**Bitter Fruit** Keith Gordon Ford, 2021-06-17 No church founder or planter likely intends to start a church with the stated goal of allowing abuse or abusing those within it Yet sadly and too often even in the best of churches abuse does occur The bitter fruit of abuse does not appear from nowhere Its origins the soil in which it grows and the structures that support it need be understood if we are to eradicate this fruit from within our churches and Christian organizations Bitter Fruit Dysfunction and Abuse in the Local Church describes those psychologies social psychologies and inadequate theologies that are frequently true in churches that enable abuse regardless of the form the abuse may take It is vital that you understand these things if you are a pastor leader or lay person seeking to maintain a healthy church environment

**Treasury of Wisdom, Wit and Humor, Odd Comparisons and Proverbs** Adam Woolbever (comp.), 1881 **Two Weeks Every Summer** Tobin Miller Shearer, 2017-04-11 Two Weeks Every Summer which is based on extensive oral history interviews with former guests hosts and administrators in Fresh Air programs opens a new chapter in the history of race in the United States by showing how the actions of hundreds of thousands of rural and suburban residents who hosted children from the city perpetuated racial inequity rather than overturned it Since 1877 and to this day Fresh Air programs from Maine to Montana have brought inner city children to rural and suburban homes for two week summer vacations Tobin Miller Shearer brings to the forefront of his history of the Fresh Air program the voices of the children themselves through letters that they wrote pictures that they took and their testimonials Shearer offers a careful social and cultural history of the Fresh Air programs giving readers a good sense of the summer experiences for both hosts and the visiting children By covering the racially transformative years between 1939 and 1979 Shearer shows how the rhetoric of innocence employed by Fresh Air boosters largely served the interests of religiously minded white hosts and did little to offer more than a vacation for African American and Latino urban youth In what could have been a new arena for the civil rights movement white adults often overpowered the courageous actions of children of color By giving white suburbanites and rural residents a safe race relations project that did not require adjustments to their investment portfolios real estate holdings or political affiliations the programs perpetuated an economic order that marginalized African Americans and Latinos by suggesting that solutions to poverty lay in one on one acts of charity **Color - Class - Identity** John Arthur, Amy

Shapiro,2018-02-12 Three recent and dramatic national events have shattered the complacency of many people about progress however fitful in race relations in America The Clarence Thomas Anita Hill hearings the O J Simpson trial and the Million Man March of Louis Farrakhan have forced reconsideration of their assumptions about race and racial relations The Thomas Hill hearings exposed the complexity and volatility of perceptions about race and gender The sight of jubilant blacks and despondent whites reacting to the O J Simpson verdict shook our confidence in shared assumptions about equal protection under the law The image of hundreds of thousands of black men gathering in Washington in defense of their racial and cultural identity angered millions of whites and exposed divisions within the black community These events were unfolding at a time when there seemed to be considerable progress in fighting racial discrimination On the legal side discrimination has been eliminated in more and more arenas in theory if not always in practice Economically more and more blacks have moved into the middle class albeit while larger numbers have slipped further back into poverty Intellectually figures like Cornel West Henry Louis Gates Jr and Patricia J Williams are playing a central role as public intellectuals In the face of these disparate trends it is clear that Americans need to rethink their assumptions about race racial relations and inter racial communication Color Class Identity is the ideal tool to facilitate this process It provides a richly textured selection of readings from Du Bois Cornel West Derrick Bell and others as well as a range of responses to the particular controversies that are now dividing us Color Class Identity furthers these debates showing that the racial question is far more complex than it used to be it is no longer a simple matter of black versus white and racial mistrust A landmark anthology that will help advance understanding of the present unease not just between black and white but within each community this book will be useful in a broad range of courses on contemporary U S society The Power of Memory in Democratic Politics Philip J. Brendese,2014 Offers an examination of ancient modern and contemporary political theories and practices in order to develop a more expansive way of conceptualizing memory how political power influences the presence of the past and memory songing impact on democratic horizons Real Power Janet O. Hagberg,2024-09-19 Janet O Hagberg has written a dynamic book about power real personal power for forward looking people in organizations who want to harness their own power for the common good I wrote this book says Hagberg to transform the way we think about power and leadership It takes people on a journey beyond achievement and success to a stance in which power comes from their inner core and they lead from their souls There is no doubt that the world is ready for a renaissance in leadership In this fourth edition Janet Hagberg addresses what Real Power looked like during two of the most horrific experiences of this century the worldwide COVID 19 pandemic and George Floyd s heinous murder She outlines which behaviors depict each power stage during and after those experiences and invites readers to see themselves in honest reflections by how they reacted and what evolved in their own lives Then she tops it all off with a simple yet profound idea we can all use to make positive change for the greater good in large or in very small ways She calls it wiggling the web Fictions of Power in

Delgado, Jean Stefancic, 1997 No longer content with accepting whiteness as the norm critical scholars have turned their attention to whiteness itself In *Critical White Studies Looking Behind the Mirror* numerous thinkers including Toni Morrison Eric Foner Peggy McIntosh Andrew Hacker Ruth Frankenberg John Howard Griffin David Roediger Kathleen Heal Cleaver Noel Ignatiev Cherrie Moraga and Reginald Horsman attack such questions as How was whiteness invented and why How has the category whiteness changed over time Why did some immigrant groups such as the Irish and Jews start out as nonwhite and later became white Can some individual people be both white and nonwhite at different times and what does it mean to pass for white At what point does pride in being white cross the line into white power or white supremacy What can whites concerned over racial inequity or white privilege do about it Science and pseudoscience are presented side by side to demonstrate how our views on whiteness often reflect preconception not fact For example most scientists hold that race is not a valid scientific category genetic differences between races are insignificant compared to those within them Yet the one drop rule whereby those with any nonwhite heritage are classified as nonwhite persists even today As the bell curve controversy shows race concepts die hard especially when power and prestige lie behind them A sweeping portrait of the emerging field of whiteness studies *Critical White Studies* presents for the first time the best work from sociology law history cultural studies and literature Delgado and Stefancic expressly offer critical white studies as the next step in critical race theory In focusing on whiteness not only do they ask nonwhites to investigate more closely for what it means for others to be white but also they invite whites to examine themselves more searchingly and to look behind the mirror *The Power of*

*Love and Democracy in the Philosophies of Martin Luther King, Jr. and Cornel West* Timothy L. Lake, 2025-09-18 This book locates an ethic of love as central to the democratic philosophies of Martin Luther King Jr and Cornel West While much has been written about King s moral vision social activism and theology there has been no book length treatment of the implications of his thinking to democratic theory Additionally Cornel West is the leading African American public intellectual of our time but the range of his cultural criticism and academic scholarship obscures his intellectual and social projects This project synthesizes West s vast corpus and places him within the modern African American intellectual tradition he shares with Du Bois King Maulana Karenga the creator of Kwanza and others Deeply grounded in the African American intellectual and philosophical traditions in which King and West are rooted as well as the Western mainstream political philosophical traditions in which they were educated this book offers a penetrating interpretation and comparative analysis of their thought on the ideals of democracy and of their critiques of American democracy It also reflects on the nature and values of democracy exploring how love is inseparable from justice in a democratic society
