

# SOCIOLOGICAL PARADIGMS

Sociological paradigms are the broad schools of thought in sociology. The three key sociological paradigms are functionalism, conflict theory, and symbolic interactionism.

## 1. FUNCTIONALISM

Argues that social stability is a prerequisite for a healthy and strong society. Social institutions contribute towards social stability. Abrupt social change imperils social order.

## 2. CONFLICT THEORY

Argues that society is built upon enduring inequality on the basis of social class, gender, race etc. Structural social change is required to create an egalitarian society.

## 3. SYMBOLIC INTERACTIONISM

Argues that we construct society through a range of symbols (e.g., words, gestures) and social interactions. People make up their roles as they interact.

**Ethnicity** Nathan Glazer, Daniel Patrick Moynihan, Corinne Saposs Schelling, 1975 *Deals with ethnicity in modern Society*

**The Oxford Handbook of Peacebuilding, Statebuilding, and Peace Formation** Oliver P. Richmond, Gözim Visoka, 2021-05-31 In addition to being a major area of research within International Relations peacebuilding and statebuilding is a major policy area within the UN and other international and regional organizations It is also a concern of international financial institutions including the World Bank and a significant factor in the foreign and security policies of many established and emerging democracies Peacebuilding and statebuilding are among the main approaches for preventing managing and mitigating global insecurities dealing with the humanitarian consequences of civil wars and expanding democracy and neoliberal economic regimes Peace formation is a relatively new concept addressing how local actors work in parallel to international and national projects and helps shape the legitimacy of peace processes and state reform The Oxford Handbook of Peacebuilding Statebuilding and Peace Formation serves as an essential guide to this vast intellectual and policy landscape It offers a systematic overview of conceptual foundations political implications and tensions at the global regional and local levels as well as key policies practices examples and discourses underlining all segments of peacebuilding and statebuilding praxis Approaching peacebuilding from disciplinary perspectives across the

social sciences the Handbook is organized around four major thematic sections Section one explores how peacebuilding statebuilding and peace formation is conceived by different disciplines and IR approaches thus offering an overview of the conceptual bedrock of major theories and approaches Section two situates these approaches among other major global issues including globalization civil society terrorism and technology to illustrate their global regional and local resonance Section three looks at key themes in the field including peace agreements democratization security reform human rights environment and culture Finally section four looks at key features of everyday and civil society peace formation processes both in theory and in practice

*International Relations and Scientific Progress* Patrick James, 2002 *International Relations and Scientific Progress* contends that a theory focusing on the structure of the international system explains a wider and more interesting range of events in world politics than other theories Such theorizing appears to be out of favor as the result of the apparent failure by structural realism the most prominent system level theory over the last two decades on any number of fronts most notably an inability to anticipate the ending of the Cold War and its aftermath This new book is put forward as the most comprehensive and innovative theoretical work on paradigms in international relations since the publication of *Theory of International Politics* which created structural realism more than two decades ago With appropriate revisions however structural realist theory can compete effectively and reclaim its primacy The first part of *International Relations and Scientific Progress* assesses the meaning of progress in the discipline of international relations a process that culminates in the creation of a new concept the scientific research enterprise The second part reviews structural realism within that context and identifies a lack of connection between theory and research that links power based indicators to international conflict crisis and war This part of the book makes the case for an elaboration of structural realism by showing that a system level theory based on structure has great unrealized explanatory potential By comparison the current overwhelmingly research oriented agenda on state dyads imposes severe limitations on understanding that are not currently appreciated Part Three sums up the work and explores new directions most notably as related to empirical testing of an elaborated version of structural realism that focuses on both continuity and change in the international system

*Conflict Resolution* Ho-Won Jeong, 2018-08-20 First published in 1999 this volume examines ways in which adversarial relationships can be transformed and reconciled in diverse settings It is intended to enhance our understanding of the nature of structural transformation as well as the processes for changing psychological relations between adversaries Conflict resolution is ingrained in the analysis of inter group dynamics as well as the process and outcome of negotiating different values and incompatible interests The Contributors to the volume include Christopher Mitchell Tarja V yrynen Ronald J Fisher Louis Kriesberg Malvern Lumsden E Franklin Dukes and Richard E Rubenstein

*A General Theory of Institutional Change* Shiping Tang, 2017-07-05 Institutional change is a central driving force behind social changes and thus a central topic in all major fields of social sciences Yet no general theory of institutional change exists Drawing from a diverse literature this book develops a general

theory of institutional change based on a social evolutionary synthesis of the conflict approach and the harmony approach The book argues that because the whole process of institutional change can be understood as a process of selecting a few ideas and turning them into institutions competition of ideas and struggle for power to make rules are often at the heart of institutional change The general theory not only integrates more specific theories and insights on institutional change that have been scattered in different fields into a coherent general theory but also provides fundamental new insights and points to new directions for future research This book makes a fundamental contribution to all major fields of social sciences sociology sociological theory political sciences institutional economics and political theory It should be of general interest to scholars and students in all major fields of social science      **Constructive Conflicts** Louis Kriesberg, Bruce W. Dayton, 2016-09-29

**Constructive Conflicts** provides a framework for analyzing social conflicts of all kinds with emphasis on how conflicts can lead to positive change The fifth edition features new material on the role of social movements and NGOs non coercive means for shaping conflict post conflict activities that result in enduring peace and more      **Constructive Conflicts** Bruce W. Dayton, Louis Kriesberg, 2022-07-22 Substantially revised for the sixth edition **Constructive Conflicts** explains how large scale political and social conflicts can be waged more constructively with more positive consequences and fewer destructive consequences for those involved Drawing on research from political science sociology social psychology neuroscience cultural studies and other disciplines Dayton and Kriesberg follow the lifecycle of social and political conflicts as they emerge escalate de escalate become settled and often emerge again in new forms The sixth edition presents numerous new examples and cases of conflict episodes that have avoided extreme coercion or violence and which have resulted in the advancement of the interests of most parties involved The book gives policymakers concerned citizens and students a powerful analytical framework supported by data for understanding and constructively intervening in conflicts of different type and scale offering a way out of the destructive cycles of conflict management which have come to characterize contemporary social and political relations Key revisions and features include Increased attention to changes in the social and political landscape including the rise of nationalism the erosion of liberal internationalism conflicts related to COVID response political polarization and the Black Lives Matter movement Thoroughly revised cases and examples throughout Key content revisions such as the growth of bottom up strategies for peace and conflict management the rise of misinformation in a post truth era and insights from neuroscience Table of contents now organized around three distinct book sections and chapter titles revised to reflect new content Numerous new figures and tables in every chapter End of chapter summaries discussion questions and activities New ancillary teaching materials including experiential exercises simulations and lecture outlines with teaching tips      **The SAGE Handbook of Public Relations** Robert L. Heath, 2010-07-29 An unparalleled guide to the theory and practice of public relations Reflecting advances in theory research and application in the discipline since the publication of the Handbook of Public Relations in 2001 this new volume is global in scope and unmatched in its

coverage of both academic research and professional best practice Key Features Presents major theories in the words of the leading advocates for each theory Covers the full range of theory research and practice in the discipline Positions public relations as a positive force to help make society more fully functional Challenges academics and practitioners to identify best practices that can inform the work of those in the profession *Methods, Models, Simulations and Approaches Towards a General Theory of Change* Gianfranco Minati, 2012 Other approaches are based on considering 1 periodic changes in structure as for processes of self organisation 2 non periodic but coherent changes in structure as for processes of emergence 3 the quantum level of description Papers in the book study the problem considering its transdisciplinary nature i.e systemic properties studied per se and not within specific disciplinary contexts The aim of these studies is to outline a transdisciplinary theory of change in systemic properties Such a theory should have simultaneous corresponding and eventually hierarchical disciplinary aspects as expected for a general theory of emergence *Understanding Conflict and Conflict Analysis* Ho-Won Jeong, 2008-04-08 effectively fills a long standing void and will no doubt be hailed as a much needed new addition to the literature This text very much exemplifies the strength of Ho Won Jeong as a theorist and one of the more prolific writers in the larger peace and conflict studies field the final three chapters on De escalation Dynamics which includes a brief section on third party intervention on Conciliation Strategies and especially the one on Ending Conflict which provides a range of outcomes beyond the usual focus on third party intervention read mediation epitomizes the value of this new text Journal of Peace Research an awesome tour d horizon of modern war violence and confrontation within and between nations Illustrating via just about every conflict in every corner of the world the author invokes an endless array of insights and interpretations ranging from the micro to the macro beautifully written in a seamless sequence of closely linked and discursive essays Professor J David Singer University of Michigan Ho Won Jeong has written an illuminating analysis of the dynamics of conflict He lays out the tools we have to analyze conflict in a literate and comprehensive way A valuable book for anyone interested in a more comprehensive understanding of conflict its sources and its deescalation and termination Janice Gross Stein Belzberg Professor of Conflict Management Director Munk Centre for International Studies University of Toronto Jeong has successfully combined behavioral and structural analysis of the dynamics of social conflict This volume covers the multiple dimensions escalation entrapment de escalation termination and resolution both of violent and non violent confrontation between adversaries as well as the utility and limitations of external intervention For students of the social sciences it should serve as an excellent introduction to the complex realities of social conflict Milton Esman John S Knight Professor of International Studies Emeritus Cornell University By examining the dynamic forces which shape and re shape major conflicts this timely book provides students with the knowledge base needed to successfully study conflict sources processes and transformations Broad in focus it addresses the multiple social political and psychological features central to understanding conflict situations and behaviour A range of both recent and historical examples including the Arab Israeli

conflict the War on Terrorism the Cold War and the civil wars in Sudan former Yugoslavia and Sri Lanka are discussed illustrating the application of concepts and theories essential to the analysis of inter group inter state and intra state conflict and conflict resolution in a wider context Understanding Conflict and Conflict Analysis is key reading for students of international relations peace and conflict studies conflict resolution international security and international law
