Spend 'Til the End Laurence J. Kotlikoff, Scott Burns, 2008-06-10 *Rich or poor, young or old*, high school or college grad, this book written by economist Laurence J. Kotlikoff and syndicated financial columnist Scott Burns can change your life for the better. If you follow the advice in this book, it will raise your living standard possibly by a lot, improve your lifestyle, and help you spend 'til the end. And it will completely transform your financial thinking, turning every bit of conventional financial wisdom on its head. If this sounds like a revolution in financial planning, you got it. So do *The New York Times*, *The Washington Post*, *The Wall Street Journal*, *USA Today*, *Time*, *Consumer Reports*, and other top publications that have been featuring the authors' economics-based consumption smoothing approach to financial planning. *Spend 'Til the End* substitutes economic wisdom for the rules of dumb that currently pass for financial advice. In the process, it indicts the investment and financial planning industry for giving most people saving and insurance targets that are much too high and then convincing them to invest in risky mutual funds and expensive insurance policies. The result is that most people are scrimping and saving during the years when they could be spending and enjoying their money, and with no sure payoff. Easy to read, this book is packed with practical and often shocking advice on whether to work, how to pick a career, which job to take, where to live, what sort of house to buy, how much to save, when to retire, which kind of retirement account to use, whether to have kids, whether to divorce, when to take Social Security, how fast to spend down your assets in retirement, and how to invest.

40 Ways to Raise your Wealth Andy Rod, 2016-02-02 This book is intended to show 40 ways to improve your assets, including a personal finance organizing section, how to make an investment strategy, an effective savings plan, the processes that let you run a business, and many more items.

Lichtman Ph. D., 2011-04 Countering the Tiger Mother parenting style, this research-based practical guide provides an excellent framework for raising competent and compassionate children. In an era of helicopter parents, moms and dads who constantly hover over their children to monitor and manage their lives, and our culture's focus on personal gain and corporate greed, there is great need for a parenting guide that outlines how to raise children who are well-adjusted. *A Practical Guide for Raising a Self-Directed and Caring Child* fills that void. In response to Amy Chua's recent bestseller *Battle Hymn of the Tiger Mother*, psychologist Louis J. Lichtman PhD presents a compelling case for the notion that children will be more successful if they are self-directed rather than parent-controlled. Through anecdotes and research studies, Lichtman illustrates how to build a child's self-esteem and delves into how parenting styles and disciplinary practices influence a child's behavior and character. Lichtman also gives special attention to the topics of achievement parenting during the adolescent years and how family structure impacts children. In addition, Lichtman discusses how to avoid common parenting mistakes, issues to consider before deciding to become a parent, and how to give children the best possible start in life. Designed to help parents develop a set of guiding parenting principles, this guide is applicable to all situations and to children of all ages. *A Practical Guide for Raising a Self-Directed and Caring Child* offers a solid, comprehensive resource for today's parents. **Raise Your Frequency Through Number Messages: Awaken to the Meaning of Number Sequences and Synchronicities from Animals, Nature, and the Universe** Melissa Alvarez, 2023-04-19 *The Ultimate Encyclopedia of Number Messages* Messages for the Numbers 0 to 1111 from 3336 Messengers Search by Number or Messenger Everything in the Universe is connected to the Divine through energy.
