Heffermehl, 2010-08-19 In this groundbreaking and controversial critique of the selections of Nobel Peace Prize winners an eminent Norwegian lawyer and peace activist calls for its return to legal and moral compliance with the will of Alfred Nobel who wished to support disarmament to prevent war The Nobel Peace Prize is the world's most coveted award galvanizing the world's attention for 110 years In recent decades it has also become the world's most reviled award as heads of militarized states and out and out warmongers and terrorists have been showered with peace prizes Delving into previously unpublished primary sources Fredrik Heffermehl reveals the history of the inner workings of the Norwegian Nobel Committee as it has come under increasing political geopolitical and commercial pressures to make

inappropriate awards As a Norwegian lawyer Heffermehl makes the case that the Norwegian politicians entrusted with the Nobel peace awards have brushed aside the legal requirements in Scandinavian estate law using the prize to promote their own political and personal interests instead of the peace ideas Alfred Nobel had in mind Evaluating each of the 119 Nobel Peace Prizes awarded between 1901 and 2009 the author tracks the ever widening divergence of the committee s selections from Nobel s intentions and concludes that all but one of the last ten prizes are illegitimate under the law **LIFE**, 1951-06-25 LIFE Magazine is the treasured photographic magazine that chronicled the 20th Century It now lives on at LIFE.com the largest most amazing collection of professional photography on the internet Users can browse search and view photos of today s people and events They have free access to share print and post images for personal use [How Conflict Resolution Evolves Over 4 Stages: Total War, to Champion Combat, to Symbolic Combat, to Mediation](#) David Hoicka, [How Conflict Resolution Evolves Over 4 Stages Total War to Champion Combat to Symbolic Combat to Mediation](#) is a landmark work that challenges our understanding of human conflict and offers a compelling vision for a more peaceful future Drawing on a remarkable range of historical examples cutting edge neuroscience and years of practical mediation experience author David Hoicka one of the Principal Mediators in neutral Singapore traces the development of conflict resolution practices through four key stages total war champion combat symbolic competition and mediation Hoicka argues that this evolution mirrors the neurological development of the human brain from the reactive amygdala to the early pre frontal cortex through greater cognitive processing and ultimately to the full engagement of the neocortex By exploring this parallel progression Hoicka offers profound insights into both the nature of the conflicts we face today and the immense potential we possess to resolve them With vivid storytelling and incisive analysis Hoicka brings to life the brutal reality of total war the ritualized violence of champion combat the abstracted battles of symbolic competition and the collaborative problem solving of mediation He examines the strengths and limitations of each approach the factors that drove evolutionary change and the practical lessons we can draw from this history But this is not just a book about the past It is a powerful call to action for our time In an era of global crises and existential threats Hoicka argues that we face a stark choice Will we address 21st century challenges with stone age responses or can we harness our most evolved capacities for empathy creativity and collaboration The answer he suggests lies in the transformative potential of mediation By fostering dialogue mutual understanding and joint problem solving mediation offers a toolkit for resolving even the most intractable conflicts And by recognizing our own evolutionary journey we can approach contemporary challenges with renewed confidence in our capacity for positive change Whether you are a diplomat seeking to broker international agreements a CEO navigating complex stakeholder relationships or a community leader working to bridge social divides this book offers essential insights and practical guidance It challenges us to question our assumptions about conflict to recognize our shared humanity and to embrace our potential for continued growth and transformation At a time when the destructive potential of our conflicts threatens both human welfare and

planetary health the message of this book is both sobering and hopeful By tracing the evolution from total war to mediation Hoicka offers not just a compelling historical narrative but a vision of a brighter future one in which we transcend our most primitive impulses and work together to build a world of greater peace justice and shared prosperity *Hearings* United States.
