Postmodernism, Or, The Cultural Logic of Late Capitalism Fredric Jameson, 2003

Fredric Jameson Adam Charles Roberts, 2000 Widely recognised as one of today's most important cultural critics Adam Roberts offers an engaging introduction to this crucial figure which will convince any student of contemporary theory that Jameson must be read

Postmodernism Fredric Jameson, 2021-03-30 In his most wide ranging and accessible work Frederic Jameson argues that postmodernism is the cultural response to the latest systemic change in world capitalism He seeks here to crystallize a definition of a term which has taken on so many meanings that it has virtually lost all historical significance He presents an extensive discussion on the cultural landscape both high and low of postmodernity evaluating the political fortunes of the new term and surveying postmodern developments in a range of different fields from market ideology to architecture from painting and instalment art to contemporary punk film from video art and high literature to deconstruction Finally Jameson reevaluates the concept of postmodernism in light of postmodern critiques of totalization and historical narratives from the notion of decadence to the dynamics of small groups from religious fundamentalism to hi tech science fiction while touching on the nature of contemporary cultural critique and the possibilities of cognitive mapping in the present multinational world system

Post-Postmodernism Jeffrey Nealon, 2012-08-01 Post Postmodernism begins with a simple premise we no longer live in the world of postmodernism famously dubbed the cultural logic of late capitalism by Fredric Jameson in 1984 Far from charting any simple move beyond postmodernism since the 1980s though this book argues that we've experienced an intensification of postmodern capitalism over the past decades an increasing saturation of the economic sphere into formerly independent segments of everyday cultural life If fragmentation was the preferred watchword of postmodern America intensification is the dominant cultural logic of our contemporary era Post Postmodernism surveys a wide variety of cultural texts in pursuing its analyses everything from the classic rock of Black Sabbath to the post Marxism of Antonio Negri from considerations of the corporate university to the fare at the cineplex from reading experimental literature to gambling in Las Vegas from Badiou to the undergraduate classroom Insofar as cultural realms of all kinds have increasingly been overcoded by the languages and practices of economics Nealon aims to construct a genealogy of the American present and to build a vocabulary for understanding the relations between economic production

and cultural production today when American style capitalism despite its recent battering seems nowhere near the point of obsolescence Post postmodern capitalism is seldom late but always just in time As such it requires an updated conceptual vocabulary for diagnosing and responding to our changed situation

The Cultural Turn Fredric Jameson, 1998 Fredric Jameson is regarded as one of the leading Marxist critics in the English speaking world The Cultural Turn is intended as a concise introduction to his theories on the postmodern world

Late Marxism Fredric Jameson, 2020-05-05 In the name of an assault on totalization and identity a number of contemporary theorists have been busily washing Marxism's dialectical and utopian projects down the plug hole of postmodernism and post politics A case in point is recent interpretation of one of the greatest twentieth century philosophers Theodor Adorno In this powerful book Fredric Jameson proposes a radically different reading of Adorno's work especially of his major works on philosophy and aesthetics Negative Dialectics and Aesthetic Theory Jameson argues persuasively that Adorno's contribution to the development of Marxism remains unique and indispensable He shows how Adorno's work on aesthetics performs deconstructive operations yet is in sharp distinction to the now canonical deconstructive genre of writing He explores the complexity of Adorno's very timely affirmation of philosophy of its possibility after the end of grand theory Above all he illuminates the subtlety and richness of Adorno's continuing emphasis on late capitalism as a totality within the very forms of our culture In its lucidity Late Marxism echoes the writing of its subject to whose critical utopian intelligence Jameson remains faithful

A Postmodern Reader Joseph P. Natoli, Linda Hutcheon, 1993-01-01 These readings are organized into four sections The first explores the wellsprings of the debates in the relationship between the postmodern and the enterprise it both continues and contravenes modernism Here philosophers social and political commentators as well as cultural and literary analysts present controversial background essays on the complex history of postmodernism The readings in the second section debate the possibility or desirability of trying to define the postmodern given its cultural agenda of decentering challenging even undermining the guiding master narratives of Western culture The readings in the third section explore postmodernism's complicated complicity with these very narratives while the fourth section moves from theory to practice in order to investigate in a variety of fields the common denominators of the postmodern condition in action

perspective on the future of a world that is all but impossible to predict with any certainty a telling of the future as Jameson calls it with an imperfect deck The Antinomies of Postmodernity highlights the seemingly unresolvable paradoxes of intellectual debate in the age of postmodernity Jameson suggests that these paradoxes revolve around the idea of nature the terms of antifoundationalism and antiessentialism and contemporary society's inability or refusal to consider the idea of Utopia The chapter attempts to sketch the unrepresentable exterior of these debates which is the locus of the future according to Jameson In Utopia Modernism and Death Jameson meditates on the fascinating and terrifying Utopian fiction Chevengur written in the 1920s by the Soviet author Andrei Platonov He discusses the unique character of Utopian visions in the Second World of communism where commodity fetishism has not had as profound an effect on social relations as we have seen in the First World under late capitalism The Seeds of Time continues in The Constraints of Postmodernism with an examination of contemporary architectural trends in an attempt to suggest the limits of the postmodern By delineating these limits Jameson stakes out a prediction of the boundaries of postmodernity the unrepresentable exterior approached in Part One which we need to recognize and surpass
