**The Bar U & Canadian Ranching History** S. M. Evans,2004 For much of its 130 year history the Bar U Ranch can claim to have been one of the most famous ranches in Canada Its reputation is firmly based on the historical role that the ranch has played its size and longevity and its association with some of the remarkable people who have helped develop the cattle business and build the Canadian West The long history of the ranch allows the evolution of the cattle business to be traced and can be seen in three distinct historical periods based on the eras of the individuals who owned and managed the ranch These colourful figures beginning with Fred Stimson then George Lane and finally Pat Burns have left an indelible mark on the Bar U as well as Canadian ranching history The Bar U and Canadian Ranching History is a fascinating story that integrates the history of ranching in Alberta with larger issues of ranch historiography in the American and Canadian West and contributes greatly to the overall understanding of ranching history

**Cow Boys and Cattle Men** Jacqueline M. Moore,2010 Cowboys are an American legend but despite ubiquity in history and popular culture misperceptions abound Technically a cowboy worked with cattle as a ranch hand while his boss the cattleman owned the ranch Jacqueline M Moore casts aside romantic and one dimensional images of cowboys by analyzing the class gender and labor histories of ranching in Texas during the second half of the nineteenth century As working class men cowboys showed their masculinity through their skills at work as well as public displays in town But what cowboys thought was manly behavior did not always match those ideas of the business minded cattlemen who largely absorbed middle class masculine ideals of restraint Real men by these standards had self mastery over their impulses and didn't fight drink gamble or consort with unsavory women Moore explores how in contrast to the mythic image from the late 1870s on as the Texas frontier became more settled and the open range disappeared the real cowboys faced increasing demands from the people around them to rein in the very traits that Americans considered the most masculine Published in Cooperation with the William P Clements Center for Southwest Studies Southern Methodist University

The Struggle for the Land Paul A. Olson,1990-01-01 At an 1887 council when his people were told to learn farming in the semidesert region east of the Wind River Mountains the Shosone chief Washakie exploded with God damn a potato His instincts were all against the cultivation of semiarid land The relationship between the buffalo hunter and the potato eater between indigenous peoples and industrial empire is the basic theme of the studies in The Struggle for the Land As the editor Paul A Olson points out in his introduction the theme is as old as the biblical battle

between the descendents of Nimrod the city dweller and of Abraham the pastoralist But the environmental cost of developing the world's semiarid regions is a new and urgent concern Soil erosion the loss of lands to dams the pollution of once productive regions through mining and the destruction of native food plants have everywhere decreased the quality of life for indigenous peoples who have been forced to adopt the Western agricultural practices property concepts and economic institutions that created the environmental crisis The eleven chapters in this collection look at the industrial and indigenous relationships in the lands of the North American Plains Indians the Australian Aborigines the Kazakhs in the USSR the Maasai in Kenya and several groups in southern Africa and Alaskan and Lapp Saami native peoples Representing a broad range of disciplines including anthropology history ecology and agricultural science the contributors are John W Bennett Anatoly Khazanov Russel L Barsh Gary C Anders Robson Silitshena Peter Iverson Patrick Morris Annette Hamilton J Baird Callicott O Douglas Schwarz and Solomon Bekure and Ishmael Ole Pasha They recommend realistic solutions for the problems facing people who have essentially been disenfranchised by Western style development of their native semiarid lands

**West Texas** Paul H. Carlson, Bruce A. Glasrud, 2014-03-04 Texas is as well known for its diversity of landscape and culture as it is for its enormity But West Texas despite being popularized in film and song has largely been ignored by historians as a distinct and cultural geographic space In *West Texas A History of the Giant Side of the State* Paul H Carlson and Bruce A Glasrud rectify that oversight This volume assembles a diverse set of essays covering the grand sweep of West Texas history from the ancient to the contemporary In four parts comprehending the place people politics and economic life and society and culture Carlson and Glasrud and their contributors survey the confluence of life and landscape shaping the West Texas of today Early chapters define the region The giant side of Texas is a nineteenth century geographical description of a vast area that includes the Panhandle Llano Estacado Permian Basin and Big Bend Trans Pecos country It is an arid windblown environment that connects intimately with the history of Texas culture Carlson and Glasrud take a nonlinear approach to exploring the many cultural influences on West Texas including the Tejanos the oil and gas economy and the major cities Readers can sample topics in whichever order they please whether they are interested in learning about ranching recreation or turn of the century education Throughout familiar western themes arise the urban growth of El Paso is contrasted with the mid century decline of small towns and the social shifting that followed Well known Texas scholars explore popular perceptions of West Texas as sparsely populated and rife with social contradiction and rugged individualism West Texas comes into yet clearer view through essays on West Texas women poets Native peoples and musicians Gathered here is a long overdue consideration of the landscape culture and everyday lives of one of America's most iconic and understudied regions

*The Rise of the Centennial State* Eugene H. Berwanger, 2007 A vivid description of Colorado's beginnings This is the first

single volume history of the Colorado territory encompassing the entire territorial period from the beginning of the Civil War to 1876 when Colorado became a state The Rise of the Centennial State traces the growth of the territory as new technologies increased mining profits and as new modes of transportation especially the Union Pacific and Kansas Pacific railroads opened the territory to eastern markets bringing waves of settlers to farm ranch and establish new communities Eugene H Berwanger s history is packed with colorful characters and portraits of sprawling brawling frontier and mining towns from Denver to Central City He presents a multifaceted discussion of Colorado s resurgence after the war with rich discussions of the role of minorities in the territory s development Indian white relations including discussions of now forgotten battles of Beecher s Island and Summit Springs which destroyed the Indians hold on the Colorado Plains the social segregation of blacks in Denver and Mexican Americans displeasure at being separated from the Hispano culture of New Mexico Berwanger also demonstrates the decisive role of Colorado s admission to statehood in swinging the disputed presidential election of 1876 to the Republican candidate Rutherford B Hayes

**Theodore Roosevelt, Naturalist in the Arena** Char Miller, Clay S. Jenkinson, 2020-03-01 Theodore Roosevelt s scientific curiosity and love of the outdoors proved a defining force throughout his hectic life as a rancher and explorer police commissioner and governor of New York vice president and president of the United States Conservation and natural history were parts of a whole for this driven charismatic public servant and Roosevelt approached the natural world with joy and a passionate engagement Drawing on an array of approaches biographical ecological and environmental literary and political Theodore Roosevelt Naturalist in the Arena analyzes this energetic man s manifold encounters with the great outdoors George Bird Grinnell Gifford Pinchot John Muir and William Hornaday were among the many conservationists with whom Roosevelt corresponded collaborated hiked and governed and in turn inspired Together Roosevelt and his contemporaries developed a progressive argument for the conservation of natural resources as a way to construct a more democratic nation state This legacy also comes with some troubling domestic and global implications as Roosevelt fused his call for the conservation of resources natural and human domestically and internationally with a deep seated conviction that some were more fit than others to control the world and define its future

**Environmental History and the American South** Paul Sutter, Christopher J. Manganiello, 2009 This reader gathers fifteen of the most important essays written in the field of southern environmental history over the past decade Ideal for course use the volume provides a convenient entrance into the recent literature on the region as it indicates the variety of directions in which the field is growing As coeditor Paul S Sutter writes in his introduction recent trends in environmental historiography a renewed emphasis on agricultural landscapes and their hybridity attention to the social and racial histories of environmental thought and practice and connections between health and the environment among them have made the South newly attractive terrain This volume suggests then that southern environmental history has not only arrived but also that it may prove an important space for the

growth of the larger environmental history enterprise The writings which range in setting from the Texas plains to the Carolina Lowcountry address a multiplicity of topics such as husbandry practices in the Chesapeake colonies and the aftermath of Hurricane Andrew The contributors varied disciplinary perspectives including agricultural history geography the history of science the history of technology military history colonial American history urban and regional planning history and ethnohistory also point to the field's vitality Conveying the breadth diversity and liveliness of this maturing area of study Environmental History and the American South affirms the critical importance of human environmental interactions to the history and culture of the region Contributors Virginia DeJohn Anderson William Boyd Lisa Brady Joshua Blu Buhs Judith Carney James Taylor Carson Craig E Colten S Max Edelson Jack Temple Kirby Ralph H Lutts Eileen Maura McGurty Ted Steinberg Mart Stewart Claire Strom Paul Sutter Harry Watson Albert G Way *Selected List of American Agricultural Books in Print and Current Agricultural Periodicals*, 1967 Library List National Agricultural Library (U.S.), 1947
