## **Powder Keg In The Middle East:**

*Powder Keg in the Middle East* Geoffrey Kemp, Janice Stein, 1995-09-12 The Persian Gulf continues to be a region of critical importance to the United States and the industrial world Its oil and natural gas resources are if anything more important today than they were in the 1970s when the energy crisis emerged as a dominant feature of the international landscape Yet despite the allied victory in Desert Storm the Gulf remains dangerous because the underlying sources of conflict in the region remain unresolved Powder Keg in the Middle East adopts a broad mandate for considering future sources of conflict in the Gulf While military issues and the dynamics of the arms race remain very important in the context of the regional military balance and the dynamics of conflict escalation the authors argue that the underlying sources of conflict which drive the arms race are related to broad based demographic technological cultural and ideological factors and trends These embrace issues from water security to religious conflict and population dynamics Copublished with the American Association for the Advancement of Science

**The Arms Race in the Middle East** Mohammad Eslami, Alena Vysotskaya Guedes Vieira, 2023-07-28 This edited volume discusses security policy and strategic policymaking in the Middle East region Due to its unique geopolitical geoeconomic and geostrategic features the Middle East region has been confronted with challenging security issues Combined with a lack of an efficient regional security regime this has led to the formation of a full fledged arms race This book draws together contributions from international experts to address the factors that have been contributing to the ongoing formation of an arms race in the Middle East as well as the impact of this phenomenon on the regional and global security environment The book is organized in three sections The first section outlines the contemporary dynamics of the arms race in the Middle East by focusing on its most recent dynamics and their implications for regional and international security The second section conducts systematic analysis of case studies of country specific drivers of the arms race The third and final section examines the role of external actors in the arms race evaluating both the responses of regional actors to external interventions as well as the implications of the arms race for extra regional countries

**Nixon and Israel** Noam Kochavi, 2010-07-02 Using a wealth of recently declassified American and Israeli documents Nixon and Israel argues that ideational and psychological factors are an important complement to standard geopolitical explanations of American Israeli

relations during the Nixon years Noam Kochavi looks at the emotional impact on senior American leadership of specific choices made by Israel outside the Middle East in the early 1970s such as the acumen and sensitivity of Israel with regard to Nixon's fundamental concerns honorable extrication from Vietnam and winning reelection The book takes issue with the controversial argument that Israeli and American Jewish leaders joined forces to orchestrate a campaign designed to tilt American foreign policy in Israel's favor To the contrary the picture that emerges suggests that while Israel did adopt policies that altered Nixon's image of Israel these policies were adopted not in concert with American Jews but despite American Jewish disapproval
