Power Light Political Strategies For The Solar Transition:

Power & Light David Talbot, Richard Morgan, 1981 We are not running out of energy Our nation contains vast amounts of untapped energy resources which are available at a relatively low cost These resources are not concentrated in Texas or Alaska rather they are dispersed throughout the country in the communities where we live The energy sources I speak of are solar and conservation These two energy supplies are both bountiful and inexhaustible yet they are largely ignored by our policy makers Solar development and efficiency improvements can do much more than provide us with less costly energy They can help us escape from the economic suicide of continued dependence on conventional energy resources Foreword

Energy Abstracts for Policy Analysis ,1984-07 **Energizing Neoliberalism** Caleb Wellum, 2023-10-17 How the 1970s energy crisis facilitated a neoliberal shift in US political culture In *Energizing Neoliberalism* Caleb Wellum offers a provocative account of how the 1970s energy crisis helped to recreate postwar America Rather than think of the crisis as the obvious outcome of the decade's oil shocks Wellum unpacks the cultural construction of a crisis of energy across different sectors of society from presidents policy experts and environmentalists to filmmakers economists and oil futures traders He shows how the dominant meanings ascribed to the 1970s energy crisis helped to energize neoliberal visions of renewed abundance and power through free market values and approaches to energy Deeply researched in federal archives expert discourse and popular culture *Energizing Neoliberalism* demonstrates the central role that energy crisis narratives played in America's neoliberal turn Wellum traces the roots of the crisis to the consumption practices and cultural narratives spawned by the petrocultural politics of Cold War capitalism In a series of illuminating case studies including 1970s energy conservation debates popular car films and the creation of oil futures trading Wellum chronicles the consolidation of a neoliberal capitalist order in the United States through an energy politics marked by anxious futurity petro populist sentiment and financialized energy markets He shows how experiences of energy shortages and fears of future energy crises unsettled American national identity and power yet also informed Reagan era confidence in free markets and US global leadership In taking a cultural approach to the 1970s energy crisis Wellum offers a challenging meditation on the status of crisis in modern history contemporary life and critical thought and how we rely on crises to make sense of the world

Powering Civilization James Ridgeway, 1982 ***Geographies of Solar Energy Transitions*** Siddharth Sareen, Abigail Martin, 2024-09-10 Solar energy is emerging as the world's largest growing source of power In recent years its rollout and growth have produced effects far beyond electricity generation including a series of cognate challenges and conflicts in diverse geographies of energy transition *Geographies of Solar Energy Transitions* focuses on how solar energy governance both state based regulations and more market driven modes of governance is evolving to address these conflicts in diverse empirical settings Chapters and case studies by leading energy scholars explore various issues such as formulating new place specific solar energy visions and strategies financing specific deployment scales expanding or replacing electricity

infrastructure accessing land resolving conflicts surrounding competing land uses incorporating charging technologies for transport and storage adopting flexible energy production consumption relationships displacing fossil fuel energy production with renewables enabling new energy ownership models and addressing the many environmental and social injustices across the value chain of solar expansion including upstream extractivism and downstream waste Scholarship typically frames these challenges as tangential to the governance of solar energy transitions By placing them front and centre the book draws necessary attention to the many wider changes in society that are continuously developing due to the worldwide adoption of solar power Praise for Geographies of Solar Energy Transitions This excellent book vividly demonstrates that whilst a PV panel is a standard thing pretty much everything else about solar energy can be different Ask how why and for whom and geography in many dimensions really does matter to solar energy transitions Gordon Walker Lancaster University This volume offers a unique and pioneering knowledge resource underpinned by comprehensive and nuanced insights into the emergent spatial and socio economic features of the unfolding solar energy revolution A must read for researchers and practitioners interested in understanding the diverse forms of solar power governance and development across the world Stefan Bouzarovski The University of Manchester [Publishers Directory](#) ,1991 **Putin's Strategic Culture, Climate Crisis, and Power Transition** Mette Skak,2025-09-30 This book offers a new perspective on the security policy of Russia linking the Ukraine war with its climate policy and Putin s strategic culture It offers an analysis of Russian strategic culture Putin s strategic culture and operational code as well as Putinism being the mental underpinning of Kremlin practices at home and abroad The volume also addresses Russia s evolution during Putin s years in power and reflects upon Russia s global standing for example with respect to China The work stresses the dialectics between Russia s ideational geopolitics and its climate policy and energy geo economics employing a broad approach to understanding security A secondary analytical concern of the book is the implications and options of Putin s code for European security and world order The book offers a synthesis of various fields of research and draws on key works by other scholars to offer an overview of the evolving transition of the Russian state into climate denial and militarism This book will be of much interest to students of Russian security policy strategic culture and international relations **Public Power** ,1983 Vols for 1978 include an annual directory issue [Neoliberalism and Technoscience](#) Marja Ylönen,Luigi Pellizzoni,2016-04-22 This book provides a comprehensive assessment of the connection between processes of neoliberalization and the advancement and transformation of technoscience Drawing on a range of theoretical insights it explores a variety of issues including the digital revolution and the rise of immaterial culture the rationale of psychiatric reforms and biotechnology regulation discourses of social threats and human enhancement and carbon markets and green energy policies A rich exploration of the overall logic of technoscientific innovation within late capitalism and the emergence of a novel view of human agency with regard to the social and natural world this volume reveals the interdependence of technoscience and the neoliberalization of society

Arora-Jonsson,Kavya Michael,Manish Kumar Shrivastava,2023-10-04 This book turns critical feminist scrutiny on national climate policies in India and examines what transition might really mean for marginalized groups in the country A vision of just transitions is increasingly being used by activists and groups to ensure that pathways towards sustainable futures are equitable and inclusive Exploring this concept this volume provides a feminist study of what it would take to ensure just transitions in India where gender in relation to its interesting dimensions of power is at the centre of analysis With case studies on climate mitigation and adaptation from different parts of India the book brings together academics practitioners and policymakers who provide commentary on sectors including agriculture forestry and renewables Overall the book has relevance far beyond India s borders as India s attempt to deal with its diverse population makes it a key litmus test for countries seeking to transition against a backdrop of inequality both in the Global North and South This volume will be of great interest to students and scholars of climate policy gender studies sustainable development and development studies more broadly **The Routledge Handbook of the Political Economy of Science** David Tyfield,Rebecca Lave,Samuel

Randalls,Charles Thorpe,2017-04-28 The political economy of research and innovation R I is one of the central issues of the early twenty first century Science and innovation are increasingly tasked with driving and reshaping a troubled global economy while also tackling multiple overlapping global challenges such as climate change or food security global pandemics or energy security But responding to these demands is made more complicated because R I themselves are changing Today new global patterns of R I are transforming the very structures institutions and processes of science and innovation and with it their claims about desirable futures Our understanding of R I needs to change accordingly Responding to this new urgency and uncertainty this handbook presents a pioneering selection of the growing body of literature that has emerged in recent years at the intersection of science and technology studies and political economy The central task for this research has been to expose important but consequential misconceptions about the political economy of R I and to build more insightful approaches This volume therefore explores the complex interrelations between R I both in general and in specific fields and political economies across a number of key dimensions from health to environment and universities to the military The Routledge Handbook of the Political Economy of Science offers a unique collection of texts across a range of issues in this burgeoning and important field from a global selection of top scholars The handbook is essential reading for students interested in the political economy of science technology and innovation It also presents succinct and insightful summaries of the state of the art for more advanced scholars **Scientific and Technical Books and Serials in Print** ,1989
