Postethnic America Beyond Multiculturalism:

Postethnic America David A Hollinger, 2006-02-28 Sympathetic with the new ethnic consciousness Hollinger argues that the conventional liberal toleration of all established ethnic groups no longer works because it leaves unchallenged the prevailing imbalance of power Yet the multiculturalist alternative does nothing to stop the fragmenting of American society into competing ethnic enclaves each concerned primarily with its own well being Hollinger argues instead for a new cosmopolitanism an appreciation of multiple identities new cross cultural affiliations based not on the biologically given but on consent on the right to emphasize or diminish the significance of one's ethnoracial affiliation Postethnic America is a bracing reminder of America's universalist promise as a haven for all peoples While recognizing the Eurocentric narrowness of that older universalism Hollinger makes a stirring call for a new nationalism He urges that a democratic nation state like ours must help bridge the gap between our common fellowship as human beings and the great variety of ethnic and racial groups represented within the United States

Multiculturalism in Transit Klaus J. Milich, Jeffrey Peck, 1998-12-01 Multiculturalism is one of the most controversial topics in both the United States and Germany This interdisciplinary collection of essays by German scholars in American Studies and American scholars in German Studies analyze the other from this dual perspective and from their respective disciplines such as literary and cultural studies political science anthropology and history More particularly they examine multiculturalism in terms of national and ethnic identities as well as gender and race and look at the disciplines and institutions that produce and legitimize discourses on subjects such as minority literatures feminism and the notion of foreignness itself What becomes clear is the fact that careful attention must be paid to the particular conditions and different ideological concepts that shape this term i.e. the national historical political social and institutional contexts in which it appears circulates and accrues meanings Contributors G Welz T Brennan B Ostendorf R Hof S Lennox A Koenen F Hajek C Gersdorf G H Lenz F Trommler H C Seeba A Seyhan A Hornung B Thomas G O Kvistad H J Puhle

After Multiculturalism John F. Welsh, 2007-12-12 *After Multiculturalism* The Discourse on Race and the Dialectics of Liberty provides a unique critique of multiculturalist thought in social theory and public policy from an individualist perspective Contemporary academic and policy discourse on race and racism in the United States is dominated by collectivist social theories that are founded on the idea that the only meaningful challenges to racism are those that foster collective social identities and seek to influence and direct the use of state power in the interest of particular racial and ethnic groups Multiculturalism is the prevailing incarnation of anti racist thought that informs and mediates political process and organizational life in the United States The multicultural discourse on race has become tribalist anti western anti market and statist *After Multiculturalism* challenges the notion that collectivist and statist ideologies own racism as an educational and public policy issue Welsh demonstrates that individualist philosophies entail critiques of racism that follow directly from their anti collectivist and anti statist foundations He argues that multiculturalism is unlikely to promote the types of social

action and changes essential to overcoming racism and that the individualist and libertarian ideas discussed in the book make important contributions toward the realization of a world free of racial domination To this end the ideas of Ayn Rand Murray Rothbard Benjamin Benjamin Tucker Lysander Spooner Max Stirner and contemporary libertarian scholars are discussed to the lay the foundation for a critique of multiculturalism The book explores the concepts of post ethnicity and transracialism as individualist and libertarian expressions of a society after multiculturalism Welsh s discussions of transracialism and post ethnicity constitute unique and important contributions to social thought This book will hold great interest for scholars and students concerned with race ethnicity political theory or individualist thought as well as scholars and students of the history of ideas American Multiculturalism in Context Sämi Ludwig,2017-03-07 In March 2015 a group of experts from four continents and a wide range of disciplines met with the leading African American writer Ishmael Reed in Mulhouse France and Basel Switzerland Guided by Swiss cultural and literary theorist S mi Ludwig and deliberately migrating back and forth across a political border in the heart of Europe they not only listened to Reed and discussed his work but also looked more widely at the different meanings assigned to multiculturalism in the United States Europe and other parts of the world This volume brings together their reflections *Latino/as in the World-system* Ramon Grosfoguel,Nelson Maldonado-Torres,Jose David Saldivar,2015-11-17 Contributors Immanuel Wallerstein Enrique Dussel Walter Mignolo Agustin Lao Lewis Gordon James V Fenelon Roberto Hernandez James Cohen Santiago Slabosky Susanne Jonas and Thomas Reifer By the mid twenty first century white Euro Americans will be a demographic minority in the United States and Latino as will be the largest minority 25 percent These changes bring about important challenges at the heart of the contemporary debates about political transformations in the United States and around the world Latino as are multiracial Afro latinos Indo latinos Asian latinos and Euro latinos multi ethnic multireligious Jewish Catholic Protestant Muslim indigenous and African spiritualities and of varied legal status immigrants citizens and illegal migrants This collection addresses for the first time the potential of these diverse Latino a spiritualities origins and statuses against the landscape of decolonization of the U S economic and cultural empire in the twenty first century Some authors explore the impact of Indo latinos and Afro latinos in the United States and others discuss the conflicting interpretations and political conflicts arising from the Latinization of the United States **Theories of American Culture, Theories of American Studies** Winfried Fluck,2003 *Multiculturalism without Culture* Anne Phillips,2009-02-17 Public opinion in recent years has soured on multiculturalism due in large part to fears of radical Islam In Multiculturalism without Culture Anne Phillips contends that critics misrepresent culture as the explanation of everything individuals from minority and non Western groups do She puts forward a defense of multiculturalism that dispenses with notions of culture instead placing individuals themselves at its core Multiculturalism has been blamed for encouraging the oppression of women forced marriages female genital cutting school girls wearing the hijab Many critics opportunistically deploy gender equality to justify the retreat from multiculturalism

hijacking the equality agenda to perpetuate cultural stereotypes Phillips informs her argument with the feminist insistence on recognizing women as agents and defends her position using an unusually broad range of literature including political theory philosophy feminist theory law and anthropology She argues that critics and proponents alike exaggerate the unity distinctness and intractability of cultures thereby encouraging a perception of men and women as dupes constrained by cultural dictates Opponents of multiculturalism may think the argument against accommodating cultural difference is over and won but they are wrong Phillips believes multiculturalism still has an important role to play in achieving greater social equality In this book she offers a new way of addressing dilemmas of justice and equality in multiethnic multicultural societies intervening at this critical moment when so many Western countries are poised to abandon multiculturalism

understanding of contemporary multicultural theory and practice *Evolving Multicultural Education for Global Classrooms* addresses multicultural education from a comprehensive viewpoint that acknowledges the historical benefit of multicultural education and recognizes a need to inform the discipline with a broader viewpoint As most knowledge on multicultural education comes from a Western perspective and the scholarship on the topic is weakening the chapters in this book present new practices and classroom applications that are internationally transferable Topics covered include teacher education social justice educational equity and inclusion online education and cultural sensitivities This book is ideally intended for teachers educational theorists sociologists of education inservice and preservice teachers administrators teacher educators practitioners researchers academicians and students interested in a fresh global perspective on multicultural education

Managing Multicultural Lives Pawan Dhingra,2007 This book examines how second generation Asian American professionals bring together contrasting identities in the cultural spaces of daily life and the implications for theories of immigrant adaptation and stratification Research Review for School Leaders William G. Wraga,Peter S. Hlebowitsh,Founding Editor Tanner,Daniel Tanner,2012-08-06 The Research Review for School Leaders Volume III is specifically designed as a practical resource for school leaders whose schedules preclude opportunities to locate and review key research on every issue they must address It places comprehensive current and accessible reviews of educational research at their fingertips and is organized to make the research and practices it summarizes useful to them in their professional endeavors This is the third volume of the Review Although the title has changed its purpose and substance is continuous with the work of the earlier volumes The first Annual Review of Research for School Leaders 1996 summarized research on the status of public schooling interdisciplinary curriculum and educational applications of computers The second volume 1998 addressed the topics of middle level education the extracurriculum mathematics education reform and drop outs The present Volume III offers educational leaders reviews of research on five timely educational issues citizenship education multicultural education gifted and talented education classroom assessment and scheduling A basic premise of this volume is that to make sound decisions professionals need to be up to date on current research related to the problems with which they grapple A second premise is that research cannot simply be imposed in a formulaic way on a local setting the nature of the particular problem to be solved will always bear upon the relevance of research to a specific context Thus this volume is envisioned as a helpful resource for school leaders as they engage in important discussions of the research with teachers school board members parents and other interested parties as they collaboratively seek effective resolutions to local educational problems The New Dynamics of Identity Politics in the Americas Olaf Kaltmeier,2017-07-05 Multiculturalism has shaped identity politics in the Americas over the past decades as illustrated by politics of recognition affirmative action and increasing numbers of internationally recognized cultural productions by members of ethnic minorities Hinting at postcolonial legacies in political rhetoric and practice multiculturalism has also served as a driving force behind social

movements in the Americas Nevertheless in current academic discussions and public debates on migration globalization and identity politics concepts like new ethnicities ethnic groupism creolization hybridity mestizaje diasporas and post ethnicity articulate positionings that are profoundly changing our understanding of multiculturalism Combining theoretical reflections with case studies the aim of this book is to demonstrate the current dynamics of post multicultural politics in the Americas This book was based on a special issue of Latin American and Caribbean Ethnic Studies The Post-Marked World Sumit Chakrabarti, Krystyna Kujawińska Courtney, 2013-07-29 It is a cliché now to claim that we live in a post marked world and indeed the post isms are some of the most used and abused expressions in the language In a general sense the various kinds of post isms are regarded as a rejection of a prevailing number of cultural certainties on which our life in the so called Western world has been structured since the eighteenth century Engaging with the post isms can be regarded as both a philosophical and political endeavour which demonstrates among other things the instability of language meaning narrativity and generally any formal systems In the wake of such theoretical aporia this volume represents an investigation in the re thinking of the implications of the term post in current theoretical parlance Is there a politics always already embedded within the post Do we need the post any more Did we in the first place need it at all Is it possible to counter essentialism with the post prefix These are some of the questions the volume raises and explores by examining the post marked terms in the theoretical market The essays included in this volume address different and relevant issues related to the idea of the post and those that are representative of different parts of the globe Thus a reader of the volume will not only have a bird's eye view of the various disciplines where the concept of the post is used but also an eclectic range of contributions about issues that engage with different socio political dynamics from various parts of the world *What Was Multiculturalism?* Vijay Mishra, 2012-01-02 *What Was Multiculturalism* is a timely account of a socio political theory that has featured in public debate in the West for the past forty years The book is both a compendium as well as a critique of multicultural theory in its diverse forms from the politics of recognition consensus tolerance and the need for an inclusive community to questions about the moral order the invasive force of religious absolutism and the spectres of racism injustice and scapegoating Through a series of critical reflections Mishra offers a detached honest bold and uncompromised reading of some of the most influential texts on multiculturalism with a view to establishing the historical moments in the field **Multicultural Questions** Christian Joppke, Steven Lukes, 1999-10-07 This volume assembles leading scholars from a range of disciplines to debate multiculturalism in theory and practice The volume is grouped around four central questions raised by multiculturalism Is universalism ethnocentric Does multiculturalism threaten citizenship Do minorities require group rights and what can Europe learn from North America The book aims to answer these questions by moving the debate about multicultural questions into a more consensual mode The authors show a resistance to either endorsing or rejecting multiculturalism but a preference for dissecting and differentiating the concrete historical and geographical contexts in

which specified versions of multiculturalism make sense and others in which they do not American Identity and the Politics of Multiculturalism Jack Citrin, David O. Sears, 2014-08-11 The civil rights movement and immigration reform transformed American politics in the mid 1960s Demographic diversity and identity politics raised the challenge of e pluribus unum anew and multiculturalism emerged as a new ideological response to this dilemma This book uses national public opinion data and public opinion data from Los Angeles to compare ethnic differences in patriotism and ethnic identity and ethnic differences in support for multicultural norms and group conscious policies The authors find evidence of strong patriotism among all groups and the classic pattern of assimilation among the new wave of immigrants They argue that there is a consensus in rejecting harder forms of multiculturalism that insist on group rights but also a widespread acceptance of softer forms that are tolerant of cultural differences and do not challenge norms such as by insisting on the primacy of English
