Women and

Property in Urban India Bipasha Baruah, 2010-11-07 Half the world's population now lives in cities. Governments and agencies have made housing the poor a priority but few studies or initiatives focus on women's needs. Based on research conducted in Ahmedabad in collaboration with the Self Employed Women's Association (SEWA), this book maps the constraints and opportunities that low income women throughout the Global South face in securing property which remains overwhelmingly in male hands. Their vulnerabilities open a window to assess not only land tenure and property laws but also theoretical approaches to gender and development. Although the development community holds out microcredit financing as one potential solution, these women's stories reveal its glaring limitations. By highlighting the importance of property as a material and symbolic asset in women's empowerment, this book carves out new intellectual space in the study of gender and development.

Multidimensional Poverty Measurement Udaya Wagle, 2009-04-05 Conceptualization and measurement of poverty have traditionally relied on purely economic approaches with income or consumption as the only indicator. Multidimensional approaches have increasingly been used to understand poverty but have yet to be fully operationalized. This book uses factor analysis and structural equations modelling to develop a multidimensional framework that integrates capability and social inclusion as additional poverty indicators. The empirical relevance of this methodological contribution is demonstrated through its application in the United States and Nepal. The proposed approach not only helps to identify different categories of the poor but also to more accurately target resources and policies of poverty alleviation. The book will therefore be an important reference for professionals in development agencies as well as for poverty and policy researchers.

Shelter Security in Urban India Darshini Mahadevia, 2015-01-01 There is either glamorizing of informal sector or a desire to rapidly formalize it, the latter leading to exclusions and disruptions in people's life. But the residents of these informal settlements desire change but at a pace and way suitable to them. This book is a collection of articles on shelter security in urban India based on the research work undertaken at the Centre for Urban Equity (CUE), CEPT University over the last few years. The articles are on formation of informal settlements and living conditions in them, rental housing in the informal sector, learning from interventions to change living conditions in the slums and other informal settlements, and efficacy of the public housing programmes mainly under the Jawaharlal Nehru National Urban Renewal Mission.

Informal Labor, Formal Politics, and Dignified Discontent in India Rina Agarwala, 2013-04-08 Since the 1980s the world's governments have decreased state welfare and thus increased the number of unprotected informal or precarious workers. As a result, more and more workers do not receive secure wages or benefits from either employers or the state. This book offers a fresh and provocative look into the alternative social movements informal workers in India are launching. It also offers a unique analysis of the conditions under which these movements succeed or fail. Drawing from 300 interviews with informal workers, government officials, and union leaders, Rina Agarwala argues that Indian informal workers are using their power as voters to demand welfare benefits from the state rather than demanding traditional work benefits from employers.

In addition they are organizing at the neighborhood level rather than the shop floor and appealing to citizenship rather than labor rights
