Poverty Income Distribution And Labour Markets In Ethiopia:

Poverty, Income Distribution and Labour Markets in Ethiopia Arne Bigsten, Bereket Kebede, Abebe Shimeles, 2005

Ethiopia is one of the poorest countries in the world with a per capita income of just above US 100. With such a low average income, poverty is of course widespread, so understanding the causes of poverty is of utmost importance. But until recently, very little household data has been available. This study deals with many aspects of poverty and income distribution in Ethiopia, providing a wealth of information on household income and its determinants. The book is of interest both to academics working on poverty analysis and to policy makers and donors collaborating with Ethiopia.

Social Protection, Pastoralism and Resilience in Ethiopia Zeremariam Fre, Bereket Tsegay, Araya M. Teka, Nicole Kenton, John

Livingstone, 2022-08-17. This book investigates the role of social protection amongst African pastoral and agro-pastoral communities, with a particular focus on Ethiopia. Based on rigorous empirical research, this book assesses the successes, failures, prospects, and lessons learned from Africa's largest social security intervention, Ethiopia's Productive Safety Net Programme. It goes beyond an analysis of immediate impacts, exploring factors such as highland-lowland interactions, rural-urban linkages, economic diversification, the role of youth, indigenous safety nets, and social capital. Special attention is given to gender-responsive social protection measures and to the circumstances brought about by the COVID-19 pandemic. Overall, the book demonstrates the value of indigenous knowledge systems and local institutions in contributing to the design of more effective safety net programmes and disaster responses, and in helping people to build resilience and cope with shocks. At a time when social protection is gaining prominence in contemporary development discourse, this book will be of interest to development practitioners.

Base of the Pyramid Markets in Africa Judy N. Muthuri, Marlen Gabriele Arnold, Stefan Gold, Ximena Rueda, 2020-07-27. This book focuses on the Base of the Pyramid (BOP) in Africa and examines the role of the private sector in the fight against poverty. The BOP concept, which is a market-based approach to poverty eradication, presents a great avenue for businesses to develop opportunities and new business models that enable and empower those in the BOP population in Africa to raise their socio-economic welfare and well-being. The BOP market and the business interest in the BOP in Africa is rising. This book furthers our understanding of the characteristics of BOP markets in Africa and the challenges and opportunities to address poverty and development in a sustainable manner. The book covers various themes of BOP markets and their embeddedness in social-cultural settings in Africa. The different chapters employ a variety of theoretical and methodological approaches to advance research and practice of BOP in Africa. The book chapters reflect multiple diversities that characterise sub-Saharan Africa, based on studies in 13 country contexts and from five industry sectors. This book is recommended reading for managers and policy makers as well as students and academics interested in Base of the Pyramid markets.

Clark, Claudia Senik, 2014-11-20 This volume arising from a PSE CEPREMAP DIMeco conference includes contributions by some of the best known researchers in happiness economics and development economics including Richard Easterlin who gave his name to the Easterlin paradox that GDP growth does not improve happiness over the long run Many chapters underline the difficulty of increasing well being in developing countries including China even in the presence of sustained income growth This is notably due to the importance of income comparisons to others adaptation so that we get used to higher income and the growing inequality of income In particular rank in the local income distribution is shown to be important creating a beggar thy neighbour effect in happiness Wealth comparisons in China are exacerbated by the gender imbalance as the competition for brides creates a striking phenomenon of conspicuous consumption on the housing market Policy has to be aware of these effects This applies in particular to those who try to use self reported subjective well being in order to generate a social subjective poverty line which is a key issue in developing countries However the news is not only bad from the point of view of developing countries One piece of good news is that GDP growth often seems to go hand in hand with lower happiness inequality and thereby reduces the risk of extreme unhappiness Key Indicators of the Labour Market International Labour Office, 2003 Key Indicators of the Labour Market KILM offers data for over 200 countries for the years
