Postwar A History Of Europe Since 1945

**John P. McKay, Bennett D. Hill, John
Buckler, Clare Haru Crowston, Merry E.
Wiesner-Hanks, Joe Perry**

Postwar A History Of Europe Since 1945:

Postwar Tony Judt, 2006-09-05 Finalist for the Pulitzer Prize Winner of the Council on Foreign Relations Arthur Ross Book Award One of the New York Times's 100 Best Books of the 21st Century Impressive Mr Judt writes with enormous authority The Wall Street Journal Magisterial It is without a doubt the most comprehensive authoritative and yes readable postwar history The Boston Globe Almost a decade in the making this much anticipated grand history of postwar Europe from one of the world's most esteemed historians and intellectuals is a singular achievement *Postwar* is the first modern history that covers all of Europe both east and west drawing on research in six languages to sweep readers through thirty four nations and sixty years of political and cultural change all in one integrated enthralling narrative Both intellectually ambitious and compelling to read thrilling in its scope and delightful in its small details *Postwar* is a rare joy **An Analysis of Tony**

Judt's Postwar Simon Young, 2017-07-05 Tony Judt decided to write *Postwar* in 1989 the year the collapse of the Soviet Union provided European history with a rare example of a clearly signposted end of an era It's scarcely surprising then that the great virtue of Judt's book is the clarity and the breadth of its account of postwar Europe His book coalesces around one central theme the idea that the whole of the history of this period can be explained as an unravelling of the consequences of World War II A bold claim but Judt's exceptional ability to create strong well structured inclusive arguments allows him to pull it off convincingly Judt's work is also a fine example of creative thinking in that he excels in connecting things together in new and interesting ways This virtue extends from his unusual ability to combine the best elements of the Anglo American and the French historiographical traditions the latter informing his strong interest in the importance of cultural history to his unwillingness to allow himself to be constrained by historical category and ultimately to his linguistic abilities *Postwar* is above all a triumph of integration something that is only made possible by its author's flair for creating strong persuasive arguments *Postwar* Tony Judt, 2006 Provides a history of contemporary Europe covering thirty four countries over a span of sixty years and includes discussion of the region's economic development culture and politics **Postwar** Simon

Young, 2017-07-15 Tony Judt was born in London in 1948 but spent most of his career in America He studied history at Cambridge and then earned his doctorate in France His first major writings were about France's historical left wing movements particularly the French Socialist Party *The Oxford Handbook of Postwar European History* Dan Stone, 2012-05-17 The postwar period is no longer current affairs but is becoming the recent past As such it is increasingly attracting the attentions of historians Whilst the Cold War has long been a mainstay of political science and contemporary history recent research approaches postwar Europe in many different ways all of which are represented in the thirty five chapters of this book As well as diplomatic political institutional economic and social history The Oxford Handbook of Postwar European History contains chapters which approach the past through the lenses of gender espionage art and architecture technology agriculture heritage postcolonialism memory and generational change and shows how the history of

postwar Europe can be enriched by looking to disciplines such as anthropology and philosophy The Handbook covers all of Europe with a notable focus on Eastern Europe Including subjects as diverse as the meaning of Europe and European identity southern Europe after dictatorship the cultural meanings of the bomb the 1968 student uprisings immigration Americanization welfare leisure decolonization the Wars of Yugoslav Succession and coming to terms with the Nazi past the essays in this Handbook offer an unparalleled coverage of postwar European history that offers far more than the standard Cold War framework Readers will find self contained state of the art analyses of major subjects each written by an acknowledged expert as well as stimulating and novel approaches to newer topics Combining empirical rigour and adventurous conceptual analysis this Handbook offers in one substantial volume a guide to the numerous ways in which historians are now rewriting the history of postwar Europe

The Lost Decade? The 1950s in European History, Politics, Society and Culture Heiko Feldner, Claire Gorrara, Kevin Passmore, 2010-10-12 This volume of essays explores the social political and cultural legacies of a decade which has until relatively recently received scant scholarly attention Sandwiched uncomfortably between the traumatic events of the Second World War and the dramatic changes of the 1960s the 1950s appeared as seemingly transitional years while they were in fact an astonishingly fecund period of reassessment and experimentation when traditional models were re evaluated and new models were road tested to be either developed or rejected An important intervention in the dynamic scholarly re examination of the 1950s this volume analyzes these years in relation to three broadly defined areas historiography politics and society and culture What emerges from all three parts of the volume is a vision of the 1950s as a decade which was to have a profound impact on post war European identities in two key respects as a time of accelerated European intellectual exchange and as a time of fertile receptivity to the new variously formulated and contested across and within national borders Written by experts in the field the contributions to this volume represent some of the most exciting work on the 1950s currently being undertaken in Europe and the US They combine high intellectual standards with accessibility and will appeal to academics students and the general reader alike

A History of Western Society, Volume C John P. McKay, Bennett D. Hill, John Buckler, Clare Haru Crowston, Merry E. Wiesner-Hanks, Joe Perry, 2010-10-13 Now from Bedford St Martin s A History of Western Society is one of the most successful textbooks available because it captures students interest in the everyday life of the past and ties social history to the broad sweep of politics and culture The tenth edition has been thoroughly revised to strengthen the text s readability heighten its attention to daily life and incorporate the insights of new scholarship including an enhanced treatment of European exploration and a thoroughly revised post 1945 section With a dynamic new design new special features and a completely revised and robust companion reader this major revision makes the past memorable and accessible for a new generation of students and instructors

Reading the Postwar Future Kirrily Freeman, John Munro, 2019-10-17 This original collection explores a number of significant texts produced in 1944 that define that year as a textual turning point when overlapping and diverging

visions of a new world emerged The questions posed at that moment about capitalism race empire nation and cultural modernity gave rise to debates that defined the global politics of their era and continue to delineate our own Highlighting the goals agendas and priorities that emerged for artists intellectuals and politicians in 1944 Reading the Postwar Future rethinks the intellectual history of the 20th century and the way 1944 s texts shaped the contours of the postwar world This is essential reading for any student or scholar of the intellectual political economic and cultural history of the postwar era

The Routledge History of East Central Europe since 1700 Irina Livezeanu, Arpad von Klimo, 2017-03-16 Covering territory from Russia in the east to Germany and Austria in the west The Routledge History of East Central Europe since 1700 explores the origins and evolution of modernity in this turbulent region This book applies fresh critical approaches to major historical controversies and debates expanding the study of a region that has experienced persistent and profound change and yet has long been dominated by narrowly nationalist interpretations Written by an international team of contributors that reflects the increasing globalization and pluralism of East Central European studies chapters discuss key themes such as economic development the relationship between religion and ethnicity the intersection between culture and imperial national wartime and revolutionary political agendas migration women s and gender history ideologies and political movements the legacy of communism and the ways in which various states in East Central Europe deployed and were formed by the politics of memory and commemoration This book uses new methodologies in order to fundamentally reshape perspectives on the development of East Central Europe over the past three centuries Transnational and comparative in approach this volume presents the latest research on the social cultural political and economic history of modern East Central Europe providing an analytical and comprehensive overview for all students of this region

The Problem of Democracy in Postwar Europe Pepijn Corduwener, 2016-08-25 The current perception of democratic crisis in Western Europe gives a renewed urgency to a new perspective on the way democracy was reconstructed after World War II and the principles that underpinned its postwar transformation This study accounts for the formation of the postwar democratic order in Western Europe by studying how the main political actors in France West Germany and Italy conceptualized democracy and strove over its meaning Based upon a wide range of librarian and archival sources from these countries it tracks changing conceptions of democracy among leading politicians political parties and leaders of social movements and unveils how they were deeply divided over key principles of postwar democracy such as the political party the free market economy representation and civic participation By comparing three national debates on the question what democracy meant and how it should be institutionalized and practiced this study argues that only in the 1970s conceptions of democracy converged and key political actors accepted each other as democrats with similar conceptions of democracy This study thereby deconstructs the myth of the quick emergence of one consensual Western European model of democracy after 1945 demonstrates that its formation was a long and contentious process in which national differences were often of crucial importance and contributes

to an enhanced understanding of the historical roots of the current sentiment of democratic crisis *European Integration Since the 1920s* Mark Hewitson, 2024-10-14 Brexit populism and Euroscepticism seem to have challenged old assumptions about European integration and raised the prospect of disintegration This book re examines why the European Union and its forerunners were created and investigates how and why they have changed It links contemporary events to historical explanation arguing that there were long term sets of conditions dating back to the 1920s which pushed European governments to cooperate economically and to try to resolve their diplomatic differences The failure of the French and German governments to create what Aristide Briand had called a European federal union demonstrated both the precariousness of the enterprise and its connection to the domestic politics of European states After 1945 the unexpected advent of a Cold War and the military diplomatic and economic presence of the United States in Europe facilitated the gradual development of habits of cooperation and institutional integration but they also placed limits on European governments activities as did disagreements between political parties and the expectations of citizens As a consequence supranational bodies such as the European Commission have been accompanied and often overshadowed by intergovernmental institutions such as the European Council with the EU as a whole functioning in important respects as a type of confederation The volume addresses a series of large scale historical questions which are integral to an understanding of the European Union It asks how and why citizens of member states have identified with the EU how matters of security affected the development of the European Community during and after the Cold War whether economic and social convergence have taken place and with what consequences and why European institutions have come to function as they have The study is thematic focusing on the most important aspects of European integration and explaining why member states have decided to carry out or have consented to the unique experiment of the European Union

Reparations for Nazi Victims in Postwar Europe Regula Ludi, 2012-08-27 Reparations of Nazi Victims in Postwar Europe traces reparations back to their origins in the final years of the Second World War when victims of Nazi persecution for the first time articulated demands for indemnification en masse Simultaneous appearance of claims in New York London Paris and Tel Aviv exemplified the birth of a new standard in political morality Across Europe the demand for compensation to individuals who suffered severe harm gained momentum Despite vast differences in their experiences of mass victimisation post war societies developed similar patterns in addressing victims claims Regula Ludi chronicles the history of reparations from a comparative and trans national perspective This book explores the significance of reparations as a means to provide victims with a language to express their unspeakable suffering in a politically meaningful way **A History of Western Society, Combined Volume** John P. McKay, Bennett D. Hill, John Buckler, Clare Haru Crowston, Merry E. Wiesner-Hanks, Joe Perry, 2011-01-31 Now from Bedford St Martin s A History of Western Society is one of the most successful textbooks available because it captures students interest in the everyday life of the past and ties social history to

the broad sweep of politics and culture The tenth edition has been thoroughly revised to strengthen the text s readability heighten its attention to daily life and incorporate the insights of new scholarship including an enhanced treatment of European exploration and a thoroughly revised post 1945 section With a dynamic new design new special features and a completely revised and robust companion reader this major revision makes the past memorable and accessible for a new generation of students and instructors

The Cambridge History of Communism: Volume 2, The Socialist Camp and World Power 1941–1960s Norman Naimark, Silvio Pons, Sophie Quinn-Judge, 2017-09-21 The second volume of The Cambridge History of Communism explores the rise of Communist states and movements after World War II Leading experts analyze archival sources from formerly Communist states to re examine the limits to Moscow s control of its satellites the de Stalinization of 1956 Communist reform movements the rise and fall of the Sino Soviet alliance the growth of Communism in Asia Africa and Latin America and the effects of the Sino Soviet split on world Communism Chapters explore the cultures of Communism in the United States Western Europe and China and the conflicts engendered by nationalism and the continued need for support from Moscow With the danger of a new Cold War developing between former and current Communist states and the West this account of the roots development and dissolution of the socialist bloc is essential reading

History of Communism in Europe vol. 3 / 2012 Bogdan C. Iacob, 2012-01-01

The Oxford Handbook of Modern German History Helmut Walser Smith, 2011-09-29 This is the first comprehensive multi author survey of German history that features cutting edge syntheses of major topics by an international team of leading scholars Emphasizing demographic economic and political history this Handbook places German history in a denser transnational context than any other general history of Germany It underscores the centrality of war to the unfolding of German history and shows how it dramatically affected the development of German nationalism and the structure of German politics It also reaches out to scholars and students beyond the field of history with detailed and cutting edge chapters on religious history and on literary history as well as to contemporary observers with reflections on Germany and the European Union and on multi cultural Germany Covering the period from around 1760 to the present this Handbook represents a remarkable achievement of synthesis based on current scholarship It constitutes the starting point for anyone trying to understand the complexities of German history as well as the state of scholarly reflection on Germany s dramatic often destructive integration into the community of modern nations As it brings this story to the present it also places the current post unification Federal Republic of Germany into a multifaceted historical context It will be an indispensable resource for scholars students and anyone interested in modern Germany

Revising History in Communist Europe David A.J. Reynolds, 2020-01-31 Those who define the past control the present Revising History in Communist Europe shows how the manipulation of history both empowered and weakened the communist regimes of post World War Two Europe It demonstrates how seismic events of the recent past reverberate in the understandings of the present determining perceptions and decisions With fresh analysis on the imposed communist definition of Hungary s

1956 uprising and its effects on the definition of the Prague Spring this study will give readers a timely and penetrating insight into both landmark events Europeanism John McCormick, 2010-06-03 Europeanism offers a major new examination of the political economic and social norms and values associated with Europe and Europeans **The Cambridge History of the European Union: Volume 2, European Integration Inside-Out** Mathieu Segers, Steven Van Hecke, 2023-11-09 Volume II examines the history of the European Union from an inside out perspective focusing on the internal developments that shaped the European integration process Split into three parts Part I covers the principles that have defined European integration exploring the treaties and their changes through time with Brexit being a core milestone Part II considers the different instruments within the architecture of European integration with special focus on the development of policies the euro and enlargement Part III concentrates on the various narratives surrounding European integration in particular the concepts goals and ideas that both spoke and failed to speak to the hearts and minds of Europeans This includes the *longue durée* concept peace European culture the absence of religion prosperity and a lack of solidarity and democracy *The Routledge History Handbook of Central and Eastern Europe in the Twentieth Century* Włodzimierz Borodziej, Sabina Ferhadbegović, Joachim von Puttkamer, 2020-04-21 Statehood examines the extending lines of development of nation state systems in Eastern Europe in particular considering why certain tendencies in state development found a different expression in this region compared to other parts of the continent This volume discusses the differences between the social developments political decisions and historical experience that have influenced processes of state building with a focus on the structural problems of the region and the different paths taken to overcome them The book addresses processes of building social orders and examines the contribution of state institutions to social and cultural integration and disintegration It analyses institutional and personnel continuities that have outlasted the great political changes of the twentieth century and addresses the expansion of state activity in shaping property relations in agriculture and industry as well as in social security and family politics Taking a comparative approach based on experiential history allowing individual experience to be detached from specific national references the volume delineates a transnational comparison of problems shared within the region as they have been passed down through history providing definition to the specificity of Eastern Europe and situating the historical experience of the region within a pan European context The second in a four volume set on Central and Eastern Europe in the twentieth century it is the go to resource for those interested in statehood and state building in this complex region
