of one another Sections One provides anecdotes about people the author met in the USSR Australia Cambodia and Europe Most of their stories are light and entertaining but they all identify some characteristics of human beings in specific situations all of us have faced Section Two through Section Five describe some of the places the author has traveled She combines her feelings as she stood atop mountains or glaciers and watched the sun set behind them with the reality of the beauty she was capturing with her camera Some of the essays are memoirs from the time when Communism ruled a vast part of the world and traveling was different in Iron Curtain countries from what it is now Shell take you on her taxi ride through Checkpoint Charlie in Berlin and on her train ride from Leningrad through the Baltic countries and Poland into East Berlin Because the author was a teacher shell share with you some of the literary and historic sites she visited combining some facts with her impressions and some incidents that occurred in those places Youll laugh along with her as she compares the people she met with beloved literary characters youll remember from your high school and college English classes Youll become pensive when she relates stories about genocide and civil strife in some of the Asian countries she has visited Youll share some of her professional experiences as she visited schools in South Africa Cambodia England China and Vietnam with her focus being on the conditions in which teachers and students interacted for learning Youll remember the children Some of the essays contain anecdotes about encounters with penguins in Antarctica polar bears in the tundra kangaroos in Australia and camels in Egypt The settings of her tales are diverse and the enjoyment of being close to wild animals in their native habitat is strong Youll walk alongside waterfalls down mountain trails within the remains of ancient civilizations and in buildings constructed for some unique reasons Section Six deals with the benefits of traveling as the author illustrates some of the rules governing safe travel especially for a woman traveling alone She writes about the danger she encountered when the airplane tires blew while the plane was above the Himalayan Mountains and when she walked alone in some remote places She provides humorous stories dealing with language differences in European countries One essay extols the value of having a competent travel agent and tour guide again with anecdotes that identify the relationship she had with agents who prepared some of her trips Finally the book answers the most frequently asked question of experienced travelers Whats your favorite place The Penguins Ate My Postcards is an enjoyable collection of informal personal essays that will keep you interested in the people and places being featured as they give you a strong impression of the location in which the events occurred These essays are not the result of someones imagination the incidents actually happened and the author was an eye witness to them As you read youll recognize that the author has separated life into serious situations and light humorous moods but she treats all the participants with the respect and sensitivity necessary to tell their stories Perhaps after you read The Penguins Ate My Postcards youll want to explore the world and find your own adventures Happy reading

**The Postcard's Radical Openness** Mariluz Restrepo, 2024-04-05 The Postcard s Radical Openness offers a groundbreaking exploration of what this multifaceted double sided open card entails and how it has affected our being in the world With a

holistic approach it focuses on studying the postcard's specific way of being and performing a particular ontology that opens up what is constitutively implicated in such an apparently trivial artifact. The book is organized into four parts meticulously unveiling the postcard's political, technological, aesthetic, and ethical dimensions, ending with a coda correlating the postcard's radical openness to G. Klimt's painting *Nuda Veritas* (1899) in reference to the scope of truth. By examining the postcard's complex worldwide history, its socio-cultural significance, and its global effect, the book reveals hidden stories, shedding light on its impact on photography, printing, marketing, trade, and business practices, and exposes the aesthetic, communicative, and ethical qualities that lie behind the enormous success of postcards at the turn of the 20th century. This comprehensive study is positioned as a thought-provoking invitation to scholars and students interested in material culture, media studies, and human interactions, as well as to history enthusiasts, art lovers, and postcard collectors. Offering a distinctive contribution, the book not only fills a void in the literature but also encourages readers to question and reflect on the transformative power inherent in the postcard's radical openness, presenting a novel and unparalleled analysis of this seemingly trivial yet culturally significant object.

**Making a Photographer** Rebecca A. Senf, 2020-02-08. An unprecedented and eye-opening examination of the early career of one of America's most celebrated photographers. One of the most influential photographers of his generation, Ansel Adams (1902-1984) is famous for his dramatic photographs of the American West. Although many of Adams's images are now iconic, his early work has remained largely unknown. In this first monograph dedicated to the beginnings of Adams's career, Rebecca A. Senf argues that these early photographs are crucial to understanding Adams's artistic development and offer new insights into many aspects of the artist's mature oeuvre. Drawing on copious archival research, Senf traces the first three decades of Adams's photographic practice, beginning with an amateur album made during his childhood and culminating with his Guggenheim-supported National Parks photography of the 1940s. Highlighting the artist's persistence in forging a career path and his remarkable ability to learn from experience as he sharpened his image-making skills, this beautifully illustrated volume also looks at the significance of the artist's environmentalism, including his involvement with the Sierra Club.
