When Jacob Biggle first published his book on the management of poultry there were more than 300 million chickens and 30 million other domesticated fowl in the United States Today the trend continues with thousands if not millions of chickens and other fowl being raised in suburban and urban backyards across America Biggle's aim was to help farmers and villagers conduct the poultry business with pleasure and profit To that end this handy little volume contains all the information the reader needs to know such as The various breeds of chickens turkeys guinea fowl ducks geese and pigeons The most common diseases and enemies that threaten our feathered friends Raising hens expressly for eggs rather than meat The farmer's flock versus the village hennery The art of hatching eggs and caring for chicks Written for the practical farmer who raises poultry and eggs for market The Biggle Poultry Book will also appeal to collectors of farm ephemera and anyone else who is nostalgic for a simpler way of doing things Illustrated with sixteen color plates by Louis P Graham and hundreds of black and white photographs and illustrations throughout The Biggle Poultry Book is as beautiful as it is useful and a treasure for the home library

**Home Poultry Book** Farrington Edward Irving, 1901      The Home Poultry Book (Classic Reprint) Edward Irving Farrington, 2017-12-25 Excerpt from The Home Poultry Book O doubt the experts Whose eyes chance to N fall on this book will say that it is elementary It is and purposely so It is designed first and last for the amateur who has no time or inclination to read technical and semi technical books on poultry keeping It aims to tell the man with a few hens what to do and how to do it There are certain statements with which some poultry keepers will disagree We may look for the millennium when the men who keep hens come to be of one mind as to the management of them However no pet theory has been put forward or new system advocated What has been written is based largely on personal experience and what has been learned in visits to many poultry plants large and small in different parts of the country It is sent out with the hope that some amateurs may find in it a suggestion or two which will help them to get more eggs with less expense and have more fun
