Power Politics In America:

The Catholic Church and Power Politics in Latin America Emelio Betances, 2007-05-17 Click here to see a video interview with Emelio Betances Click here to access the tables referenced in the book Since the 1960s the Catholic Church has acted as a mediator during social and political change in many Latin American countries especially the Dominican Republic Bolivia Guatemala Nicaragua and El Salvador Although the Catholic clergy was called in during political crises in all five countries the situation in the Dominican Republic was especially notable because the Church's role as mediator was eventually institutionalized Because the Dominican state was persistently weak the Church was able to secure the support of the Balaguer regime 1966 1978 and ensure social and political cohesion and stability Emelio Betances analyzes the particular circumstances that allowed the Church in the Dominican Republic to accommodate the political and social establishment the Church offered non partisan political mediation rebuilt its ties with the lower echelons of society and responded to the challenges of the evangelical movement The author's historical examination of church state relations in the Dominican Republic leads to important regional comparisons that broaden our understanding of the Catholic Church in the whole of Latin America

Legitimacy and Power Politics Mlada Bukovansky, 2010-01-10 This book examines the causes and consequences of a major transformation in both domestic and international politics the shift from dynastically legitimated monarchical sovereignty to popularly legitimated national sovereignty It analyzes the impact of Enlightenment discourse on politics in eighteenth century Europe and the United States showing how that discourse facilitated new authority struggles in Old Regime Europe shaped the American and French Revolutions and influenced the relationships between the revolutionary regimes and the international system The interaction between traditional and democratic ideas of legitimacy transformed the international system by the early nineteenth century when people began to take for granted the desirability of equality individual rights and restraint of power Using an interpretive historically sensitive approach to international relations the author considers the complex interplay between elite discourses about political legitimacy and strategic power struggles within and among states She shows how culture power and interests interacted to produce a crucial yet poorly understood case of international change The book not only shows the limits of liberal and realist theories of international relations but also demonstrates how aspects of these theories can be integrated with insights derived from a constructivist perspective that takes culture and legitimacy seriously The author finds that cultural contests over the terms of political legitimacy constitute one of the central mechanisms by which the character of sovereignty is transformed in the international system a conclusion as true today as it was in the eighteenth century

Power, Politics, And Pentecostals In Latin America Edward L Cleary, 2018-02-07 Today over forty million Latin Americans classify themselves as Protestant of which the overwhelming majority belong to some form of Pentecostalism The rapid dissemination of Pentecostal beliefs has produced vibrant alternatives to traditional dominant culture and changed relations within the family locality and workplace This

volume introduces broad issues in the Pentecostal movement including gender relations political power and organization and inter Pentecostal and ecumenical relations These themes are then examined more specifically in the country case studies which address the historical foundations of the Pentecostal movement patterns of and explanation for its growth and the consequences of its expanding presence including increased political influence

International Institutions and Power Politics Anders Wivel, T.V. Paul, 2019-10-01 This book moves scholarly debates beyond the old question of whether or not international institutions matter in order to examine how they matter even in a world of power politics Power politics and international institutions are often studied as two separate domains but this is in need of rethinking because today most states strategically use institutions to further their interests Anders Wivel T V Paul and the international group of contributing authors update our understanding of how institutions are viewed among the major theoretical paradigms in international relations and they seek to bridge the divides Empirical chapters examine specific institutions in practice including the United Nations International Atomic Energy Agency and the European Union The book also points the way to future research International Institutions and Power Politics provides insights for both international relations theory and practical matters of foreign affairs and it will be essential reading for all international relations scholars and advanced students

White World Order, Black Power Politics Robert Vitalis, 2015-12-09 Racism and imperialism are the twin forces that propelled the course of the United States in the world in the early twentieth century and in turn affected the way that diplomatic history and international relations were taught and understood in the American academy Evolutionary theory social Darwinism and racial anthropology had been dominant doctrines in international relations from its beginnings racist attitudes informed research priorities and were embedded in newly formed professional organizations In White World Order Black Power Politics Robert Vitalis recovers the arguments texts and institution building of an extraordinary group of professors at Howard University including Alain Locke Ralph Bunche Rayford Logan Eric Williams and Merze Tate who was the first black female professor of political science in the country Within the rigidly segregated profession the Howard School of International Relations represented the most important center of opposition to racism and the focal point for theorizing feasible alternatives to dependency and domination for Africans and African Americans through the early 1960s Vitalis pairs the contributions of white and black scholars to reconstitute forgotten historical dialogues and show the critical role played by race in the formation of international relations

The Ideological Origins of Great Power Politics, 1789-1989 Mark L. Haas, 2018-09-05 How do leaders perceive threat levels in world politics and what effects do those perceptions have on policy choices Mark L Haas focuses on how ideology shapes perception He does not delineate the content of particular ideologies but rather the degree of difference among them Degree of ideological difference is he believes the crucial factor as leaders decide which nations threaten and which bolster their state's security and their own domestic power These threat perceptions will in turn impel leaders to make particular foreign policy choices Haas examines great power relations in five

periods the 1790s in Europe the Concert of Europe 1815 1848 the 1930s in Europe Sino Soviet relations from 1949 to 1960 and the end of the Cold War In each case he finds a clear relationship between the degree of ideological differences that divided state leaders and those leaders perceptions of threat level and so of appropriate foreign policy choices These relationships held in most cases regardless of the nature of the ideologies in question the offense defense balance and changes in the international distribution of power **Power, Politics and International Events.** Udo Merkel,2013-07-24

Although the event management field has grown considerably over the last decade critical social scientific studies of the international events industry are rare This book intends to help fill this void It focuses on power social and political relations conflicts and controversies in the context of international events popular festivals and famous spectacles It draws on recent primary research and offers a diverse range of new and intriguing case studies for example the Arirang Festival in North Korea the Gay Games the Gymnaestrada horse racing events the London 2012 Olympics regional and rural festivals the World Baseball Classic World Fairs Expos and U2 concerts The main aim of this volume is to bring the critical social scientific analysis of events festivals and spectacles more into the core of the teaching of events management degree programmes The book draws extensively upon the disciplines of politics sociology cultural studies and history In the process it addresses key themes such as political economy politics of popular culture the global and the local regionalism and globalization nations and nationalism international relations and foreign policy This groundbreaking collection of essays is unique and innovative It will be an essential source for students researchers and academics with a keen interest in critical social scientific analyses of events Power, Politics and the Fragmentation of Evangelicalism Kenneth J. Collins,2012-08-02 Kenneth J Collins traces the establishment of the evangelical enterprise in American culture and its influences on the political and social values of the American landscape throughout the twentieth century as well as its fragmentation into competing ideological camps A Primer in Power Politics Stanley Michalak,2001-04-01 In clear and jargon free style A Primer in Power Politics explains the concept of power politics and provides an introduction to the principles of humanistic political realism This book answers the questions When and why do states resort to the use of force and what are the uses and limits of force in conflicts among nations What can we realistically expect from the United Nations the World Court arbitration panels and other peaceful settlement techniques What role do morality ethics and world public opinion play in the international interactions of nations Accessible and stimulating A Primer in Power Politics provides important historical context and will teach students how to think analytically about the issues of war and peace It shows what approaches to peace have failed in the past and explains why they will fail in the future Students will know what kinds of questions to ask when addressing past present and future foreign policy issues The first contemporary work in international politics that addresses power politics this text is ideal for courses in international relations United States foreign policy comparative foreign politics international conflict and national security Power, Politics, and Society Betty A Dobratz,2015-10-14 Power Politics Society An Introduction to Political

Sociology discusses how sociologists have organized the study of politics into conceptual frameworks and how each of these frameworks foster a sociological perspective on power and politics in society This includes discussing how these frameworks can be applied to understanding current issues and other real life aspects of politics The authors connect with students by engaging them in activities where they complete their own applications of theory hypothesis testing and forms of inquiry

Symbolic Power, Politics, and Intellectuals David L. Swartz, 2022-12-22 Power is the central organizing principle of all social life from culture and education to stratification and taste And there is no more prominent name in the analysis of power than that of noted sociologist Pierre Bourdieu Throughout his career Bourdieu challenged the commonly held view that symbolic power the power to dominate is solely symbolic He emphasized that symbolic power helps create and maintain social hierarchies which form the very bedrock of political life By the time of his death in 2002 Bourdieu had become a leading public intellectual and his argument about the more subtle and influential ways that cultural resources and symbolic categories prevail in power arrangements and practices had gained broad recognition In *Symbolic Power Politics and Intellectuals* David L Swartz delves deeply into Bourdieu s work to show how central but often overlooked power and politics are to an understanding of sociology Arguing that power and politics stand at the core of Bourdieu s sociology Swartz illuminates Bourdieu s political project for the social sciences as well as Bourdieu s own political activism explaining how sociology is not just science but also a crucial form of political engagement

Transparency and American Primacy in World Politics James J. Marquardt, 2011-01-01 This book explores the relationship between America s power and international security competition Transparency in international relations has conventionally been viewed as a means of overcoming power politics and promoting international cooperation This book argues that the United States has used transparency particularly military transparency as a strategy to ensure its position of predominance in the international system

Religious Appeals in Power Politics Peter S. Henne, 2023-10-15 *Religious Appeals in Power Politics* examines how states use or attempt to use confessional appeals to religious belief and conscience to advance political strategies and objectives Through case studies of the United States Saudi Arabia and Russia Peter S Henne demonstrates that religion although not as high profile or well funded a tool as economic sanctions or threats of military force remains a potent weapon in international relations Public policy analysis often minimizes the role of religion favoring military or economic matters as the important arenas of policy debate As Henne shows however at transformative moments in political history states turn to faith based appeals to integrate or fragment international coalitions Henne highlights Saudi Arabia s 1960s rivalry with Egypt the United States s post 9 11 leadership in the global war on terrorism and the Russian Federation s contemporary expansionism both to reveal the presence and power of calls for religious unity and to emphasize the uncertainty and anxiety such appeals can create *Religious Appeals in Power Politics* offers a bold corrective to those who consider religion as tangential to military or economic might

Great Power Politics and the Struggle over Austria, 1945-1955 Audrey Kurth Cronin, 2019-01-24

By virtue of its geographical and historical position postwar Austria was condemned to a prominent role in the plans of both the East and the West In this account of an unusual episode in the Cold War Audrey Kurth Cronin examines the negotiations over Austria and the Soviet Union's sudden and surprising decision to withdraw its troops and accept the country as a neutral Western state after having rejected any settlement for eight years Drawing on a wealth of recently declassified British and American documents and on interviews with key Austrian participants Cronin analyzes the events leading up to the 1955 Austrian State Treaty and in the process strengthens our understanding of current East West relations Her account of the creation of a neutral state in the heart of a divided Europe will be important reading for all who are concerned with security affairs international relations and the history of the Cold War

Great Power Politics in Greater Eurasia

Rahman Dag,Özgür Tüfekçi,2022-12-27 Great power politics is a practical reality of world politics and it happens on a daily basis regardless of which international system we witness This book seeks to emphasize the ways these great power politics emerge within greater Eurasia Most researchers consider China becoming powerful enough to counterbalance the US and possible power dynamics among the rising powers such as China India China Russia and China Japan In this sense the book categorizes the battlegrounds in their power politics with three aspects national regional international conflicts institutions alliances and projects

Encyclopedia of African-American Politics, Third Edition

Robert Smith,2021-05-01 This A to Z volume examines the role of African Americans in the political process from the early days of the American Revolution to the present Focusing on basic political ideas court cases laws concepts ideologies institutions and political processes this book covers all facets of African Americans in American government Written by a nationally renowned scholar in the field the Encyclopedia of African American Politics Third Edition will enlighten readers to the struggles and triumphs of African Americans in the American political system Entries include Abolitionist Movement African immigrants Barack Obama Black Lives Matter Black Panther Party Civil Rights Act of 1964 Emancipation Proclamation Forty Acres and a Mule Freedmen's Bureau Hurricane Katrina Institutional racism Integrationism Juneteenth Lynching Malcolm X Million Man March Raphael Warnock

North Atlantic Treaty

United States. Congress. Senate. Committee on Foreign Relations,1949 Considers ratification of NATO pact which was signed by participatory nations on April 4 1949

Who Rules America?

G. William Domhoff,1967 Providing proof and discussion of America's upper class the author details the well established ways of training and preparing new members how they control the executive and judicial branches of government and how they influence local and state governments as well as businesses foundations certain universities and certain university institutions

The American Way of Strategy

Michael Lind,2006-10-02 In *The American Way of Strategy* Lind argues that the goal of U S foreign policy has always been the preservation of the American way of life embodied in civilian government checks and balances a commercial economy and individual freedom Lind describes how successive American statesmen from George Washington Thomas Jefferson and Alexander Hamilton to Franklin Roosevelt Dwight Eisenhower and Ronald Reagan

have pursued an American way of strategy that minimizes the dangers of empire and anarchy by two means liberal internationalism and realism At its best the American way of strategy is a well thought out and practical guide designed to preserve a peaceful and demilitarized world by preventing an international system dominated by imperial and militarist states and its disruption by anarchy When American leaders have followed this path they have led our nation from success to success and when they have deviated from it the results have been disastrous Framed in an engaging historical narrative the book makes an important contribution to contemporary debates The American Way of Strategy is certain to change the way that Americans understand U S foreign policy Latin American Nations In World Politics Heraldo Munoz,Joseph S Tulchin,David G Becker,2018-02-19 This book offers an up to date analysis of the foreign policies of Latin American Nations and its international positioning in world politics evaluating the impact of changes in the global community on the hemisphere and on individual states
