

Raising The Young Blind Child

Bonnie Dobson-Burk, Bonnie Dodson-Burk, Everett Hill

Raising The Young Blind Child:

Raising the Young Blind Child Shulamith Kastein, Isabelle Spaulding, Battia Scharf, 1980-01-01 Outlines the developmental stages of blind children and advises parents on how they can provide the special care that is needed

Parenting Preschoolers Kay Alicyn Ferrell, 1984 Provides answers to the most frequent questions of parents who have just learned their child has vision problems Topics include what to expect if a child is blind or visually handicapped and how to choose an early childhood program

Assessment of Young Developmentally Disabled Children Theodore D. Wachs, Robert Sheehan, 2013-06-29 Our knowledge of the cognitive and social emotional functioning of developmentally disabled infants and preschoolers derives in large part from our assessment of such children This book has been developed to familiarize readers with the characteristics of developmentally disabled children and to introduce to readers aspects of measurement that are of relevance to the assessment of atypical infants and preschoolers The book has been developed with clinicians and prospective clinicians in mind These are individuals who are committed to the care and education of developmentally disabled infants and preschoolers and the families of those children The book has thus been written to provide support for the use of assessment data in planning early intervention programs Of special note in the development of this edited book is that it is divided into four major parts with interrelated chapters in each part The authors of chapters in Parts II and III had access to the chapters in Part I before writing their chapters The summary chapters found in Part IV were similarly written by authors having access to all chapters in Parts I-III This approach to the development of an edited book was chosen as a way of ensuring an integration of major concepts throughout the book This process is also a reflection of our belief that assessment is an interdisciplinary process involving the synthesis of a number of diverse interests

An Orientation and Mobility Primer for Families and Young Children Bonnie Dobson-Burk, Bonnie Dodson-Burk, Everett Hill, 1989 This book describes the skills children with visual impairments need to get around safely and efficiently and helps parents start their youngsters on the way to being independent Chapters cover sensory training concept development motor development and orientation skills and offers suggestions on how to encourage a child to move to identify the sources of sounds to keep track of objects and to play successfully with others

Everything Depends on How We Raise Them: Educating Young Children by the Suzuki Method Shigeki Tanaka, Kyoko Selden, In this new edition to the About Suzuki series Shigeki Tanaka shares his experiences with using the Suzuki Method to teach young children He founded a kindergarten that has seen more than 1 000 graduates using this system His belief is that every baby has the potential to develop higher ability which is fostered by the baby's environment Therefore parents and teachers must be conscious of a child's environment from an early age He concludes that what is at the core of human ability is heart not knowledge This book is a great addition to the study of early childhood education

Teaching Visually Impaired Children Virginia E. Bishop, 2004 A glossary of terms completes the book

Curriculum Guide for Deaf-Blind and Severely Multi-Handicapped

Students School District of Philadelphia 1984,1985 Provides informal assessment extensive developmental activities and supplemental resources in four areas Designed for children whose handicapping conditions are so multiple and severe they cannot usually benefit from existing approaches that assume the presence of one or more alternate learning channels Curriculum Guide for Deaf Blind and Severely Multi Handicapped Students meets the need of those individuals with multiple sensory mental orthopedic neurological and behavior handicapping conditions The four components of the complete program cover Communication Skills 23 levels of Communication Development from the Unresponsive Child through the Beginning of Pivot Open Syntax Techniques of Daily Living Personal Hygiene Eating and Drinking Orientation and Mobility Perceptual Development Gross and Fine Motor Development Body Image Development Cognitive Development Interaction with Adults Peers and Environment Assessment and Travel Skills Sensory Stimulation Tactile Stimulation Gustatory Stimulation Olfactory Stimulation Verbal Stimulation and Auditory Stimulation

Early Focus Rona L. Pogrund, Diane L. Fazzi, American Foundation for the Blind, 2002 Book provides clear descriptions of early intervention techniques with blind and visually impaired children and stresses the benefits of family involvement and transdisciplinary teamwork Practical applications and strategies relating to cognitive and language development orientation and mobility social skills early intervention and program development are presented to integrate current practices in one convenient source Valuable information on working with families of various ethnic minority groups is detailed as are useful descriptions of how teams can work most effectively Includes extensive resource and readings sections

A Guide to Curriculum Planning for Visually Impaired Students Kenneth L. Tapp, James G. Wilhelm, Lori J. Loveless, 1991

How to Thrive, Not Just Survive Rose-Marie Swallow, Kathleen Mary Huebner, 1987 A practical hands on guide for parents teachers and everyone involved in helping children develop the skills necessary for socialization orientation and mobility and leisure and recreational activities Among the subjects covered are eating toileting dressing motor development personal hygiene and grooming clothing selection self esteem socially appropriate behavior etiquette management of household tasks communication low vision devices and using landmarks and clues

Children with Special Needs, 1987

Preschool Vision Stimulation Lois Harrell, Nancy Akeson, 1987

American Rehabilitation, 1980

Rehabilitation for Independent Living Lois Schwab, 1982

The Psychology of Touch Morton A. Heller, 2013-11-12 Designed to make research on touch understandable to those not specifically involved in tactile research this book provides broad coverage of the field It includes material on sensory physiology and psychophysics thermal sensibility pain pattern participation sensory aids and tactile perception in blind people While the volume is important for researchers in the area of touch it should also prove valuable to a broad audience of experimental and educational psychologists and health professionals The book should also be of interest to scientists in perception cognition and cognitive science and can be used as a supplementary reader for courses in sensation and perception

Perkins Activity and Resource Guide - Chapter 4: Functional Academics Mary Jane Clark, 2013-09-26

This chapter is designed to address the needs of individuals with visual and multiple disabilities who may not be able to follow all parts of a traditional academic curriculum. As educators, our primary goal should be to provide students with skills that will be of use throughout their lives. Skill acquisition often takes longer for students with multiple disabilities and they are not always able to generalize them into other settings. For this reason, it is important to identify skills that will help prepare students to lead the most independent lives possible and to provide many opportunities to practice them. *The Inner Life of Children with Special Needs* Ved Prakash Varma, 2008-04-30. Most children have interesting interior lives that contain dreams, fantasies, hopes, fears, beliefs, and their unconscious lives. This can be inferred from their preoccupations, stories, plays, games, conversations, and behaviour. Because many children with special needs are emotionally confused, anxious, and angry, their inner lives often contain secrets that may be permanent and damaging. These children nevertheless put out clear signals that they want to be understood. **Working with the Individual Child**, 1974 **Developmental**

Psychology Margaret Harris, George Butterworth, 2012-12-06. *Developmental Psychology: A Student's Handbook* is a major textbook that provides an up-to-date account of theory and research in the rapidly changing field of child development. Margaret Harris and George Butterworth have produced an outstanding volume that includes recent research from Britain, Europe, and the USA. The text is designed for undergraduate students who have little or no prior knowledge of developmental psychology. Key features include: Specially designed textbook features such as key term definitions, chapter summaries, and annotated further reading sections. Over 95 figures and tables to illustrate principles described in the text. Additional boxed material to add further insight and aid understanding. Clear, user-friendly layout to make topics easy to locate. The book places developmental psychology in its historical context, tracing the emergence of the field as an independent discipline at the end of the 19th century and following the radical changes that have occurred in our understanding of children's development since then. The development of the child is covered in sequence through conception, pre-natal development, birth, infancy, and the pre-school years to the achievements of the school years and the changes that occur during adolescence. Each period is addressed in terms of cognitive, social, and linguistic development, including discussion of reading, spelling, and mathematical development. There is also consideration of comparative research concerning the development of cognitive abilities in other primates. *Developmental Psychology: A Student's Handbook* is essential reading for all undergraduate students of developmental psychology. It will also be of interest to those in education and healthcare studying child development.

Responding to Individual Needs in Head Start: Working with the individual child Judge Baker Guidance Center, 1974

Ignite the flame of optimism with Crafted by is motivational masterpiece, **Raising The Young Blind Child** . In a downloadable PDF format (Download in PDF: *), this ebook is a beacon of encouragement. Download now and let the words propel you towards a brighter, more motivated tomorrow.
