Power And Civil Society In Pakistan:

Power and Civil Society in Pakistan Anita M. Weiss, S. Zulfiqar Gilani, 2001 Pakistani society continues to find itself in a state of upheaval because of the mad scramble for power in almost all sectors. This book presents a dialogue between eminent scholars and social activists from which emerges a fascinating outlook on the underlying issues of the renegotiation of power in Pakistan.

Civil Society and Pakistan's Economy Fayyaz Baqir, 2023-03-17 This book analyses the paradoxes of Pakistan's economy: meritocratic domestic policy and the role of the state and the civil society. It argues that the transition in the country's foreign policy from geo-politics to geo-economic depends on a fundamental domestic policy transition from kleptocracy to meritocracy. Civil Society and Pakistan's Economy discusses how the prevalence of rent-seeking practices has undermined merit-based practices by increasing the cost of doing business and converting public loss into private profit by awarding inappropriate subsidies and imposing regressive taxes. The analyses are supported by describing the instruments and mechanisms used for rent-seeking practices and the creation of public awareness of options available to change these practices through citizen's action and civil society engagement. The book also shows the path of transformation and the role of participation and argues that aspiring for and capturing power is not the only way to transform Pakistan. A novel analysis depicting macro-micro linkages of encroachment of socio-economic space by the power elites and effective strategies used for its reappropriation by the people, the book will be of interest to academics researching South Asian Studies, in particular South Asian economics and politics.

Civil Society in Bangladesh Farhat Tasnim, 2021-02-13 This book is the first of its kind to offer an understanding, analysis and prediction of the state of civil society in Bangladesh in relation to development and democracy. It is a research attempt to reveal the paradox found in developing countries like Bangladesh where there are numerous and active civil society organizations (CSOs) that have had almost no influence in consolidating democracy. This book, however, also qualifies the normative assumption on the positive relationship between civil society and democracy asserted by the mainstream neo-Tocquevillean School that has a profound influence on donor policies. Readers are introduced to civil society in Bangladesh from a broad perspective. Rather than confining the analysis to NGOs, chapters explore the origin, nature and function of both modern and conventional CSOs, which helps to provide a more authentic understanding of the genuine state of civil society in relation to other actors in the political system. Combining survey data, analyses and empirical observations with carefully chosen case studies, the book reveals that CSOs participate very actively in social services. This research also reveals that these highly active CSOs in the field of social development lack the necessary attributes for ensuring participation, proper interest articulation and monitoring of the state. Through systematic analysis, the book shows that political structures and, for Bangladesh, particularly political parties along with vertical social relationships such as clientelism, patronage, nepotism and corruption have contributed to a non-vigilant civil society in Bangladesh, although it is often spoken of in different terms. This book is highly recommended for researchers, students and development

practitioners interested in South Asia as well as in understanding the potentials and limitations of civil society in relation to development and democracy Farhat Tasnim's book is a comprehensive treatment of civil society in Bangladesh. It will serve as a useful resource for future researchers in this field for a long time to come. Harry Blair, Yale University, USA. Farhat Tasnim provides in this book a new perspective on one of the essential cases of civil society study, Bangladesh. Her penetrating analysis of the relationship of civil society organizations and democracy in Bangladesh should attract a wide readership. This is an important book not only for students of Bangladesh but for scholars and practitioners interested in the relationship of civil society organizations and democracy. Robert J. Pekkanen, University of Washington, USA.

Civil Society and Political Change in Asia Muthiah Alagappa, 2004. A systematic investigation of the connection between civil society and political change in Asia, change toward open participatory and accountable politics. Its findings suggest that the link between a vibrant civil society and democracy is indeterminate; certain civil society organizations support democracy, others could undermine it.

Civil Society in Asia Dr. Fahimul Quadir, Professor Yutaka Tsujinaka, 2015-07-28. Notwithstanding Bangladesh's recent success in both creating a market-friendly structure of economic governance and holding periodic elections, its political system continues to be marked by clientelism, rampant corruption, and widespread violence. Explaining Civil Society Development Lester M. Salamon, S. Wojciech Sokolowski, Megan A. Haddock, 2017-09-15 How historically rooted power dynamics have shaped the evolution of civil society globally The civil society sector made up of millions of nonprofit organizations associations charitable institutions and the volunteers and resources they mobilize has long been the invisible subcontinent on the landscape of contemporary society For the past twenty years however scholars

under the umbrella of the Johns Hopkins Comparative Nonprofit Sector Project have worked with statisticians to assemble the first comprehensive empirical picture of the size structure financing and role of this increasingly important part of modern life What accounts for the enormous cross national variations in the size and contours of the civil society sector around the world Drawing on the project s data Lester M Salamon S Wojciech Sokolowski Megan A Haddock and their colleagues raise serious questions about the ability of the field s currently dominant preference and sentiment theories to account for these variations in civil society development Instead using statistical and comparative historical materials the authors posit a novel social origins theory that roots the variations in civil society strength and composition in the relative power of different social groupings and institutions during the transition to modernity Drawing on the work of Barrington Moore Dietrich Rueschemeyer and others *Explaining Civil Society Development* provides insight into the nonprofit sector s ability to thrive and perform its distinctive roles Combining solid data and analytical clarity this pioneering volume offers a critically needed lens for viewing the evolution of civil society and the nonprofit sector throughout the world

Civil Society & Development Jude Howell,Jenny Pearce,2001 Setting out to explore critically the way civil society has entered development thinking policy and practice as a paradigmatic concept of the 21st century Howell development studies U of Sussex and Pearce Latin American politics U of Bradford trace the historical path leading to the encounter between the ideas of development and civil society in the late 1980s and how donors have translated these into development policy an programs They find that there are competing normative visions which have deep roots in Western European political thought about the role of civil society in relation to the state and market both among donors and within the societies where donors are operating This leads to donors playing a major role in shaping the character of service provision They also argue that their study exposes the hitherto unexplored power of the market as opposed to solely the state to distort donor programs c Book News Inc
