Fundamental Approaches to Software Engineering Leen Lambers,Sebastián Uchitel,2023-04-19 This open access book constitutes the proceedings of the 26th International Conference on Fundamental Approaches to Software Engineering FASE 2023 which was held during April 22 27 2023 in Paris France as part of the European Joint Conferences on Theory and Practice of Software ETAPS 2023 The 12 regular papers presented in this volume were carefully reviewed and selected from 50 submissions The proceedings also contain 2 tool papers 2 NIER papers and 2 competition papers from the Test Comp Competition The papers deal with the foundations on which software engineering is built including topics like software engineering as an engineering discipline requirements engineering software architectures software quality model driven development software processes software evolution AI based software engineering and the specification design and implementation of particular classes of systems such as self adaptive collaborative AI embedded distributed mobile pervasive cyber physical or service oriented applications Science & Emotions after 1945 Frank Biess,Daniel M. Gross,2014-05-22

Through the first half of the twentieth century emotions were a legitimate object of scientific study across a variety of disciplines After 1945 however in the wake of Nazi irrationalism emotions became increasingly marginalized and postwar rationalism took central stage Emotion remained on the scene of scientific and popular study but largely at the fringes as a behavioral reflex or as a concern of the private sphere So why by the 1960s had the study of emotions returned to the forefront of academic investigation In *Science and Emotions after 1945* Frank Biess and Daniel M Gross chronicle the curious resurgence of emotion studies and show that it was fueled by two very different sources social movements of the 1960s and brain science A central claim of the book is that the relatively recent neuroscientific study of emotion did not initiate but instead consolidated the emotional turn by clearing the ground for multidisciplinary work on the emotions *Science and Emotions after 1945* tells the story of this shift by looking closely at scientific disciplines in which the study of emotions has featured prominently including medicine psychiatry neuroscience and the social sciences viewed in each case from a humanities perspective *Equality or Equity* Jeffrey M. R. Duncan-Andrade,2022-08-11 Equality or Equity sets forth a compelling argument urging us to shift our understanding of the role of our education system from providing equal opportunity to building an equitable society A leading scholar practitioner and ardent proponent of culturally responsive forms of education Jeffrey M R Duncan Andrade aims to settle the debates over whether we should work toward a public

education system built on the goal of equality in which identical resources are provided for all students or equity in which different resources are offered in response to differences in student interests and needs Duncan Andrade centers his argument on the importance of creating meaningful education experiences for all students particularly for low income students of color and immigrant students who have gained relatively fewer benefits from decades of equality focused education reform Drawing on research from across a range of disciplines including neuroscience social epidemiology public health and social work Duncan Andrade introduces three essential domains of a pedagogy that are both culturally and community responsive relationships relevance and responsibility He enlists the voices of practitioners to provide grounded examples of what community responsive pedagogy looks like in each of these domains These examples demonstrate how equitable classroom practices can enrich student engagement enhance trauma responsiveness and improve educational outcomes Equality or Equity makes an urgent appeal for designing and implementing a truly equitable school system and shows us how we can begin to accomplish that goal
