Poussin, Paintings Christopher Wright, 1984 **The Paintings of Nicolas Poussin** Anthony Blunt, 1966 **Poussin's Paintings** David Carrier, 1993 **Delphi Complete Paintings of Nicolas Poussin (Illustrated)** Nicolas Poussin, 2021-03-08

The seventeenth century painter Nicolas Poussin founded the French Classical tradition working the majority of his career in Rome. He specialised in history paintings depicting scenes from the Bible, ancient history and mythology, which are notable for their narrative clarity and dramatic force. Poussin was a man of contrasts: sensual yet austere and intellectual, prizing reason, order and dispassion above all else. His art is a reconciliation and synthesis of these traits, setting an example of what would become the standard for a long tradition of academic art continuing until the end of the nineteenth century. His influence was far reaching, winning the approval of the Neoclassical masters, the Post Impressionists and even modernists like Pablo Picasso.

Why do we keep returning to certain pictures? What is it we are looking for? How does our

understanding of an image change over time This investigates the nature of visual complexity the capacity of certain images to sustain repeated attention and how pictures respond and resist their viewers wishes Historical Dictionary of Baroque Art and Architecture Lilian H. Zirpolo, 2018-03-13 The baroque period deals with the art created roughly between the end of the 16th and the early years of the 18th centuries The masters of the era include Caravaggio Gianlorenzo Bernini Rembrandt Vermeer Diego Velazquez and Nicolas Poussin The Historical Dictionary of Baroque Art and Architecture Second Edition covers the most salient works of baroque artists the most common themes depicted historical events and key figures responsible for shaping the artistic vocabulary of the era and definitions of terms pertaining to the topic at hand This second edition of Historical Dictionary of Baroque Art and Architecture contains a chronology an introduction and an extensive bibliography The dictionary section has over 600 cross referenced entries on famous artists sculptors architects patrons and other historical figures and events This book is an excellent resource for students researchers and anyone wanting to know more about Baroque art *Ekphrastic Image-making in Early Modern Europe, 1500-1700* Arthur J. DiFuria, Walter Melion, 2021-12-20 In epideictic oratory ekphrasis is typically identified as an advanced rhetorical exercise that verbally reproduces the experience of viewing a person place or thing more specifically it often purports to replicate the experience of viewing a work of art Not only what was seen but also how it was beheld and the emotions attendant upon first viewing it are implicitly construed as recoverable indeed reproducible This volume examines how and why many early modern pictures operate in an ekphrastic mode such pictures claim to reconstitute works of art that solely survived in the textual form of an ekphrasis or they invite the beholder to respond to a picture in the way s he responds to a stirring verbal image or they call attention to their status as an image in the way that ekphrasis as a rhetorical figure makes one conscious of the process of image making or finally they foreground the artist s or the viewer s agency in the way that the rhetor or auditor is adduced as agent of the image being verbally produced Contributors Carol Elaine Barbour Ivana Bi ak Letha Ch ien James Clifton Teresa Clifton Karl Enenkel Arthur DiFuria Christopher Heuer Barbara Kaminska Annie Maloney Annie McEwen Walter Melion Lars Cyril N rgaard Dawn Odell April Oettinger Shelley Perlove Stephanie Porras Femke Speelberg Caecilie Weissert Elliott Wise and Steffen Zierholz **This is Not Just a Painting** Bernard Lahire, 2019-04-15 In 2008 the Mus e des Beaux Arts de Lyon acquired a painting called The Flight into Egypt which was attributed to the French artist Nicolas Poussin Thought to have been painted in 1657 the painting had gone missing for more than three centuries Several versions were rediscovered in the 1980s and one was passed from hand to hand from a family who had no idea of its value to gallery owners and eventually to the museum A painting that had been sold as a decorative object in 1986 for around 12 000 euros was acquired two decades later by the Mus e des Beaux Arts de Lyon for 17 million euros What does this remarkable story tell us about the nature of art and the way that it is valued How is it that what seemed to be just an ordinary canvas could be transformed into a masterpiece that a decorative object could become a national treasure This is a story permeated by social

magic the social alchemy that transforms lead into gold the ordinary into the extraordinary the profane into the sacred Focusing on this extraordinary case Bernard Lahire lays bare the beliefs and social processes that underpin the creation of a masterpiece Like a detective piecing together the clues in an unsolved mystery he carefully reconstructs the steps that led from the same material object being treated as a copy of insignificant value to being endowed with the status of a highly prized painting commanding a record breaking price He thereby shows that a painting is never just a painting and is always more than a piece of stretched canvass to which brush strokes of paint have been applied this object and the value we attach to it is also the product of a complex array of social processes with its distinctive institutions and experts that lies behind it And through the history of this painting Lahire uncovers some of the fundamental structures of our social world For the social magic that can transform a painting from a simple copy into a masterpiece is similar to the social magic that is present throughout our societies in economics and politics as much as art and religion a magic that results from the spell cast by power on those who tacitly recognize its authority By following the trail of a single work of art Lahire interrogates the foundations on which our perceptions of value and our belief in institutions rest and exposes the forms of domination which lie hidden behind our admiration of works of art

The Late Paintings of Velázquez Giles Knox, 2017-07-05 The startling conclusion of The Late Paintings of Velázquez is that Diego Velázquez painted two of his most famous works The Spinners and Las Meninas as theoretically informed manifestos of painterly brushwork As a pair Giles Knox argues the two paintings form a learned retort to the prevailing critical disdain for the painterly Knox presents a Velázquez who was much more aware of the art theory of his era than previously acknowledged leading him to reinterpret Las

Meninas and The Spinners as representing together a polemically charged celebration of the handedness of painting Knox removes Vel uez from his Iberian isolation and seeks to recover his highly self conscious attempt to carve out a place for himself within the history of European painting as a whole The Late Paintings of Vel uez presents an artist who like Annibale Carracci Poussin Rembrandt and Vermeer was not only aware of contemporary theoretical writings on art but also able to translate that knowledge and understanding into a distinctive and personal theory of painting In Las Meninas and The Spinners Vel uez propounded this theory with paint not words Knox s rethinking of the dynamic relationship between text and image presents a case not of writing influencing painting or vice versa but of the two realms being inextricably bound together Painterly brushwork presented a challenge to writers on art not just because it was connected too intimately with the base actions of the hand it was also devilishly hard to describe By reading Vel uez s painterly performance as text Knox deciphers how Vel uez was able to craft theoretical arguments more compelling and more vivid than any written counterparts

William Etty Leonard Robinson, 2007 The historical and cultural backdrop for Etty s life and works is studied throughout the book Chapters detail his studies in Italy and France his career as a painter his work with the York School of Design in the final decade of his life his place in the fine arts market and his emulators are described Provided by publisher [Painting as an Art](#) Richard Wollheim, 2023-10-17 One of the twentieth century s most influential texts on philosophical aesthetics *Painting as an Art* is acclaimed philosopher Richard Wollheim s encompassing vision of how to view art Transcending the traditional boundaries of art history Wollheim draws on his three great passions philosophy psychology and art to present an illuminating theory of the very experience of art He shows how to unlock the meaning of a painting by retrieving almost reenacting the creative activity that produced it In order to fully appreciate a work of art Wollheim argues critics must bring a much richer conception of human psychology than they have in the past This classic book points the way to discovering what is most profound and subtle about paintings by major artists such as Titian Bellini and de Kooning *The Drawings of Nicolas Poussin* Nicolas Poussin, 1939 Girolamo da Carpi s sketchbook here assembled and catalogued by Professor Canedy comprises the largest single graphic repertory extant of the antiquities known to a fifteenth or sixteenth century artist More than a thousand sketches survive in the album belonging to the Philip H and A S Rosenbach Foundation in Philadelphia and the portfolio in the Biblioteca Reale Turin A few more sheets are preserved in the Department of Prints and Drawings of the British Museum All the drawings are reproduced with some comparative material Professor Canedy deals with the problems raised by the Sketchbook in a long Introduction The corpus of Mannerist drawings after the antique and after other artists renderings of the antique stands alone in its extent and in its nature There is no other collection by an Italian artist of stature where figure compositions as distinct from architectural or ornamental designs are so abundant These drawings often supply our earliest evidence of the sixteenth century s knowledge of individual works of classical art Where there are invenzioni rather than ricardi they are not original to Girolamo da Carpi but copies of other artists compositions Even where Cirolamo s

drawings are apparently made directly from the antique there seems usually to have been an intermediate composition by another hand Most frequently the intermediary is a drawing of much wider importance for the study of the relation between antique and Mannerist art than at first appears The publication of such a corpus also offers for the first time a secure basis for judging the attribution to Girolamo da Carpi of the seemingly endless succession of Cinquecento drawings of antique sculpture and grotteschi which continue to appear in collections and on the art market

Re-Reading Leonardo Claire Farago, 2017-07-05 For nearly three centuries Leonardo da Vinci's work was known primarily through the abridged version of his Treatise on Painting first published in Paris in 1651 and soon translated into all the major European languages Here for the first time is a study that examines the historical reception of this vastly influential text This collection charts the varied interpretations of Leonardo's ideas in French Italian Spanish English German Dutch Flemish Greek and Polish speaking environments where the Trattato was an important resource for the academic instruction of artists one of the key sources drawn upon by art theorists and widely read by a diverse network of artists architects biographers natural philosophers translators astronomers publishers engineers theologians aristocrats lawyers politicians entrepreneurs and collectors The cross cultural approach employed here demonstrates that Leonardo's Treatise on Painting is an ideal case study through which to chart the institutionalization of art in Europe and beyond for 400 years The volume includes original essays by scholars studying a wide variety of national and institutional settings The coherence of the volume is established by the shared subject matter and interpretative aim to understand how Leonardo's ideas were used With its focus on the active reception of an important text overlooked in studies of the artist's solitary genius the collection takes Leonardo studies to a new level of historical inquiry Leonardo da Vinci's most significant contribution to Western art was his interpretation of painting as a science grounded in geometry and direct observation of nature One of the most important questions to emerge from this study is what enabled the same text to produce so many different styles of painting

Art Books Wolfgang M. Freitag, 2013-10-28 First published in 1997 For this second edition of Art Books A Basic Bibliography of Monographs on Artists the vast number of new books published since 1985 was surveyed and evaluated This has resulted in the selection of 3 395 additional titles These selections reflective of the increase in the monographic literature on artists during the last ten years are evidence of the activities of a larger number of art historians in more countries worldwide of the increasingly diverse and ambitious exhibition programs of museums whose number has also increased dramatically and also of a lively international art market and the attendant gallery activities The selections of the first edition have been reviewed errors have been corrected and important new editions and reprints have been noted The second edition contains 278 names of artists not represented in the first edition

Painting as a Way of Life Richard Neer, 2025-03-19 Neer uncovers a key moment in the history of early modern art when painting was understood to be a tool for self transformation and for living a philosophical life In this wide ranging study Richard Neer shows how French painters of the seventeenth century developed

radically new ways to connect art perception and ethics Cutting across traditional boundaries of classicism and realism Neer addresses four case studies Nicolas Poussin renowned for marrying ancient philosophy and narrative painting Louise Moillon who pioneered French still life in the 1630s Georges de La Tour a painter of intense and introspective nocturnes and the Brothers Le Nain specialists in genre and portraiture who inspired Courbet Manet and other painters of modern life Setting these artists in dialogue with Montaigne Descartes Pascal and others ranging from the studios of Rome to the streets of Paris this book provides fresh accounts of essential artworks some well known others neglected and new ways to approach the relation of art theory and daily life *Rhetoric and Renaissance Culture* Heinrich F. Plett, 2008-08-22 Since Jacob Burckhardt's *Kultur der Renaissance in Italien* 1869 rhetoric as a significant cultural factor of the renaissance has largely been neglected The present study seeks to remedy this deficit regarding the arts by concentrating on literary theory and its aspects of imagination inventio genre dispositio of the genera style elocutio mnemonic architecture memoria and representation actio with illustrative examples taken from Shakespeare's works but also on the intermedial rhetoric of painting and music Particular attention is given to the rhetorical ideology of the Renaissance
