

RAISING THE ALLOSAUR

Q: What happens when a group of home school boys and girls travel to the badlands of Colorado with their parents in search of adventure and the hope of finding ancient treasures buried in rock?

A: They make the biggest dinosaur discovery of the year. There, buried in rock, they excavate three amazing creatures, including a many-plated *Stegosaur* and a 120-foot *Brachiosaur*. Most importantly, they raise from the ground what appears to be the most complete *Allosaur* (similar to a *T. rex*) ever found in the history of paleontology, including the monster's giant skull complete with rows and rows of once-razor sharp teeth. But there is more: The excavators find remarkable proof for a "recent" death of the dinosaur. Buried in and around this fully articulated dinosaur is the same unfossilized organic material which was present at the time of the catastrophic event which covered the animal. This incredible discovery points to the fact that the creature is not millions, but thousands of years old!

Raising The Allosaur:

Thunder of Time James F. David, 2006-04-04 Ten years ago the prehistoric past collided with the present as time itself underwent a tremendous disruption transporting huge swaths of the Cretaceous Period into the world of the twentieth century Entire neighborhoods and cities were replaced by dense primeval jungles and modern humanity suddenly found itself sharing the earth with fierce dinosaurs In the end desperate measures were taken to halt the disruptions and the crisis appeared to be over Until now Slowly at first but with increasing frequency time begins to unravel once more What's worse Nick Paulson Director of the newly formed Office of Security Science discovers that the time displacements are being manipulated by unknown parties utilizing a mysterious new technology Indeed the very integrity of the space time continuum appears to be at risk To preserve both the future and the past Nick and his allies must uncover the secrets hidden within in a lost temple at the center of a dino infested jungle and in an enigmatic structure on the surface of the moon But they are not alone in their quest A cult of ruthless fanatics is also intent on controlling the time waves and they will stop at nothing to reshape history to their own design At the Publisher's request this title is being sold without Digital Rights Management Software DRM applied

The Magnificent Bastards Wayne Kyle Spitzer, 2018-11-29 There was a single sharp tap of the drums followed by a rapid succession of beats as the crushed velvet curtains spread and the audience gasped for Tran had taken her position in the box and was even now being secured as Williams struck a gunfighter pose and his hand hovered next to his weapon Ladies and gentlemen I think it goes without saying said the announcer over the speaker system Do not try this at home Williams relaxed his entire body even as his mind cycled through the calculations altitude the breeze humidity temperature the curvature of the earth the spinning of the earth It was like music a largely mathematical proposition a cold equation he'd had a gift for ever since he could remember ever since he was a boy with a Daisy BB gun in the backyard of their southern California home He focused on the knife blade as the balloons to each side of it warbled in the breeze It was a funny thing sharpshooting so utterly unlike music in that each time he did it he felt like he was doing it for the first time felt like he was

starting over from scratch With music his fingers just automatically found the frets just instantly knew where to begin and where to end he never felt as though he were lost in a vortex of potentialities never doubted his ability to perform But sharpshooting was a different beast altogether With sharpshooting he had to call on something outside of himself as well as from within something which was not his to control Something which either kissed him with its ghostly lips or turned away with perfect indifference like love itself he supposed Or God And then the drum taps stopped and he was alone with the breeze and it was time to make the intuitive leap which would set the bullet in motion And as he breathed out and drew his revolver and squeezed its trigger softer than he would a daisy he knew even before the crack and the ka chink and the pop of the balloons that the projectile had found its target That it had found the slim blade and split like an atom becoming two loaves rather than one two soft but lethal slugs which had spread like shrapnel in the Fresno heat and ruptured the red balloons releasing their air in a vacuum like rush and causing the audience to gasp and to cheer And then his wife was there having loosed her mock bonds and scrambled out of the tall wooden box with its crushed velvet curtains and bulletproof glass and she d bowed to the audience before embracing him like the wind and he had kissed her as he always did after completing their final act when air raid sirens sounded and he looked at the sky which had darkened with a storm front as fast moving as it was inexplicable

The Complete Ank and Williams Wayne Kyle Spitzer,2018-10-10 Those I can hear said Luna and began retreating up the stairs again They only talk when they re about to attack Williams meanwhile had focused on Ank Jesus it called me by name Ank stared at him from beneath his brow Williams nodded slowly But how in God s name The only one who knew our names was Unless Williams misted up as he thought of the saloon girl who had shown him such affection I won t shoot them then I said I won t shoot them he snapped and turned toward Luna who was cowering at the top of the stairs We ll have to find another way To Luna he said It s all right sweetie Everything s going to be all right Meh Williams sighed angrily and moved toward the building s front windows which Ank had blocked with pinball machines and video games with only partial success Ank lumbered after him the tiled floor cracking beneath his elephantine feet Go away Williams hissed He peeked around one of the machines and saw the raptors lined up in the gathering dark waiting to make

their move waiting to rush the snack bar and overwhelm them waiting to kill them or worse to turn them into creatures like themselves Are you talking to me whined the girl her voice seeming to bleed as if cut by invisible knives Why would you want me to go away all of a sudden No that s not what I meant I Williams held up his rifle pressed his forehead against it Come out Williams Yes my love come out A new voice Her voice Katrina Williams squeezed his eyes shut And then they were coming he could hear their growls and the tapping of their awful sickle claws against the cracked and broken pavement and Ank was charging past him breaking through the windows and walls roaring defiantly and when Williams looked up he saw the dinosaurs collide like thunderheads heard Luna scream her piercing drill bit scream and knew they d never make it to Barley to say nothing of Tanelorn

The Dinosaur Films of Ray Harryhausen Roy P. Webber,2004 Ray Harryhausens animated creatures sparkled with predatory alertness and subtle quirks of behavior that stamped each with a distinct and memorable personality His use of stop motion animation a method of animating movable models and puppets brought dinosaurs and monsters to life on the silver screen Many animators and special effects wizards like Phil Tippett of Jurassic Park and Jim Aupperle of Planet of Dinosaurs who are still working on prehistoric based films openly credit Ray Harryhausen as having influenced their careers His films are famous for being among the very best of the genre The first chapter of this book chronicles Harryhausens formative years and work on numerous 16mm experiments beginning with his viewing of King Kong in 1933 The next four chapters cover his four feature length dinosaur films The

Beast from 20 000 Fathoms The Animal World One Million Years B C and The Valley of Gwangi These chapters provide extensive information about all aspects of the staging of their stop motion content and many additional facets of the overall production process The paleontological accuracy of his saurians from a modern perspective is also examined A chapter on his work and experiences in the 1970s and beyond discusses potential dinosaur projects as well as The Golden Voyage of Sinbad which is not a saurian film but does include the bat winged homunculus An appendix covers a number of dinosaur related films that Harryhausen had a hand in

The Complete Flashback Saga Wayne Kyle Spitzer,2018-10-10 They streamed out from the tree line in a veritable blitzkrieg the guns of the tanks rotating and firing the foot soldiers alternately taking cover behind vehicles and squeezing off bursts the raptors and triceratops and stegosaurus charging as Red and Charlotte and Roger and Savanna continued shooting and the children ran ammo and Bella lit the gasoline trenches as Gojira and the clerk prepared shoulder mounted rocket launchers As hundreds of others joined the battle belatedly and began to kill and to be killed And then they were there they were at the gates and the triceratops and stegosaurus had waded into the burning trenches and begun serving as bridges sacrificing themselves so that the raptors and the foot soldiers could cross even as a column of bulldozers fanned out along the perimeter and prepared to break the lines for good dropping their blades which rattled and clinked against the hail of gunfire revving their engines spewing black smoke Bayonets cried Red as the raptors fell upon them thrusting his own so that it skewered one of the dinosaurs like a shish kabob even before he used its own weight and momentum to swing it over and behind himself

Paladins | A Post-apocalyptic Western Wayne Kyle Spitzer,2018-11-17 You talk to yourself a lot don t you said Luna Williams looked at her and finally smiled in spite of himself Or it just may be that he s really talking to me and you just can t hear it He tweaked her nose Yet Either way you need to eat something and get some sleep We all do We ve got a big day ahead of us tomorrow Why a big day Ank camping gear he said and the dinosaur folded his front legs with a groan Because we re going to head out for Barley s in the morning He loosed his bedroll from the supplies strapped to Ank s back and tossed it to her The place where the sounds on your radio come from We ve we re searching for something A place we call Tanelorn And we think that might be it Tanelorn she repeated What s that Williams rested his arms on the bundles of supplies thinking about it I don t know exactly I reckon it s just a place someone feels drawn to even if they don t know why A place where the homeless can find a home maybe He looked at the lights in the sky the Alien Borealis as Ank called it and wondered But it may be that it s something else a kind of Omega Point A place where all the colors of the spectrum meet like a prism And become focused into a single burning light Maybe that s what people mean when they talk about the power and the glory He tugged on a rope releasing a waterfall of pots and pans Meh It s just something to keep us going Like a magnifying glass she said ignoring his last statement He paused thinking about it Like a magnifying glass he agreed Then he added Now what ll it be Beans or beans

Apocalypse Trilogy, Book Three Wayne Kyle Spitzer,2022-09-24 First came the time storm which erased half the population Then came the dinosaur apocalypse How did it all begin That depends on where you were and who you ask In some places it started with the weather which quickly became unstable and began behaving in impossible ways In still others it started with the lights in the sky which shifted and pulsed and could not be explained Elsewhere it started with the disappearances one here a few there but increasing in occurrence until fully three quarters of the population had vanished Either way there is one thing on which everyone agrees it didn t take long for the prehistoric flora and fauna to start showing up often appearing right where someone was standing in which case the two were fused spliced amalgamated It didn t take long for the great Time displacement called the Flashback which was brief but had aftershocks like an earthquake to change the face of the earth Nor for the stories some long and others short some from before the maelstrom and resulting societal collapse and others after to be recorded Welcome to the world of the Flashback a world in which man s cities have become overgrown jungles and extinct animals wander the ruins You can survive here if you re lucky and if you re not in the wrong place at the wrong time which is everywhere all the time But what you ll never do is remain the same for this is a world whose very purpose is to challenge you for better or for worse It is a world where frightened commuters will do battle with murderous bikers even as primordial monsters close in and others will take refuge in an underground theme park only to find their worst enemy is themselves Where ordinary people ne er do wells on a cross country motorcycle trip a woman on a redeye flight to Hell a sensitive boy stricken with visions of what s to come will find themselves in extraordinary situations and a gunslinger and his telekinetic ankylosaurus will embark on a dangerous quest A world where travelers will be trapped with an unravelling President of the United States and a band of survivors will face roving packs of monsters and men in post apocalyptic Seattle where rioting teenagers will face deadly predators as well as their own demons while ransacking the nation s capital where a Native American warrior will seek to bury his past and offer an elegy for all the Earth in what

remains of Las Vegas In short it is a world where anything can and will happen So take a deep dive into these loosely connected tales of the Dinosaur Apocalypse each of which can be read individually or as a part of the greater saga tales of wonder and terror death and survival blood and beauty Do it today before the apocalypse comes **Terrible Lizards** Wayne Kyle Spitzer,2022-07-29 Dark nuanced and sometimes twisted dinosaur stories for adults From Terrible Lizards Don t thing I haven t noticed it she said slurring slightly and added I see the way you look at me I uncorked the bottle and filled my glass You re a very beautiful woman I said and sat the bottle between us too hard I think And a talented one What would you expect I watched as she shimmied and did a little pirouette And I m enjoying the conversation more than you could know You move beautifully by the way Like a cat And then she attempted to spin again but only stumbled suddenly and fell smack into my arms at which we just looked at each other she with her boozy breezy smile and me with an apparent moral dilemma i e should I make a pass at her like I wanted to or should I just put her into bed and tuck her away safe as though she were a simpleton perhaps or even a child like say John Boy Walton might A dilemma I answered by taking her head in my hands and kissing her heatedly hot bloodedly restlessly what a friend of mine used to call a come fuck me kiss because she was no child And I was no John Boy And then we went to her room and lay together drunkenly sloppily unspectacularly and after a while I dreamed of lightning permeating everything and rain pounding the roof like nails like hail of wives and friends and girlfriends and my father most of whom I hadn t seen in years of small predatory dinosaurs deinonychuses with dark skin and wet backs who held vigil around our bed like cultists like priests and who trilled softly faintly as though they were meditating As though they were communing **Coms 440** University of Kansas,University of Kansas Staff,Diana Carlin,Sarah Partlow,1999-08
