Power and Its Disguises John Gledhill, 2000-07-20 This book explores both the complexities of local situations and the power relations that shape the global order He shows how historically informed anthropological perspectives can contribute to debates about democratisation by incorporating a view from below and revealing forces that shape power relations behind the formal facade of state institutions Examples are drawn from Brazil Cameroon Democratic Republic of Congo Guatemala Indonesia India Mexico Peru Sierra Leone South Africa and Sri Lanka amongst others **Power & Its Disguises** John Gledhill, 1994 Anthropological perspectives on politics Power And Its Disguises - Second Edition John Gledhill, 2000-07-20 In this fully updated edition of *Power and Its Disguises* John Gledhill explores both the complexities of local situations and the power relations that shape the global order He shows how historically informed anthropological perspectives can contribute to debates about democratisation by incorporating a view from below and revealing forces that shape power relations behind the formal facade of state institutions Examples are drawn from Brazil Cameroon Democratic Republic of Congo Guatemala Indonesia India Mexico Peru Sierra Leone South Africa and Sri Lanka amongst others Power and its Disguises, 2011

Woman Between Two Worlds Judith V. Olmstead, 1997 Dynamic opinionated gritty and charismatic Chimate Chumbalo successfully navigated male dominated factional politics experimenting with different strategies to create for her people the society that she wanted for herself Topography of Politics in Rural China Xiaoyang Zhu, 2015 Contemporary Chinese rural life is placed in sharp theoretical and practical focus in this book State of the art techniques and perspectives are combined to take the reader into Xiaocun a small village on the east bank of the Dianchi Lake in Kunming City In 2003 the author published the book *Crime and Punishment The Story of Xiaocun* 1931 1997 which dealt with disputes mediation and punishment in the village following the legal anthropology tradition At that time neither the villagers nor the author foresaw the vast changes that were to appear a few years later Their main economic activity then was growing vegetables and flowers urbanisation was tsunami like in its speed and impact Land requisition for urban development was so swift that five years later in 2008 there was no farmland left Instead there were many landmark real estate and development projects Xiaocun has become the centre of an enlarged Kunming City Observers including the Xiaocun residents are unavoidably shocked at the changes to the physical landscape in the wake of its rapid urbanisation This book *Topography of Politics in Rural China The Story of Xiaocun* reports the author's revisits to the village starting in early 2007 In the past few years of research on this village the author deeply felt that the problems that make people passionate are fully exposed through issues surrounding land and housing Well written in narrative this book tells the story of Xiaocun in this new century from the perspective of topography exploring the peasantry and its relations to the state in more fundamental terms *Religion and Politics in Contemporary Japan* Anne Mette Fisker-Nielsen, 2012-06-25 Presenting a study of politics at grassroots level among young Japanese this book examines the alliance between the religious movement Soka Gakkai the Value creation Society and

Komeito the Clean Government Party which shared power with the Liberal Democratic Party from 1999 to 2009 Drawing on primary research carried out among Komeito supporters the book focuses on the lives of supporters and voters in order to better understand the processes of democracy It goes on to discuss what the political behaviour of young Komeito supporters tell us about the role of religious organizations such as Soka Gakkai in Japanese politics Unlike most other books on politics in Japan which tend to concentrate on political elites this book provides extremely valuable insights into political culture at the grassroots level

A Companion to the Anthropology of Politics David Nugent, Joan Vincent, 2008-04-15 This Companion offers an unprecedented overview of anthropology's unique contribution to the study of politics Explores the key concepts and issues of our time from AIDS globalization displacement and militarization to identity politics and beyond Each chapter reflects on concepts and issues that have shaped the anthropology of politics and concludes with thoughts on and challenges for the way ahead Anthropology's distinctive genre ethnography lies at the heart of this volume

People and Politics in France, 1848-1870 Roger Price, 2004-06-17 This 2004 book is about politicisation and political choice in the aftermath of the February Revolution of 1848 and the emergence of democracy in France The introduction of male suffrage both encouraged expectations of social transformation and aroused intense fear In these circumstances the election of Louis Napoleon Bonaparte as President of the Republic and his subsequent coup d'état were the essential features of a counter-revolutionary process which involved the creation of a system of democracy as the basis of regime legitimacy and as a prelude to greater liberalisation The state positively encouraged the act of voting But what did it mean How did people perceive politics How did communities and groups participate in political activity These and many other questions concern the relationships between local issues and personalities and the national political culture all of which impinged on communities increasingly as a result of substantial social and political change

Handbook of Political Anthropology Harald Wydra, Bjørn Thomassen, 2018-11-30 This Handbook engages the reader in the major debates approaches methodologies and explanatory frames within political anthropology Examining the shifting borders of a moving field of enquiry it illustrates disciplinary paradigm shifts the role of humans in political structures ethnographies of the political and global processes Reflecting the variety of directions that surround political anthropology today this volume will be essential reading to understanding the interactions of humans within political frames in a globalising world

Taking Sides Heidi Armbruster, Anna Lærke, 2010 Concerns with research ethics have intensified over recent years in large part as a symptom of audit cultures M Strathern but also as a serious matter of engagement with the ethical complexities in contemporary research fields This volume written by a new generation of scholars engaged with contemporary global movements for social justice and peace reflects their efforts in trying to integrate their scholarly pursuits with their understanding of social science politics and ethics and what political commitment means in practice and in fieldwork This is a book of argument and analysis written with passion clarity and intellectual sophistication which touches on issues of vital significance to social scientists

and activists in general Digital Anthropology Haidy Geismar, Hannah Knox, 2021-05-26 Digital Anthropology 2nd Edition explores how human and digital can be explored in relation to one another within issues as diverse as social media use virtual worlds hacking quantified self blockchain digital environmentalism and digital representation The book challenges the prevailing moral universal of the digital age by exploring emergent anxieties about the global spread of new technological forms the cultural qualities of digital experience critically examining the intersection of the digital to new concepts and practices across a wide range of fields from design to politics In this fully revised edition Digital Anthropology reveals how the intense scrutiny of ethnography can overturn assumptions about the impact of digital culture and reveal its profound consequences for everyday life around the world Combining case studies with theoretical discussion in an engaging style that conveys a passion for new frontiers of enquiry within anthropological study this will be essential reading for students and scholars interested in theory of anthropology media and information studies communication studies and sociology With a brand new Introduction from editors Haidy Geismar and Hannah Knox as well as an abridged version of the original Introduction by Heather Horst and Daniel Miller in conjunction with new chapters on hacking and digitizing environments amongst others and fully revised chapters throughout this will bring the field defining overview of digital anthropology fully up to date *Warriors and Scribes* James Dunkerley, 2000 Anglo America has possessed neither a uniform imperialist vocation nor the consistent capacity to impose it **Africa** Patrick Chabal, 2013-04-04 The question usually asked about Africa is why is it going wrong Is the continent still suffering from the ravages of colonialism Or is it the victim of postcolonial economic exploitation poor governance and lack of aid Whatever the answer increasingly the result is poverty and violence In Africa The Politics of Suffering and Smiling Patrick Chabal approaches this question differently by reconsidering the role of theory in African politics Chabal discusses the limitations of existing political theories of Africa and proposes a different starting point arguing that political thinking ought to be driven by the need to address the immediacy of everyday life and death How do people define who they are Where do they belong What do they believe How do they struggle to survive and improve their lives What is the impact of illness and poverty In doing so Chabal proposes a radically different way of looking at politics in Africa and illuminates the ways ordinary people suffer and smile This is a highly original addition to Zed's groundbreaking World Political Theories series **Acting Locally** Christopher Rootes, 2013-10-18 Local campaigns are the most persistent and ubiquitous forms of environmental contention National and transnational mobilisations come and go and the attention they receive from mass media ebbs and flows but local campaigns persist The persistence or re emergence of local campaigns is also a reminder that it remain possible to mobilise people around environmental issues and they have often served as sources of innovation in and re invigoration of national organisations that have allegedly been co opted by the powerful and incorporated into the established political and administrative system But local environmental campaigns have been relatively neglected in the scientific literature Drawing on examples from Britain France Greece Ireland and Italy this

book seeks to redress that neglect by examining the networks among actors and organisations that connect local mobilizations to the larger environmental movement and political systems the ways in which local disputes are framed in order to connect with national and global issues and the persistent impacts of the peculiarities of place upon environmental campaigns This book was previously published as a special issue of Environmental Politics **The Invisible Empire**

Georgie Wemyss,2016-03-03 This book offers a significant and original contribution to critical race theory Georgie Wemyss offers an anthropological account of the cultural hegemony of the West through investigations of the central and pivotal constituent of the dominant white discourse of Britishness the Invisible Empire She demonstrates how the repetitive burying of British Empire histories of violence in the retelling of Britain s past works to disguise how power operates in the present showing how other related elements have been substantially reproduced through time to accommodate the challenges of history The book combines ethnographic and discourse analysis with the study of connected histories to reveal how the dominant discourse maintains its dominance through its flexibility and its strategic alliances with subordinate groups

Politics and the Environment in Eastern Europe Eszter Krasznai Kovacs,2021-07-28 Europe remains divided between east and west with differences caused and worsened by uneven economic and political development Amid these divisions the environment has become a key battleground The condition and sustainability of environmental resources are interlinked with systems of governance and power from local to EU levels Key challenges in the eastern European region today include increasingly authoritarian forms of government that threaten the operations and very existence of civil society groups the importation of locally contested conservation and environmental programmes that were designed elsewhere and a resurgence in cultural nationalism that prescribes and normalises exclusionary nation building myths This volume draws together essays by early career academic researchers from across eastern Europe Engaging with the critical tools of political ecology its contributors provide a hitherto overlooked perspective on the current fate and reception of environmentalism in the region It asks how emergent forms of environmentalism have been received how these movements and perspectives have redefined landscapes and what the subtler effects of new regulatory regimes on communities and environment dependent livelihoods have been Arranged in three sections with case studies from Czechia Hungary Lithuania Poland Romania and Serbia this collection develops anthropological views on the processes and consequences of the politicisation of the environment It is valuable reading for human geographers social and cultural historians political ecologists social movement and government scholars political scientists and specialists on Europe and European Union politics **Nostalgia for the**
