Suicide and Culture 2.0 Erminia Colucci, David Lester, 2013-03-24 BOLD TEXT Integrating the role of culture is critical in preventing suicide Written by leading suicide researchers Explores suicide in different cultural contexts Highlights how to conduct culturally sensitive studies Building on the seminal work of Colucci and Lester 2013 this volume examines the unique perspective of the role culture plays in suicide research and prevention With the current domination of individual and largely biomedical approaches in the field these leading social scientists and suicide researchers carefully show how important integrating sociocultural factors is in helping to prevent people from dying by suicide and support those who live with suicidality The first section addresses the fundamental issues of why culture is of vital importance in understanding and preventing suicidal behavior what the cultural meaning of suicide is and where current research and theory are taking us It concludes with a thought provoking perspective on suicide as a staged performance The second section features a mixed methods cross cultural study on the meanings of suicide in Australian Indian and Italian cultures Additional chapters explore a culturally specific form of suicide i e sati in India suicide among Roma and Irish Travellers and a community based suicide prevention strategy for different populations including migrants and refugees and people from low and middle income Asian countries The authors conclude with insightful recommendations for conducting culturally sensitive and meaningful studies This volume is essential reading for anyone involved in suicide research and prevention and more broadly to those interested in the sociocultural and political contexts of mental health

Emotions across Cultures David Konstan, 2012-06-21 It is now recognized that emotions have a history In this book eleven scholars examine a variety of emotions in ancient China and classical Greece in their historical and social context A general introduction presents the major issues in the analysis of emotions across cultures and over time in a given tradition Subsequent chapters consider how specific emotions evolve and change For example whereas for early Chinese thinkers worry was a moral defect it was later celebrated as a sign that one took responsibility for things In ancient Greece hope did not always focus on a positive outcome and in this respect differed from what we call hope Daring not to do or undaring was itself an emotional value in early China While Aristotle regarded the inability to feel anger as servile the Roman Stoic Seneca rejected anger entirely Hatred and revenge were encouraged at one moment in China and repressed at another Ancient Greek responses to tragedy do not map directly onto modern emotional registers and yet are similar to classical Chinese and Indian descriptions There are differences in the very way emotions are conceived This book will speak to anyone interested in the many ways that human beings feel
