Postconflict Elections Democratization And International Assistance:

Postconflict Elections, Democratization, and International Assistance Krishna Kumar, 1998 The third in a series of publications coming out of the ongoing evaluation studies at USAID's Center for Development Information and Evaluation Based on the hypothesis that elections in a postconflict setting are fundamentally different from those organized under normal circumstances 13 contributions examine the planning organization conduct and execution of such elections the critical roles played by international donors and the longer term outcomes particularly their impact on political and social reconciliation Paper edition unseen 19 95 Annotation copyrighted by Book News Inc Portland OR Postconflict Elections, Democratization, and International Assistance Assistance Krishna Kumar, 1998 *Twenty Years of Studying Democratization* Aurel Croissant, Jeffrey Haynes, 2015-06-05 Democratization emerged at a time of epochal change in global politics the twin impacts of the end of the Soviet Union and the speeding up and deepening of globalisation in the early 1990s meant a whole new ball game in terms of global political developments The journal's first issue appeared in early 1994 Over time the editorial position has been consistently to focus on the third wave of democracy and its aftermath The third wave is the most recent exemplar of a long term historical trend towards more democratically viable regimes and away from authoritarian systems and leaders In short the journal wants to promote a better understanding of democratization defined as the way democratic norms institutions and practices evolve and are disseminated both within and across national and cultural boundaries Over the years the many excellent articles that we have featured in the journal have shared our focus on democratization viewed as a process The journal has sought and continues to seek to build on the enduring scholarly and of course popular interest in democracy how and why it emerges develops and becomes consolidated Our emphasis over the last 20 years has been contemporary and the approach comparative with a strong desire to be both topical and authoritative We include special reference to democratization in the developing world and in post communist societies In sum just as 20 years ago the journal today aims to encourage debate on the many aspects of democratization that are of interest to policy makers administrators and journalists aid and development personnel those involved in education and perhaps above all the tens of millions of ordinary people around the world who do not yet enjoy the benefits of living under democratic rule The two dozen articles collected in this virtual special issue are emphatic proof of the power of the written word to induce debate uncertainty and ultimately progress towards better forms of politics focused on the achievement of the democratic aspirations of men and women everywhere *Democracy Assistance* Peter Burnell, 2013-10-23 This examination of how Western governments support democracy worldwide considers how countries use this aid Attention is paid to post conflict situations and semi authoritarian regimes where democratization has stalled and international support of democratic decentralization is assessed **The Internal Implementation of Peace Agreements after Violent Intrastate Conflict** Arist von Hehn, 2011-08-11 This book is at heart a guide on how to best approach the management of an internally led peace

implementation process after a violent intrastate conflict It explains the principal tasks legal framework and management implications of internal peace implementation and illustrates this with many examples of best practice as well as possible pitfalls The book integrates a broad analysis of current academic research with a substantial number of interviews with experts from the field With a foreword by Nobel Peace Prize Laureate President Martti Ahtisaari **Elections Today**, 1998 News from the world of elections **International Democracy and the West** Richard Youngs, 2004-11-04 This book adds to debates over the international dimensions of democratic change by studying the policies and actions of three sets of Western actors namely governments multinational companies and international NGOs This actor based triangular approach responds to observations that the strategic economic and social aspects of international democracy have rarely been studied in a combined holistic fashion During the 1990s Western governments multinational companies and civil society organizations all came to engage more notably in debates over democratic trends But were they genuine when they professed a concern with democracy in developing countries Which of these dynamics governmental commercial or social was the most influential in propelling efforts to encourage democratization and which helped explain the limits of democracy's international reach Did political economic and social actors form a broad network of international democratic momentum or did their respective perspectives increasingly diverge Exploring these questions the book presents extensive empirical material relating to Western policies in a number of developing regions covering the period from the mid 1990s to 2003 Oxford Studies in Democratization is a series for scholars and students of comparative politics and related disciplines Volumes concentrate on the comparative study of the democratization process that accompanied the decline and termination of the cold war The geographical focus of the series is primarily Latin America the Caribbean Southern and Eastern Europe and relevant experiences in Africa and Asia The series editor is Laurence Whitehead Official Fellow Nuffield College University of Oxford **Sustainable Peace** Philip G. Roeder, Donald S. Rothchild, 2005 How can leaders craft political institutions that will sustain the peace and foster democracy in ethnically divided societies after conflicts as destructive as civil wars This volume compares power dividing and power sharing solutions **New Zealand Yearbook of International Law**, 2024-12-02 The New Zealand Yearbook of International Law is an annual internationally refereed publication whose purpose is to provide a yearly reference for legal materials and critical commentary on issues of international law The Yearbook also serves as a valuable tool to identify trends state practice and policies in the development of international law in New Zealand the Pacific region the Southern Ocean and Antarctica and to generate scholarship in those fields In addition to presenting peer reviewed legal research the Yearbook contains an annual Year in Review that covers developments in international law of particular interest to New Zealand and a dedicated section on the South Pacific This Yearbook covers the period 1 January 2022 to 31 December 2022 **Peace and Conflict 2012** J. International Negotiation and Political Narratives Fen Osler Hampson, Amrita Narlikar, 2022-02-14 This book shows that political narratives can promote or thwart the prospects for international cooperation and are major factors in international negotiation processes in the 21st century In a world that is experiencing waves of right wing and left wing populism international cooperation has become increasingly difficult This volume focuses on how the intersubjective identities of political parties and narratives shape their respective values interests and negotiating behaviors and strategies Through a series of comparative case studies the book explains how and why narratives contribute to negotiation failure or deadlock in some circumstances and why in others they do not because a new narrative that garners public and political support has emerged through the process of negotiation The book also examines how narratives interact with negotiation principles and alter the bargaining range of a negotiation including the ability to make concessions This book will be of much interest to students of international negotiation economics security studies and international relations

International Assistance and State-University Relations Jo Bastiaens, 2011-01-13 This book explores the goals efforts and outcomes of international assistance to higher education over the past three decades and investigates how these have impacted changing State university relations Focusing on the case study of Indonesia Bastiaens demonstrates how international aid facilitated and at times actively encouraged changing patterns of state university relations from state control towards greater institutional autonomy Through the use of various case studies from throughout the country and critical analysis of the relationships between international donors and domestic reformers Bastiaens shows how the educational system of Indonesia was able to diversify resources generate income and become increasingly autonomous from government

Election Administration and the Politics of Voter Access Kevin Pallister, 2017-06-26 This book is the first systematic study to investigate why it is easier to vote in some democracies than in others It draws on in depth case studies from Central America and data from Latin America more broadly to address how political parties and other actors interact in constructing election administration rules and procedures Using a theoretical framework centred on electoral threat party capacity and electoral management body composition the author identifies multiple pathways to inclusive and restrictive election administration

Strengthening Peace in Post-Civil War States Matthew Hoddie, Caroline A. Hartzell, 2010-09-30 Among the more frequent and most devastating of conflicts civil wars from Yugoslavia to Congo frequently reignite and even

spill over into the international sphere Given the inherent fragility of civil war peace agreements innovative approaches must be taken to ensure the successful resolution of these conflicts Strengthening Peace in Post Civil War States provides both analytical frameworks and a series of critical case studies demonstrating the effectiveness of a range of strategies for keeping the peace Coeditors Matthew Hoddie and Caroline A Hartzell here contend that lasting peace relies on aligning the self interest of individuals and communities with the society wide goal of ending war if citizens and groups have a stake in peace they will seek to maintain and defend it The rest of the contributors explore two complementary approaches toward achieving this goal restructuring domestic institutions and soft intervention Some essays examine the first tactic which involves reforming governments that failed to prevent war while others discuss the second an umbrella term for a number of non military strategies for outside actors to assist in keeping the peace

Electoral Violence, Corruption, and Political Order Sarah Birch, 2020-07-21 A comprehensive look at how violence has been used to manipulate competitive electoral processes around the world since World War II Throughout their history political elections have been threatened by conflict and the use of force has in the past several decades been an integral part of electoral processes in a significant number of contemporary states However the study of elections has yet to produce a comprehensive account of electoral violence Drawing on cross national data sets together with fourteen detailed case studies from around the world *Electoral Violence Corruption and Political Order* offers a global comparative analysis of violent electoral practices since the Second World War Sarah Birch shows that the way power is structured in society largely explains why elections are at risk of violence in some contexts but not in others Countries with high levels of corruption and weak democratic institutions are especially vulnerable to disruptions of electoral peace She examines how corrupt actors use violence to back up other forms of electoral manipulation including vote buying and ballot stuffing In addition to investigating why electoral violence takes place Birch considers what can be done to prevent it in the future arguing that electoral authority and the quality of electoral governance are more important than the formal design of electoral institutions Delving into a deeply influential aspect of political malpractice *Electoral Violence Corruption and Political Order* explores the circumstances in which individuals choose to employ violence as an electoral strategy

Rebel Parties in African Post-Conflict Elections Nora Schrader-Rashidkhan, 2021-05-04 In vielen Post Konflikt Gesellschaften weltweit beteiligen sich ehemalige Rebellengruppen als politische Parteien an Wahlen Die Studie behandelt die Gründung und den Erfolg solcher Rebellenparteien in Afrika und geht der Frage nach inwiefern institutionelle Strukturen diese Prozesse beeinflussen Der entwickelte Forschungsansatz ermöglicht zunächst eine systematische Erfassung aller afrikanischen Fälle seit 1989 um dann komplexe Kausalbeziehungen mit einer qualitativ vergleichenden Analyse mit Fuzzy Sets fsQCA aufzudecken Die Ergebnisse zeigen u.a. dass Institutionen wie Friedensabkommen Opportunitätsstrukturen für Rebellenparteien prägen und zu Pfadabhängigkeiten führen und dass demokratischere Wahlen die Etablierung solcher Parteien eher verhindern

You, the People Simon Chesterman, 2005 The

governance of post conflict territories embodies a central contradiction how does one help a population prepare for democratic governance and the rule of law by imposing a form of benevolent autocracy Transitional administrations represent the most complex operations attempted by the United Nations The operations in East Timor and Kosovo are commonly seen as unique in the history of the UN perhaps never to be repeated But they may also be seen as the latest in a series of operations that have involved the United Nations in state building activities where it has attempted to develop the institutions of government by assuming some or all of those sovereign powers on a temporary basis The circumstances that have demanded such interventions certainly will be repeated Seen in the context of earlier UN operations such as those in Namibia Cambodia and Eastern Slavonia the view that these exceptional circumstances may not recur is somewhat disingenuous Moreover the need for such policy research has been brought into sharp focus by the weighty but ambiguous role assigned to the UN in Afghanistan and the possibility of a comparable role in Iraq This book fills that gap Aimed at policy makers diplomats and a wide academic audience including international relations political science international law and war studies the book provides a concise history of UN state building operations and a treatment of the five key issues confronting such an operation on the ground peace and security the role of the UN as government judicial reconstruction economic reconstruction and exit strategies

Voting Rights of Refugees Ruvi Ziegler, 2017-01-26 Voting Rights of Refugees develops a novel legal argument about the voting rights of refugees recognised in the 1951 Geneva Convention The main normative contention is that such refugees should have the right to vote in the political community where they reside assuming that this community is a democracy and that its citizens have the right to vote The book argues that recognised refugees are a special category of non citizen residents they are unable to participate in elections of their state of origin do not enjoy its diplomatic protection and consular assistance abroad and are unable or unwilling owing to a well founded fear of persecution to return to it Refugees deserve to have a place in the world in the Arendtian sense where their opinions are significant and their actions are effective Their state of asylum is the only community in which there is any prospect of political participation on their part

Law, Society and Transition in Myanmar Melissa Crouch, Tim Lindsey, 2014-10-23 This edited volume addresses the dynamics of the legal system of Myanmar Burma in the context of the dramatic but incomplete transition to democracy that formally began in 2011 It includes contributions from leading scholars in the field on a range of key legal issues now facing Myanmar such as judicial independence constitutional law human rights and institutional reform It features chapters on the legal history of Myanmar electoral reform the role of the judiciary economic reforms and the state of company law It also includes chapters that draw on the experiences of other countries to contextualise Myanmar's transition to democracy in a comparative setting including Myanmar's participation in regional bodies such as ASEAN This topical book comes at a critical juncture in Myanmar's legal development and will be an invaluable resource for students and teachers seeking greater understanding of the legal system of Myanmar It will also be vital reading for a wide range of

government business and civil society organisations seeking to re engage with Myanmar as it navigates a difficult transition toward democracy and the rule of law *Contested Power in Ethiopia* Kjetil Tronvoll, Tobias Hagmann, 2011-12-02 This book offers a comparative ethnography of the contested powers that shape democratization in Ethiopia Although multi party elections have become the norm in Africa relatively little is known about the significance of non state actors such as traditional authorities in electioneering Focusing on Ethiopia s competitive 2005 elections this book analyzes how customary leaders political parties and state officials confronted and complemented each other during election time Case studies reveal the contemporaneousness of traditional authorities in modern politics but also how multi party competition reproduces traditional relations of domination among ethnic groups The book documents the importance of customary authority in selecting party candidates and providing legitimacy to political parties but also their limitations in a country dominated by a semi authoritarian party state
