Measurement of Services Sector Statistics in the People's Republic of China Bishnu D. Pant, Derek W. Blades, 2007 Poverty and Development in China Caizhen Lu, 2013-03-01 China has made huge economic strides in recent decades but poverty is still a major issue on the agenda for rural China Poverty and Development in China analyses how poverty is recognized and measured and how people in poverty are identified literally asking who is poor in China Lu Caizhen's research compares four approaches to poverty assessment China's official poverty identification method the participatory approach to poverty assessment the monetary approach and use of multidimensional poverty indicators Each of these is applied to the same population of households to identify the poor in rural Wuding County Yunnan Province The analysis shows that there is in fact very little overlap of households identified as poor by the various means and that choice of approach does matter in the outcome of who is identified as poor This has implications at the theoretical methodological and policy levels Lu discusses these in detail concluding that at present there is a need to shift away from poverty reduction

strategies that narrowly emphasize income generation activities as these are often short term efforts Instead the focus should move towards a broader combination of short term and long term strategies to break poverty's inter linked structural causes

Chinese Social Policy in a Time of Transition Douglas Besharov, Karen Baehler, 2013-05-17 The story of China's spectacular economic growth is well known Less well known is the country's equally dramatic though not always equally successful social policy transition Between the mid 1990s and mid 2000s the focal period for this book China's central government went a long way toward consolidating the social policy framework that had gradually emerged in piecemeal fashion during the initial phases of economic liberalization Major policy decisions during the focal period included adopting a single national pension plan for urban areas standardizing unemployment insurance re establishing nationwide rural health care coverage opening urban education systems to children of rural migrants introducing trilingual education policies in ethnic minority regions expanding college enrolment addressing the challenge of HIV AIDS more comprehensively and equalizing social welfare spending across provinces among others Unresolved is the direction of policy in the face of longer term industrial and demographic trends and the possibility of a chronically weak global economy *Chinese Social Policy in a Time of Transition* offers scholars practitioners students and policymakers a foundation from which to explore those issues based on a composite snapshot of Chinese social policy at its point of greatest maturation prior to the 2007 global crisis

show that reforms in the rural land rental market hukou system as well as increasing off farm labor mobility would reduce the urban rural income ratio dramatically Furthermore the combination of WTO accession factor market reforms improves both efficiency equality significantly Charts tables graphs **Securing the Global Economy** Andreas Freytag, Paolo Savona, 2016-04-01 Securing the Global Economy explores how and why the G8 and other institutions of global governance deal with increasingly comprehensive and complex economic security connections These connections are explored from an interdisciplinary perspective with economists political scientists and those in the policy world bringing their insights to bear Moreover this volume explores this economic security connection from a constitutional or institutional perspective In a classical liberal spirit it is concerned with the organizing principles of a liberal international economic order and the framework of rules that enables it to survive and flourish Security issues national trade policies the multilateral trade system and the detailed technical issues they subsume are analysed from this higher vantage point This is thus a work about global governance as a whole and at its core rather than a problem solving manual for a few of the issues now at centre stage Furthermore it applies this larger vision to the current G8 and global economic security agenda to generate a set of policy recommendations about how the global community through and outside the G8 can better cope with the complex interconnected challenges it now confronts Its innovative policy recommendations are especially timely when the recent global financial crisis economic recession and fragile recovery place great strains on the liberal economic order while new challenges from Iran ongoing terrorist threats and corruption make this security economic connection critically important
