Poverta E Innovazioni Istituzionali In Italia

Guido Alfani, Matteo Di Tullio

Poverta E Innovazioni Istituzionali In Italia:

Povertà e innovazioni istituzionali in Italia Vera Zamagni, 2000 *The Italian Welfare State in a European Perspective* Ugo Ascoli, Emmanuele Pavolini, 2016-06-01 There is a need to understand the Italian welfare state but as yet it has received little academic research attention *The Italian Welfare State in a European Perspective* is the first book to explore the evolution of Italy's welfare state in the decades since the Trente Glorieuses 1945-75. It offers a rare overview and analysis of the Italian situation based on an in-depth study of the main social policy fields including education, higher education and taxation policies, a detailed analysis of the connection between policies and their outputs, outcomes and a comparative perspective framing the Italian case within the European context. This is the first English language book to take a comparative look at the Italian welfare state as a whole since the 2008 economic crisis. It will be a valuable resource for academics and researchers as well as students.

The Third Sector in Europe Adalbert Evers, Jean-Louis Laville, 2004-01-01 The contributors examine the voluntary non-profit sectors in Europe. They discuss a number of issues regarding this third sector.

Health and Healthcare Policy in Italy since 1861 Francesco Taroni, 2022-01-01 Providing a historical overview of healthcare in Italy from its unification in 1861 to the present COVID-19 pandemic, this book analyses the political, social and cultural impact of Italian healthcare policy and medicine. The author examines the development of public health, hospitals and primary care and the building of healthcare systems across three political regimes in Italy: the liberal period 1861-1914, Fascism 1922-43 and the Italian Republic 1948 to the present day. By emphasising the embeddedness of health-related legislation in Italy's political and social background, this book offers a comparative account of Italian health policy and contrasts this with developments in neighbouring European countries, Canada and the United States. The book focuses on the Italian government's reaction to the social and political impact of several diseases: pellagra, cholera, malaria and tuberculosis, and explores the present-day response to the current COVID-19 pandemic. A timely and comprehensive read, this book will appeal to those teaching and researching Italian history and the history of medicine and healthcare more widely.

The Lion's Share Guido Alfani, Matteo Di Tullio, 2019-02-07 This is the most in-depth analysis of inequality and social polarization ever attempted for a preindustrial society. Using data from the archives of the Venetian Terraferma and compared with information available for elsewhere in Europe, Guido Alfani and Matteo Di Tullio demonstrate that the rise of the fiscal-military state served to increase economic inequality in the early modern period. Preindustrial fiscal systems tended to be regressive in nature and increased post-tax inequality compared to pre-tax income, in contrast to what we would assume is the case in contemporary societies. This led to greater and greater disparities in wealth which were made worse still as taxes were collected almost entirely to fund war and defence rather than social welfare. Though focused on Old Regime Europe, Alfani and Di Tullio's findings speak to contemporary debates about the roots of inequality and social stratification.

Peace and Penance in Late Medieval Italy Katherine Ludwig Jansen, 2020-03-31 Medieval Italian communes

are known for their violence feuds and vendettas yet beneath this tumult was a society preoccupied with peace Peace and Penance in Late Medieval Italy is the first book to examine how civic peacemaking in the age of Dante was forged in the crucible of penitential religious practice Focusing on Florence in the thirteenth and fourteenth centuries an era known for violence and civil discord Katherine Ludwig Jansen brilliantly illuminates how religious and political leaders used peace agreements for everything from bringing an end to neighborhood quarrels to restoring full citizenship to judicial exiles She brings to light a treasure trove of unpublished evidence from notarial archives and supports it with sermons hagiography political treatises and chronicle accounts She paints a vivid picture of life in an Italian commune a socially and politically unstable world that strove to achieve peace Jansen also assembles a wealth of visual material from the period illustrating for the first time how the kiss of peace a ritual gesture borrowed from the Catholic Mass was incorporated into the settlement of secular disputes Breaking new ground in the study of peacemaking in the Middle Ages Peace and Penance in Late Medieval Italy adds an entirely new dimension to our understanding of Italian culture in this turbulent age by showing how peace was conceived memorialized and occasionally achieved

Health Care and Poor Relief in 18th and 19th Century Southern Europe Ole Peter Grell, 2017-07-05 The poor and the sick poor have always presented a problem to the governments and churches of Europe Whose responsibility are they Are they a wilful burden on the honest working population or are they a necessary presence for the true Christian to live the true Christian life In the 18th and 19th centuries what happened to the poor and the sick poor in the north and south of Europe was different In the north there occurred first the Reformation in the 16th century which changed attitudes to the poor and then the advent of industrialisation with its far reaching effects of pauperisation of people both in town and countryside In the Catholic south where industrialisation did not appear so soon the Catholic Church introduced a programme of reform at all levels but along traditional lines This included the founding of new orders dedicated to the care of the poor and sick of new institutions within which to house and care for them At all times it was taken for granted that it was a necessary aspect of being a Christian that one should give for the care of the needy and that this was not the duty of the state or of secular institutions The secularising movement did however reach the southern countries by way both of the Enlightenment and more drastically in the form of the Napoleonic invasions But after the defeat of Napoleon the Church reasserted its right to administer and control the support of the poor and sick and this situation continued until 1900 in most areas Moreover the effects of industrialisation and the concomitant increase in population did make itself felt in the south in the course of the 19th century which put great stress on the institutions for poor relief and health care for the poor All this is still relevant today since the situations that governments and the Catholic Church found themselves confronted with and the stark choices they had to make are being replayed to some extent today Who is responsible for the poor who is to blame for their being poor How should their poverty be relieved how should the health care of the many be funded These are still live issues today While complete in itself the present volume also forms the fourth

and last of a four volume survey of health care and poor relief in Europe between 1500 and 1900 edited by Ole Peter Grell and Andrew Cunningham

L'assistenza come sistema. Dal controllo sociale agli apparati previdenziali: San Marino tra età moderna e contemporanea Augusto Ciuffetti, 2017-07-25 Nel corso dell'età moderna i meccanismi assistenziali sotto la spinta di una povertà sempre più diffusa e appariscente subiscono delle profonde trasformazioni. Da un'assistenza a carattere privato ed episodico basata sulla beneficenza gestita da corporazioni, confraternite, ospizi ed ordini religiosi si passa a forme di intervento più stabili ed organiche come risultato di un impegno pubblico e laico da parte di organi di governo cittadini o dei primi apparati statali. L'approdo di questo processo, la nascita tra XIX e XX secolo del moderno Stato sociale che implica la crescente assunzione di ogni responsabilità nei confronti di poveri e bisognosi da parte degli enti pubblici. San Marino si inserisce in questo contesto con caratteri propri: il notabilato locale saldamente al potere in grado di controllare tutte le istituzioni repubblicane che gestisce direttamente anche la beneficenza in quanto fonte di consenso e di legittimazione politica. Tra la fine dell'Ottocento e i primi decenni del XX secolo, grazie al nuovo clima politico che caratterizza la Repubblica, anche il sistema assistenziale di San Marino approda alla definitiva formulazione di un Welfare State che non si limita ad offrire semplici sussidi ma che prevede forme stabili di previdenza e di assicurazione sociale. Il titolo del volume allude a quelle attività assistenziali che nel corso del tempo assumono seppur molto lentamente una configurazione di sistema abbastanza chiara ed evidente come queste ultime non abbiano ancora in età moderna un simile carattere. Ci che si vuole raccontare proprio il percorso che da tale mancanza di organicità conduce alla piena formulazione dell'assistenza come sistema in cui che negli anni del secondo dopoguerra assume i connotati di un vero e proprio modello. L'autore Augusto Ciuffetti, ricercatore di storia economica presso il Dipartimento di scienze economiche e sociali dell'Università Politecnica delle Marche, direttore della rivista *Patrimonio industriale*, membro del comitato direttivo di *Ricerche storiche* e del consiglio scientifico di *Proposte e ricerche*, socio onorario dell'Istituto Europeo di Storia della Carta di Fabriano.

Hospitals and Healing from Antiquity to the Later Middle Ages Peregrine Horden, 2023-05-31 The first part of this collection brings together a selection of Peregrine Horden's papers on the history of hospitals and related institutions of welfare provision from their origins in Late Antiquity to their medieval flourishing in Byzantium and the Islamic lands as well as in western Europe. The hospital is seen in a variety of original contexts from demography and family history to the history of music and the liturgy. The second part turns to the history of healing and medicine outside the hospital as well as within it. These studies cover a period from Hellenistic times to the Renaissance but with a particular focus on the Mediterranean region, Byzantine, Middle Eastern and Western in the Middle Ages.

Tolerance, regulation and rescue Brian Pullan, 2016-07-08 Looking at Catholic charity and social policy in past times, this book focuses on unrespectable women and children in Italy and their treatment at the hands of charities and the law. It looks at prostitutes and women engaged in sexual relationships outside formal marriage and foundlings, many of whom were abandoned because they were born out of wedlock. A wide ranging

synoptic survey this study considers the practical complications and consequences of communities decisions to accommodate and regulate activities considered bad but irrepressible of the belief that licensed prostitution and controlled abandonment could be used to avert greater evils from sodomy and adultery to infanticide and abortion Accessibly written Tolerance regulation and rescue discusses social problems which are still the subject of debate and should appeal not only to academics and students but also to general readers **Orphans and Abandoned Children in European History** Nicoleta

Roman,2017-11-08 In a world dominated by poverty a central characteristic has been the plight of orphans and abandoned children Over the centuries State Church and individuals have all attempted to tackle the issue but can we trace any change over the course of time when it comes to the welfare system intended for these disadvantaged children and acts of philanthropy What kind of social policies did States follow and what were the main differences between countries and regions Drawing on historical evidence across several centuries and a range of European countries the contributors to this volume provide a transnational overview *Measuring Wellbeing* Giovanni Vecchi,2017-01-13 In 150 years Italy transformed itself from a poor and backward country into one where living standards are among the highest in the world In *Measuring Wellbeing* Giovanni Vecchi provides an innovative analysis of this change by drawing on family accounts that provide engaging insights into life and are the micro data that create the foundations for the macro picture of variations and fluctuations in the development of Italy Vecchi provides a nuanced account of the changes He emphasizes that the concept of wellbeing is multidimensional and must include non monetary aspects of life nutrition health and education as well as less tangible elements such as freedom or the possibility to exercise one s political rights The book deals with this polyhedral nature of wellbeing Among the insights are that Italians succeeded in combining growth with equity but that the gap between the North and South did not narrow the while longevity has increased education has not improved as much as it could have and that for close to three decades Italy s virtuous path has come to a halt the wellbeing of the Italian people is at the crossroads between progress and decline *Measuring Wellbeing* engagingly combines a unique dataset and an innovative statistical method that can be adapted to other countries **Resilience in Papal Rome, 1656-1870** Marina

Formica,Donatella Strangio,2023-09-23 This book analyses the evolution of the city of Rome in particular papal Rome from the plague of 1656 until 1870 when it became the capital of the Kingdom of Italy The authors explore papal Rome as a resilient city that had to cope with numerous crises during this period By focusing on a selection of different crises in Rome the book combines cultural political and economic history to examine key turning points in the city s history The book is split into chapters exploring themes such as diplomacy and international relations disease environmental disasters famine public debt and unravels the political economic and social consequences of these transformative events All the chapters are based on untapped original sources chiefly from the State Archive in Rome the Vatican Archives the Rome Municipal Archives the cole Fran aise Library the National Library and the Capitoline Library *Social Support Systems in Rural Italy* Giovanni

Gregorini, Luciano Maffi, Marco Rochini, 2023-05-02 This book examines the development of social support systems in the Modern age in the rural areas of the city states of Northern Italy This investigation achieves two main purposes first it allows researchers to understand the role occupied concretely by welfare and micro credit activities in the political and socio economic panorama of rural Northern Italy secondly it verifies to what extent the formation of a more or less structured support system influenced the establishment of local identity and the rooting of individuals The book brings together perspectives from different fields of research ranging from economic and political history to the study of the history of ecclesiastical institutions as well as integrating recent research on the anthropological value of welfare actions and the use of multiple historical sources It considers how the retreat of the welfare activity of the State associated with a depopulation of the rural areas of the peninsula and a steady increase of poverty into social fringes that were previously not affected by economic problems pushes us to investigate more carefully the dynamics that in the Ancien R gime gave shape to the support activities against indigence and poverty This book will be of interest to academics and students working in economic history and social history

Brazil, 1964-1985 Herbert S. Klein, Francisco Vidal Luna, 2017-01-01 Detailed study of the political economics and social changes carried out by Brazil s twenty year military regime in the context of a South American era of military rule during the Cold War Jacket flap

Picturing the Lame in Italian Art from Antiquity to the Modern Era Livio Pestilli, 2017-07-05 The presence of the orthopedically impaired body in art is so pervasive that paradoxically it has failed to attract the attention of most art historians In Picturing the Lame in Italian Art from Antiquity to the Modern Era Livio Pestilli investigates the changing meaning that images of individuals with limited mobility acquired through the centuries This study evinces that in distinct opposition to the practice of classical artists who manifested a lack of interest in the subject of lameness since it was considered a defect or a deformity and deformity a want of measure which is always unsightly their Early Christian counterparts depicted them profusely because images of the miraculous healing of the lame became the reassuring sign of universal acceptance and the promise of a more equitable existence in this life or the next In the Middle Ages instead when voluntary poverty came to be associated with the necessary condition of faithfulness to Christ the indigent lame along with others who were forced to beg for a living became the image of the alter Christus This view was to change in the Renaissance and Baroque periods when with the resurgence of classical and Pauline ideals that condemned the idle representations of the orthopedically impaired became associated with swindlers freeloaders and parasites This fascinating story came basically to an end in the Eighteenth century when with the revival of the Greek ideal of the Beautiful the lame gradually left center stage to be relegated again to the margins of the visual arts

The Politics of Minimum Income Marcello Natili, 2018-12-14 Minimum income schemes MIS have become key social protection institutions for European citizens but we know little regarding the logic and dynamics of institutional change in this policy field This book provides an analytical model that will facilitate an understanding of the scope and direction of recent reforms offering insight

into the conditions under which minimum income schemes are introduced expanded or retrenched Natili presents a comparative analysis of policy trajectories of minimum income schemes in Italy and Spain between the mid 1980s and 2015 Although these two countries had similar points of departure and faced comparable functional pressures and institutional constraints they experienced remarkably different developments in this policy field in the last two decades This comparative analysis provides empirical evidence of the impacts of different types of credit claiming dynamics resulting from the interaction of socio political demand with political supply The Politics of Minimum Income also assesses the reform processes both in countries that have introduced MIS in the age of austerity such as Portugal and in countries that have retrenched them Austria and Denmark

Early Modern Italy Christopher Black,2002-01-04 Early Modern Italy is a fascinating survey of society in Italy from the fifteenth to the eighteenth centuries the Renaissance to the Enlightenment Covering the whole of the Peninsula from the Venetian Republic to Florence through to Naples it shows how the huge economic cultural and social divides of the period still affect the stability of present day united Italy This is an essential guide to one of the most vibrant yet tempestuous periods of Italian history

The Economics of Government Vito Tanzi,2020 Public finance is an important branch of economics Over the years it has become more important more controversial and more complex This book aims to highlight to both economists and policymakers the need for simplicity in policies and to inform students of public finance and public policy about this growing problem

Engineering the Eternal City Pamela O. Long,2018-11-20 Between the catastrophic flood of the Tiber River in 1557 and the death of the engineering pope Sixtus V in 1590 the city of Rome was transformed by intense activity involving building construction and engineering projects of all kinds Using hundreds of archival documents and primary sources Engineering the Eternal City explores the processes and people involved in these infrastructure projects sewers bridge repair flood prevention aqueduct construction the building of new straight streets and even the relocation of immensely heavy ancient Egyptian obelisks that Roman emperors had carried to the city centuries before This portrait of an early modern Rome examines the many conflicts failures and successes that shaped the city as decision makers tried to control not only Rome s structures and infrastructures but also the people who lived there Taking up visual images of the city created during the same period most importantly in maps and urban representations this book shows how in a time before the development of modern professionalism and modern bureaucracies there was far more wide ranging conversation among people of various backgrounds on issues of engineering and infrastructure than there is in our own times Physicians civic leaders jurists cardinals popes and clerics engaged with painters sculptors architects printers and other practitioners as they discussed argued and completed the projects that remade Rome
