Dictionnaires , Hunting Nature Thomas P. Hodge, 2020-10-15 In

Hunting Nature Thomas P Hodge explores Ivan Turgenev's relationship to nature through his conception, description and practice of hunting, the most unquenchable passion of his life. Informed by an ecocritical perspective, Hodge takes an approach that is equal parts interpretive and documentarian, grounding his observations thoroughly in Russian cultural and linguistic context and a wide range of Turgenev's fiction, poetry, correspondence and other writings. Included within the book are some of Turgenev's important writings on nature, never previously translated into English. Turgenev, who is traditionally identified as a chronicler of Russia's ideological struggles, is presented in *Hunting Nature* as an expert naturalist whose intimate knowledge of flora and fauna deeply informed his view of philosophy, politics and the role of literature in society. Ultimately, Hodge argues that we stand to learn a great deal about Turgenev's thought and complex literary technique when we read him in both cultural and environmental contexts. Hodge details how Turgenev remains mindful of the way textual detail is wedded to the organic world, the *priroda* that he observed and ached for more keenly than perhaps any other Russian writer.

General Phraseology Igor Mel'čuk, 2023-03-16 This book presents a 100% novel approach to phraseology. A language universal deductive calculus of all theoretically possible phraseological expressions (phrasemes) is proposed, implemented in 51 rigorously defined notions. Nine major classes of phrasemes are established and illustrated: lexemic idioms, shoot the breeze, lexemic collocations, pay a visit, helicopter parents, lexemic nominemes, the Northern Palmyra and lexemic clichés. What's your name to put it differently, morphemic idioms, forget, morphemic collocations, Londoner, Muscovite, morphemic nominemes, Greenland and morphemic clichés, antidepressant and syntactic idioms, Her be late. An additional class of pragmatically constrained lexemic expressions is described: pragmatemes, No parking, At attention, Roger. Each phraseme class is supplied with precise methodology for a lexicographic description; a number of lexical entries for representatives of all classes are given. The language data come from English and Russian. *General Phraseology: Theory and Practice* is meant as a contribution towards the elaboration of a unified notional system for linguistics. Don't Be a Stranger Jason Galie, 2022-04-19 It is human nature to want to fit in. The lengths people have gone to do so have provided creative minds with material for centuries. This book explores the consequences of being marked an outsider in the Russian-speaking world through a close study of several seminal works of Russian literature. The author combines the fields of literary studies, linguistics and sociology to illuminate what prompted Christof Rühl, an economist at the World Bank, to comment about Russia: On a very broad scale it's a country where people care about their family and friends, their clan, but not their society.
