Postmodernist Critique Of The Project Of Enlightenment:

The Postmodernist Critique of the Project of Enlightenment Sven-Eric Liedman, 1997 *Explaining Postmodernism* Stephen R. C. Hicks, 2004 **The Totalitarian Paradigm After the End of Communism** Achim Siegel, 1998 Concepts of totalitarianism have undergone an academic revival in recent years particularly since the breakdown of communist systems in Europe in 1989 91 the totalitarian paradigm so it seems to many scholars today had been discarded prematurely in the heat of the Cold War The demise of communism as a social system is however not only an important cause of the recurring attractiveness of the totalitarian paradigm but provides at the same time new evidence and correspondingly new problems of explanation for all approaches in communist studies and totalitarianism theory in particular This book contains articles by philosophers social scientists and historians who reassess the validity of the totalitarian approach in the light of the recent historical developments in Eastern Europe A first group of authors focus on the analytical usefulness and explanatory power of classic concepts of totalitarianism after having observed the failed reforms of the Gorbachev era and the collapse of Europe's communist systems in 1989 91 In these contributions the totalitarian paradigm is contrasted with other approaches with respect to cognitive power as well as normative implications In the second group of contributions the focus is on the reassessment of methodological and theoretical problems of the classic concepts of totalitarianism The authors attempt to reinterpret the classic concepts so as to meet the objections which have been put forward against those concepts during the last decades The study thereby traces some of the intellectual roots of the totalitarian paradigm that precede the outbreak of the Cold War such as the work of Sigmund Neumann and Franz Borkenau It also focuses on the most famous authors in the field Hannah Arendt and Carl Joachim Friedrich In addition it discusses theorists of totalitarianism like Juan Linz whose contributions to totalitarianism theory have too often been overlooked The Modernist-postmodernist Quarrel on Philosophy and Justice Manuel P. Arriaga, 2006-01-01 This book examines the social relevance of philosophy as this problem is posed in the contemporary Modernism Postmodernism debate Manuel P Arriaga critically investigates the two sides of the debate in their various presuppositions and their equally diverse ramifications in fields ranging from political theory philosophy of religion and theory of knowledge among others Making use of the problematic of social justice as touchstone in threshing out the issue and aided particularly by the thought of Emmanuel Levinas Arriaga then presents a view of the social relevance of philosophy that incorporates the good points of the opposing camps of the debate The Modernist Postmodernist Quarrel on Philosophy and Justice will interest anyone wishing to ask about the social relevance of what philosophers do **Postmodern Philosophical Critique and the Pursuit of Knowledge in Higher Education** Roger Mourad, 1997-08-30 This work explores the philosophical positions of five postmodern thinkers Lyotard Rorty Schrag Foucault and Derrida to show how their critiques imply that scholars are unduly limited by the belief that inquiry is fundamentally about gaining knowledge of phenomena that are assumed to exist prior to and independent of inquiry and to

persist essentially unchanged by inquiry The author argues that there are good reasons why this constraint is both unnecessary and undesirable and he resituates the disciplines within a more flexible foundation that would expand what counts as legitimate inquiry This foundation would emphasize the inquirer as a cause of reality not just an observer who aims to accurately describe and explain phenomena Mourad proposes an intellectual and organizational form which he calls post disciplinary research programs These dynamic programs would be composed of scholars from diverse disciplines who collaborate to juxtapose disparate disciplinary concepts in order to create contexts for post disciplinary inquiries

Representations of Scientific Rationality Andoni Ibarra, Thomas Mormann, 2023-03-13 Idealization IX: Idealization in Contemporary Physics, 2023-05-30 Here is presented for the first time a comprehensive review and analysis of the several roles played by idealization procedures in the logic mathematics and models that lie at the heart of modern twentieth century physics It is only through idealization of one form or another that the objects and processes of modern physics become tractable The essays in this volume will be of interest to all those who are concerned with the uses of models in physics and the relationships between models and the real world The essays in this volume cover the role of idealization in all the main areas of modern physics ranging from quantum theory relativity theory and cosmology to chaos theory The Trouble with Theory Gavin Kitching, 2020-07-23 Postmodern theory has engaged the hearts and heads of the brightest students because of its apparent political and social radicalism Despite this Professor Gavin Kitching claims that At the heart of postmodernism is very poor deeply confused and misbegotten philosophy As a result even the very best students who fall under its sway produce radically incoherent ideas about language meaning truth and reality This is not another conservative attack on postmodernism Rather it is a carefully considered analysis from a dedicated university teacher who is convinced that we have gone terribly astray He shows that postmodern theory is at best irrelevant to and at worst undermining of persuasive political arguments and reveals the basic philosophical confusion at its heart which makes this so Essential reading for any student writing a thesis in the humanities and the social sciences and for their teachers It is the strongest and best attack on the ravages of routine post modernism that I have ever read I applaud the way he lists the good causes that students warmly espouse and then suggests a simpler way to support them without the self destructive it s all just language that is implicit in their work Professor Sir Bernard Crick Emeritus Professor of Politics Birkbeck College University of London Gavin Kitching rattles the cages Will the inmates hear this They should if only for the reason that there is virtue in learning to argue against yourself This is a serious book Professor Peter Beilharz Sociology La Trobe University Required reading for anyone who wants to understand how and why postmodernism has had such disastrous pedagogical consequences Professor David G Stern Philosophy University of Iowa Beyond Orientalism Wilhelm Halbfass, 1997 ISBN 9042002409 paperback NLG 100 00 interests and values are these On Comparing and Evaluating Scientific Theories, 2022-04-19 Contents Leon KOJ Methodology and values Leon KOJ Science as system Adam GROBLER Explanation and epistemic virtue Piotr GIZA

Is that the Question?** Leon Gumański, 2023-03-27 This volume may be of interest for all those who wish that philosophy had a scientific character As an adherent of the Polish Lvov Warsaw Philosophical School the author of this collection of papers endeavours to clarify some basic notions of epistemology ontology and psychology of cognitive acts such as judgment existence being etc In his investigations he refrains from unnecessary rejection of common sense knowledge but at the same time searches for suitable patterns in contemporary sciences Regarding formal logic as a fundamental tool for the precise expression and justification of thoughts the author tries to clear logic from ontological commitments shows how to construct logic of norms and how to use safely different definitions in research works The book presents a new conception of antinomies and an innovatory approach to realistic epistemology Moreover some applications of logical methods are illustrated by examples of semantical analyses of the general notion of similarity and the biological concept of homology *Essays in Logic and Ontology*, 2016-08-29 The aim of this book is to present essays centered upon the subjects of Formal Ontology and Logical Philosophy The idea of investigating philosophical problems by means of logical methods was intensively promoted in Toruń by the Department of Logic of Nicolaus Copernicus University during last decade Another aim of this book is to present to the philosophical and logical audience the activities of the Toruń Department of Logic during this decade The papers in this volume contain the results concerning Logic and Logical Philosophy obtained within the confines of the projects initiated by the Department of Logic and other research projects in which the Toruń Department of Logic took part **Nietzsche as Postmodernist** Clayton Koelb, 1990-09-11 The contributors discuss the current debate about what philosophy is how it works and how Nietzsche's thought clarifies or complicates its understanding They represent a wide range of views and practices some aggressively postmodern in their

approach some profoundly skeptical about postmodernism Although the issue of postmodernism is the central focus the essays also touch on many other areas of interest to readers of Nietzsche

Beyond Orientalism Eli Franco, 1997 Wilhelm Halbfass philosopher and Indologist is a committed participant in the dialogue between India and Europe whose reflections on the Indian tradition and its Western perception are accompanied by reflection on and critical examination of the Western tradition In this innovative combination of Indological research and philosophical hermeneutical research in the history of ideas he demonstrates a purpose more ambitious and a scope wider than Edward Said's who constructed the Western study of the so called Orient as an attempt to deprive it of its identity and sovereignty and who perceived the pursuit of Oriental Studies in Western universities to be an extension of a fundamentally political will to power and domination Without denying the domination of the dialogue between India and Europe by the West Halbfass goes beyond that to show a different way of approaching Indian thought he strives to establish the presuppositions and prerequisites that would make a true dialogue and mutual understanding between Indian and Western intellectual cultures possible The papers in the present volume originate from twenty three scholars of Indology philosophy religious studies comparative theology classics folkloristics and political theory working in eleven countries spread over three continents They address central issues of Halbfass work his critical responses to them commence with an extensive essay in which he assesses in a masterly manner the state of Indian studies almost twenty years after the publication of Said's *Orientalism*

The Passing of Postmodernism Josh

Toth, 2010-03-24 *The Passing of Postmodernism* addresses the increasingly prevalent assumption that a period marked by poststructuralism and metafiction has passed and that literature and film are once again engaging sincerely with issues of ethics and politics In discussions of various twentieth and twenty first century writers directors and theorists from Michel Foucault and Slavoj Žižek to Thomas Pynchon and David Lynch Josh Toth demonstrates that a certain utopian spirit persisted within and actually defined the postmodern project Just as modernism was animated by an idealistic belief that it could finally realize the utopia beckoning on the horizon postmodernism was compelled by an equally utopian belief that it could finally reject the possibility of all such illusory ideals Toth argues that this specter of an impossible future is and must remain both possible and impossible a ghostly promise of what is always still to come Josh Toth teaches literature and critical theory at Grant MacEwan College and is coeditor with Neil Brooks of *The Mourning After Attending the Wake of Postmodernism*

Marx's Theories Today, 2023-07-24 *Postcolonial Public Theology* Paul S. Chung, 2016-02-02 *Postcolonial Public Theology* is a tour de force theological reflection transformed by encounter with the most compelling intellectual discourses of our time It offers prophetic challenge to the hegemony of economic globalization Evolutionary science's encounter with life's limit questions requires an ethically responsible practice of scientific rationality measured by sufficient sustainable livelihood for all Interreligious engagement compels us to take seriously the realities of cultural hybridity and social location in reimagining a polycentric Christianity *Postcolonial Public Theology* makes the case for public theology to turn toward

postcolonial imagination demonstrating a fresh rethinking of public and global issues that continue to emerge in the aftermath of colonialism This book provides students and scholars in these various fields an interesting framework from which to continue to dialogue about the relevance of this literature and in particular the continuing importance of Christian theology in the public arena
