The Soundscape of Modernity Emily Thompson, 2004-09-17 A vibrant history of acoustical technology and aural culture in early twentieth century America In this history of aural culture in early twentieth century America Emily Thompson charts dramatic transformations in what people heard and how they listened What they heard was a new kind of sound that was the product of modern technology They listened as newly critical consumers of aural commodities By examining the technologies that produced this sound as well as the culture that enthusiastically consumed it Thompson recovers a lost dimension of the Machine Age and deepens our understanding of the experience of change that characterized the era Reverberation equations sound meters microphones and acoustical tiles were deployed in places as varied as Boston s Symphony Hall New York s office skyscrapers and the soundstages of Hollywood The control provided by these technologies however was applied in ways that denied the particularity of place and the diverse spaces of modern America began to sound alike as a universal new sound predominated Although this sound clear direct efficient and nonreverberant had little to say about the physical spaces in which it was produced it speaks volumes about the culture that created it By listening to it Thompson constructs a compelling new account of the experience of modernity in America

Preserving Historic New England James M. Lindgren, 1995-11-09 By the first years of the twentieth century the memory of old time New England was in danger What had once been a land of small towns populated by tradition minded Yankees was now becoming almost unrecognizable with a floodtide of immigrants and the constant change of a modernizing society At the same time cities such as Boston Portsmouth and Salem were bursting at the seams with factories high rises and uncontrollable growth During a period when the Colonial Revival and progressive movements held sway Yankees asserted their influence through campaigns to redefine the meaning of their Anglo American forebears As part of the reaction the modern preservation movement was

founded by William Sumner Appleton Jr a privileged old blooded Bostonian Resisting not simply this avalanche of change but the amateurish romanticism of fellow antiquaries Appleton founded the Society for the Preservation of New England Antiquities in 1910 While examining SPNEA in the context of progressivism Preserving Historic New England focuses on its redefinition of preservation to fit the methodology of science the economy of capitalism and the aestheticism of architecture In so doing preservation not only became a profession defined by those male worlds but remade Yankee memory to accord with the modern corporate order
