**Out of Darkness** Ralph Nader, 2024-06-25 A collection of columns and essays that reveal Ralph Nader at his outspoken and prescient best fighting the good fight against corporate corruption unbalanced political power consumer dangers big pharma and climate deniers. Features an introduction by Lewis Lapham. This collection is classic Nader exhorting us to make our world and nation a better place even when faced with unchecked political and corporate power and perverse market and regulatory incentives. He starts with the declaration that the national Democratic Party bureaucrats are either inept or bewildered. With its record setting campaign fundraising he bemoans how the Party can't seem to figure out how to go on the offensive against the overtly lying cruel corrupt law breaking Wall Street over Main Street Trumpian Republican Party. In another essay he praises Canada explaining that the majority of citizens love their health care system Medicare for all free choice of doctor and hospital everybody in nobody out and far less expensive with better outcomes overall. Highlighting heroes like Pete Seeger Wendell Berry the journalist Helen Thomas Nader also celebrates citizens like the lesser known charismatic George S Hawkins general manager of the District of Columbia Water and Sewer Authority who brought immense energy vision and ambitious overdue plans to the forefront for American's public drinking water. Meanwhile he doesn't shy away from enemies for example Nader slams the evils of Big Pharma's strength and hold over Congress and infinite greed. Nader also brings American history to the present day with creative twists. We need to remember Ben Franklin our frugal forebear who coined the phrase a penny saved is a penny earned he writes. Today he would say a trillion BTUs saved is a trillion BTUs earned. Ranging from hernia repair to auto safety reports and warnings about lethal super bugs and global pandemics from 2013 Nader's essays and newspaper columns will inform and activate his legions of fans.

*Ecological Politics* Greta Gaard, 1998 An illuminating account of two interconnected social movements from their grassroots origins in the 1970s to the 1996 Green presidential campaign.

*Democratic Teacher Education* John Novak, 1994-07-01 This book captures the spirit richness and diversity of democratic teacher educators as they put their ideas into practice in creative and persistent ways. Using a diverse group of democratic educational projects from throughout North America this volume taps into varied ways teacher educators from large state institutions small rural colleges urban private universities new academic programs special teacher development centers and public voluntary citizen organizations are working to create the resources and opportunities for teachers to develop the skills and confidence necessary to promote sustained democratic processes.

Civic Self-respect Ralph Nader, 2025-04-15 An inspiring exploration of democracy that separates the concept of a citizen into various roles providing a clarifying mission to all who read this call to action and civic participation. In this concise volume Ralph Nader our trusted voice on corporate power and civic resistance goes right to the most basic taproots of an aspiring democracy its people and their roles in creating and sustaining community. These roles

including citizen voter worker taxpayer consumer and parent contribute to civic self respect and one's own significance in society As federal judge Learned Hand said in 1944 during a famous brief speech at Central Park New York City neither the laws the courts or other related institutions can be saved without the underlying exercise of the democratic spirit by the people Civic Self Respect argues the importance to recognize the centrality in the development of a civic personality as distinguished from a private personality with the two co existing for a moral life participating in the common good As Nader's mother said when her friends would wonder how she could be raising four children and still have so much time for community engagements What's the difference One depends on each other the family and the community This book argues for how important it is for our educational system to teach the essentials of civic responsibility beyond its occupational or technical emphasis because the emergence of such a public minded personality is so essential for understanding the world and shaping civil societies

**Must Global Politics Constrain Democracy?** Alan Gilbert, 2012-01-06 As each power vies for its national interests on the world stage how do its own citizens democratic interests fare at home Alan Gilbert speaks to an issue at the heart of current international relations debate He contends that in spite of neo realists assumptions a vocal citizen democracy can and must have a role in global politics Further he shows that all the major versions of realism and neo realism if properly stated with a view of the national interest as a common good surprisingly lead to democracy His most striking example focuses on realist criticisms of the Vietnam War Democratic internationalism as Gilbert terms it is really the linking of citizens interests across national boundaries to overcome the antidemocratic actions of their own governments Realist misinterpretations have overlooked Thucydides theme about how a democracy corrupts itself through imperial expansion as well as Karl Marx's observations about the positive effects of democratic movements in one country on events in others Gilbert also explodes the democratic peace myth that democratic states do not wage war on one another He suggests instead policies to accord with the interests of ordinary citizens whose shared bond is a desire for peace Gilbert shows through such successes as recent treaties on land mines and policies to slow global warming that citizen movements can have salutary effects His theory of deliberative democracy proposes institutional changes that would give the voice of ordinary citizens a greater influence on the international actions of their own government
