations set against it, the UNECE managed to carve out a niche for itself, setting norms and standards that still have an impact on the everyday lives of millions in Europe and beyond today. Working against an overwhelming geopolitical trend, UNECE succeeded in bridging the Cold War divide on several occasions and maintained a broad system of contacts across the Iron Curtain. This book provides a unique study of this important but hitherto under-researched international organization. Incorporating research on the Cold War, the history of internationalism, and European integration, Stinsky weaves these different threads of historical enquiry into a single analytical narrative. **Europe Against Revolution** Matthijs Lok, 2023 Offers a radical new scholarly interpretation of the topics of Enlightenment legacies, counter-revolution, and conservatism, as well as the construction of the European Past and the international order. Gives a historical perspective on the contemporary radical right, as well as current expressions of European identity and memory. Combines Enlightenment thought with counter-revolution and memory studies historiography. Draws on sources from seven languages to give a truly pan-European perspective. *The Encyclopedia of the Cold War* Spencer C. Tucker, 2007-09-12 A
