Post War Literature Vol 5 1945 To The Present Day

Jon Davis

Post War Literature Vol 5 1945 To The Present Day:

British Fiction and the Cold War A. Hammond, 2013-09-19 This book offers a unique analysis of the wide ranging responses of British novelists to the East West conflict Hammond analyses the treatment of such geopolitical currents as communism nuclearism clandestinity decolonisation and US superpowerdom and explores the literary forms which writers developed to capture the complexities of the age **Literature of the 1940s: War, Postwar and 'Peace'** Gill

Plain, 2013-09-10 A groundbreaking re reading of the literary response to a decade of trauma and transformation This study undoes the customary division of the 1940s into the Second World War and after Instead it focuses on the thematic preoccupations that emerged from writers immersion in and resistance to the conflict Through seven chapters Documenting Desiring Killing Escaping Grieving Adjusting and Atomising the book sets middlebrow and popular writers alongside residual modernists and new voices to reconstruct the literary landscape of the period Detailed case studies of fiction drama and poetry provide fresh critical perspectives on writers as diverse as Margery Allingham Alexander Baron Elizabeth Bowen Keith Douglas Henry Green Graham Greene Georgette Heyer Alun Lewis Nancy Mitford George Orwell Mervyn Peake J B Priestley Terence Rattigan Mary Renault Stevie Smith Dylan Thomas and Evelyn Waugh Key Features Detailed and theoretically informed case studies of canonical writers such as Bowen Orwell Greene and Waugh Case studies and critical re evaluations of popular genre writers and forgotten writers Postwar Japan as History Andrew Gordon, 1993-10-20 Japan s catapult to world economic power has inspired many studies by social scientists but few have looked at the 45 years of postwar Japan through the lens of history The contributors to this book seek to offer such a view As they examine three related themes of postwar history the authors describe an ongoing historical process marked by unexpected changes such as Japan s extraordinary economic growth and unanticipated continuities such as the endurance of conservative rule A provocative set of interpretative essays by eminent scholars this book will appeal to anyone interested in the history of twentieth century Japan and the dilemmas facing Japan today **Routledge Library Editions: Modern East and South**

East Asia Various Authors, 2022-07-30 This 7 volume set reissues a range of classic out of print texts that cover a host of issues that have contributed to the development of modern East and South East Asia With titles covering economics politics history anthropology and security this set provides the researcher with an essential resource on the region *The Oxford Handbook of World War II* G. Kurt Piehler, Jonathan A. Grant, 2023 World War II dramatically transformed human life and society resulting in the deaths of 100 million people and shaping the worldview and psyches of generations The Oxford Handbook of World War II broadens traditional narratives of the war and in the process changes our understanding of this epic conflict Spanning the rise and fall of the Versailles system to the postwar reintegration of veterans and the eventual commemoration of the conflict and its victims The Oxford Handbook of World War II marks a landmark contribution to the historical literature of war **The Politics of Moderation in Modern European History** Ido de Haan, Matthijs

Lok,2019-09-04 This book charts the varieties of political moderation in modern European history from the French Revolution to the present day It explores the attempts to find a middle way between ideological extremes from the nineteenth century Juste Milieu and balance of power via the Third Ways between capitalism and socialism to the current calls for moderation beyond populism and religious radicalism The essays in this volume are inspired by the widely recognized need for a more nuanced political discourse The contributors demonstrate how the history of modern politics offers a range of experiences and examples of the search for a middle way that can help us to navigate the tensions of the current political climate At the same time the volume offers a diagnosis of the problems and pitfalls of Third Ways of finding the middle between extremes and of the weaknesses of the moderate point of view The 1940s: A Decade of Modern British Fiction Philip Tew,Glyn

White,2022-02-24 How did social cultural and political events concerning Britain during the 1940s reshape modern British fiction During the Second World War and in its aftermath British literature experienced and recorded drastic and decisive changes to old certainties Moving from potential invasion and defeat to victory the creation of the welfare state and a new Cold war threat the pace of historical change seemed too rapid and monumental for writers to match Consequently the 1940s were often side lined in literary accounts as a dividing line between periods and styles Drawing on more recent scholarship and research this volume surveys and analyses this period s fascinating diversity from novels of the Blitz and the Navy to the rise of important new voices with its contributors exploring the work of influential women Commonwealth exiled genre avant garde and queer writers A major critical re evaluation of the intriguing decade this book offers substantial chapters on Elizabeth Bowen Graham Greene and George Orwell as well as covering such writers as Jocelyn Brooke Monica Dickens James Hadley Chase Patrick Hamilton Gerald Kersh Daphne Du Maurier Mary Renault Denton Welch and many others

Japan's Arduous Rejuvenation as a Global Power Victor Teo,2019-04-08 This open access book assesses the profound impact of Japan s aspirations to become a great power on Japanese security democracy and foreign relations Rather than viewing the process of normalization and rejuvenation as two decades of remilitarization in face of rapidly changing strategic environment and domestic political circumstances this volume contextualizes Japan s contemporary international relations against the longer grain of Japanese historical interactions It demonstrates that policies and statecraft in the Prime Minister Shinzo Abe s era are a continuation of a long unbroken and arduous effort by successive generations of leaders to preserve Japanese autonomy enhance security and advance Japanese national interests Arguing against the notion that Japan cannot work with China as long as the US Japan alliance is in place the book suggests that Tokyo could forge constructive relations with Beijing by engaging China in joint projects in and outside of the Asia Pacific in issue areas such as infrastructure development or in the provision of international public goods It also submits that an improvement in Japan China relations would enhance rather than detract Japan US relations and that Tokyo will find that her new found autonomy in the US Japan alliance would not only accord her more political respect and strategic latitude but also allow her to ameliorate the excesses

of American foreign policy adventurism paving for her to become a truly normal great power Nagasaki Susan Southard,2017-08-31 On August 9th 1945 the US dropped an atomic bomb on Nagasaki It killed a third of the population instantly and the survivors or hibakusha would be affected by the life altering medical conditions caused by the radiation for the rest of their lives They were also marked with the stigma of their exposure to radiation and fears of the consequences for their children Nagasaki follows the previously unknown stories of five survivors and their families from 1945 to the present day It captures the full range of pain fear bravery and compassion unleashed by the destruction of a city Susan Southard has interviewed the hibakusha over many years and her intimate portraits of their lives show the consequences of nuclear war Nagasaki tells the neglected story of life after nuclear war and will help shape public debate over one of the most controversial wartime acts in history Published for the 70th anniversary of the Hiroshima and Nagasaki bombs this is the first study to be based on eye witness accounts of Nagasaki in the style of John Hersey s Hiroshima On August 9th 1945 three days after the atomic bombing of Hiroshima a 5 tonne plutonium bomb was dropped on the small coastal city of Nagasaki The explosion destroyed factories shops and homes and killed 74 000 people while injuring another 75 000 The two atomic bombs marked the end of a global war but for the tens of thousands of survivors it was the beginning of a new life marked with the stigma of being hibakusha atomic bomb affected people Susan Southard has spent a decade interviewing and researching the lives of the hibakusha raw emotive eye witness accounts which reconstruct the days months and years after the bombing the isolation of their hospitalisation and recovery the difficulty of re entering daily life and the enduring impact of life as the only people in history who have lived through a nuclear attack and its aftermath Following five teenage survivors from 1945 to the present day Southard unveils the lives they have led their injuries in the annihilation of the bomb the dozens of radiation related cancers and illnesses they have suffered the humiliating and frightening choices about marriage they were forced into as a result of their fears of the genetic diseases that may be passed through their families for generations to come The power of Nagasaki lies in the detail of the survivors stories as deaths continued for decades because of the radiation contamination which caused various forms of cancer Intimate and compassionate while being grounded in historical research Nagasaki reveals the censorship that kept the suffering endured by the hibakusha hidden around the world For years after the bombings news reports and scientific research were censored by U S occupation forces and the U S government led an efficient campaign to justify the necessity and morality of dropping the bombs As we pass the seventieth anniversary of the only atomic bomb attacks in history Susan Southard captures the full range of pain fear bravery and compassion unleashed by the destruction of a city The personal stories of those who survived beneath the mushroom clouds will transform the abstract perception of nuclear war into a visceral human experience Nagasaki tells the neglected story of life after nuclear war and will help shape public discussion and debate over one of the most controversial wartime acts in history British Naval Intelligence through the Twentieth Century Andrew Boyd,2020-08-30 This is the first comprehensive account of how

intelligence influenced and sustained British naval power from the mid nineteenth century when the Admiralty first created a dedicated intelligence department through to the end of the Cold War It brings a critical new dimension to our understanding of British naval history in this period while setting naval intelligence in a wider context and emphasising the many parts of the British state that contributed to naval requirements It is also a fascinating study of how naval needs and personalities shaped the British intelligence community that exists today and the concepts and values that underpin it The author explains why and how intelligence was collected and assesses its real impact on policy and operations It confirms that naval intelligence was critical to Britain s survival and ultimate victory in the two World Wars but significantly reappraises its role highlighting the importance of communications intelligence to an effective blockade in the First and according Ultra less dominance compared to other sources in the Second It reveals that coverage of Germany before 1914 and of the three Axis powers in the interwar period was more comprehensive and effective than previously suggested and while British power declined rapidly after 1945 the book shows how intelligence helped the Royal Navy to remain a significant global force for the rest of the twentieth century and in submarine warfare especially in the second half of the Cold War to achieve influence and impact for Britain far exceeding resources expended This compelling new history will have wide appeal to all readers interested in intelligence and its crucial impact on naval policy and operations *School Library Journal* ,2006 Prime Ministers and Whitehall 1960-74 Jon Davis,2007-10-05 The study of prime ministers and the reforms of British central government in any era are fascinating The interaction between the temporary often inexperienced but largely elected ministers and the experienced but theoretically subservient senior civil servants provides enormous interest It is a matter that relates directly to many of the battles going on in British politics today This book concentrates on the Harold Macmillan Harold Wilson Alec Douglas Home and Edward Heath years when the battle between the Civil Service and the Government was at its most intense What makes this book even more compelling is that many of the key players have given their own published accounts since leaving office including Richard Crossman Barbara Castle and Tony Benn Dr Jon Davis book is based on years of meticulous research and it will be essential reading for any historian or student of British politics during the post war years Domesticity Under Siege Mark Taylor,Georgina Downey,Terry Meade,2022-12-15 Theories of the domestic stemming from the 19th century have focused on the home as a refuge and place of repose for the family a nurturing environment for children and a safe place for visitors Under this conception domestic space is positioned as nurturing and private a refuge and place of retreat which gave rise to theories of home as haven While arguably some social conditions might suggest this is the case Domesticity Under Siege exposes a different world one in which the boundaries of nurturing domesticity collide with both outside and inside agents Whether these agents are external military forces psychological trauma or familial violence they re position meta narratives of domesticity not through identity politics or specialized subgroup experience but relative to the actions of the world around an inhabited domain That is when home is

constituted as a private realm a place where individuals or groups can reside in safety and comfort it is argued as a place in which the individual exercises control or power However there are many occasions when forces act upon the home and threaten aspects of safety and comfort often through such things as ruination violence mortality and infestation Organised around four thematic sections Microbes Animals and Insects Human Agents Wars and Disasters as Agents and Hauntings Eeriness and the Uncanny chapters provide a range of approaches to the home which challenge notions of haven and reflect major causes that have played an important role in undermining the modern home Examples and case studies explore the domestic screen hoarding hauntings violence and imprisonment in the home wartime interior art the Hanover Merzbau and Wolfgang Staudte's 1946 film *Die Mörder sind unter uns* The Murderers are Among Us *The Generalissimo* Jay Taylor, 2011-04-30 One of the most momentous stories of the last century is China's rise from a self-satisfied anti-modern decaying society into a global power that promises to one day rival the United States Chiang Kai-shek an autocratic larger than life figure dominates this story Selected Cliometric Studies on German Economic History John Komlos, Scott McNeil Eddie, 1997 Wirtschaftsgeschichtliche Forschung kann nur interdisziplinär betrieben werden und ihre Aufgabe der Vertiefung unseres Verständnisses von sozio-ökonomischen Prozessen und deren Interaktion mit politischen Entwicklungen erfüllen wenn ökonomische Theorie vernünftig angewendet wird Zwei amerikanische Wissenschaftler Douglas North und Robert Fogel wurden 1993 mit dem Nobelpreis für Wirtschaftswissenschaften für ihre Pionierarbeit in KLiometrie der Verbindung von Ökonomie und Geschichte ausgezeichnet In Nordamerika ist der Paradigmenwechsel vollständig vollzogen KLiometrie ist bereits eine normale Wissenschaft Der vorliegende Band vornehmlich von amerikanischen Gelehrten mit wirtschaftswissenschaftlichem Sachverstand geschrieben liefert der deutschen akademischen Gemeinschaft wenig bekannte jedoch bahnbrechende Artikel **University of Michigan Official Publication , Jazz and Postwar French Identity** Elizabeth Vihlen McGregor, 2016-06-23 In the context of a shifting domestic and international status quo that was evolving in the decades following World War II French audiences used jazz as a means of negotiating a wide range of issues that were pressing to them and to their fellow citizens Despite the fact that jazz was fundamentally linked to the multicultural through its origins in the hands of African American musicians happenings within the French jazz public reflected much about France's postwar society In the minds of many jazz was connected to youth culture but instead of challenging traditional gender expectations the music tended to reinforce long held stereotypes French critics musicians and fans contended with the reality of American superpower strength and often strove to elevate their own country's stature in relation to the United States by finding fault with American consumer society and foreign policy aims Jazz audiences used this music to condemn American racism and to support the American civil rights movement expressing strong reservations about the American way of life French musicians lobbied to create professional opportunities for themselves and some went so far as to create a union that endorsed preferential treatment for French nationals As France became more ethnically and religiously diverse due

immigration from Africa Asia and the Caribbean French jazz critics and fans noted the insidious appearance of racism in their own country and had to contend with how their own citizens would address the changing demographics of the nation even if they continued to insist that racism was more prevalent in the United States As independence movements brought an end to the French empire jazz enthusiasts from both former colonies and France had to reenvision their relationship to jazz and to the music s international audiences In these postwar decades the French were working to preserve a distinct national identity in the face of weakened global authority most forcefully represented by decolonization and American hegemony Through this originally African American music French listeners commentators and musicians participated in a process that both challenged and reinforced ideas about their own culture and nation [The Legacy of Isocrates and a Platonic](#)

[Alternative](#) James R. Muir,2018-07-27 Bringing together the history of educational philosophy political philosophy and rhetoric this book examines the influence of the philosopher Isocrates on educational thought and the history of education Unifying philosophical and historical arguments Muir discusses the role of Isocrates in raising two central questions What is the value of education By what methods ought the value of education to be determined Tracing the historical influence of Isocrates ideas of the nature and value of education from Antiquity to the modern era Muir questions normative assumptions about the foundations of education and considers the future status of education as an academic discipline [The New Cambridge Bibliography of English Literature: Volume 4, 1900-1950](#) George Watson,I. R. Willison,1972-12-07 More than fifty specialists have contributed to this new edition of volume 4 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries **The Postwar Development of Japanese Studies in the United States**

Helen Hardacre,2023-07-17 The present volume documents the postwar history of United States scholarship on Japan A careful selection of North American scholars under the general editorship of Helen Hardacre Reischauer Institute Professor of Japanese Religions and Society at Harvard University shows that a range of factors have directed Japanese studies in the United States since 1945 Among these factors are social and political change in Japan and the United States shifts in dominant scholarly concerns about Japan and changing evaluations of area studies The work consists of twelve essays in a wide variety of fields history art religion literature anthropology political science and law Each essay chronicles postwar scholarship in its particular discipline and provides a useful bibliography to serve further reference The general aim of the volume is to put current debates in historical perspective and to help assess the field s achievements It identifies areas requiring more work and charts directions for the future

Unveiling the Energy of Verbal Artistry: An Mental Sojourn through **Post War Literature Vol 5 1945 To The Present Day**

In a global inundated with screens and the cacophony of fast connection, the profound energy and psychological resonance of verbal beauty usually disappear into obscurity, eclipsed by the constant barrage of noise and distractions.
