Raoul Walsh:

New York Magazine ,1974-04-08 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea **Raoul Walsh** Raoul Walsh,1977 *Raoul Walsh* Marilyn Ann Moss,2011-06-17 Raoul Walsh 1887 1980 was known as one of Hollywood s most adventurous iconoclastic and creative directors He carved out an illustrious career and made films that transformed the Hollywood studio yarn into a thrilling art form Walsh belonged to that early generation of directors along with John Ford and Howard Hawks who worked in the fledgling film industry of the early twentieth century learning to make movies with shoestring budgets Walsh s generation invented a Hollywood that made movies seem bigger than life itself In the first ever full length biography of Raoul Walsh author Marilyn Ann Moss recounts Walsh s life and achievements in a career that spanned more than half a century and produced upwards of two hundred films many of them cinema classics Walsh originally entered the movie business as an actor playing the role of John Wilkes Booth in D W Griffith s *The Birth of a Nation* 1915 In the same year under Griffith s tutelage Walsh began to direct on his own Soon he left Griffith s company for Fox Pictures where he stayed for more than twenty years It was later at Warner Bros that he began his golden period of filmmaking Walsh was known for his romantic flair and playful persona Involved in a freak auto accident in 1928 Walsh lost his right eye and began wearing an eye patch which earned him the suitably dashing moniker the one eyed bandit During his long and illustrious career he directed such heavyweights as Humphrey Bogart James Cagney Errol Flynn and Marlene Dietrich and in 1930 he discovered future star John Wayne **Movies and Methods** Bill Nichols,1976 VOLUME 2 *Movies and Methods* Volume II captures the developments that have given history and genre studies imaginative new models and indicates how feminist structuralist and psychoanalytic approaches to film have achieved fresh valuable insights In his thoughtful introduction Nichols provides a context for the paradoxes that confront film studies today He shows how shared methods and approaches continue to stimulate much of the best writing about film points to common problems most critics and theorists have tried to resolve and describes the internal contradictions that have restricted the usefulness of post structuralism Mini introductions place each essay in a larger context and suggest its linkages with other essays in the volume A great variety of approaches and methods characterize film writing today and the final part conveys their diversity from statistical style analysis to phenomenology and from gay criticisms to neoformalism This concluding part also shows how the rigorous use of a broad range of approaches has helped remove post structuralist criticism from its position of dominance through most of the seventies and early eighties Publisher description **Cinemascope Two** John Reid,2005-02-01 If it were not for the vision and enterprise of Darryl F Zanuck and 20th Century Fox chances are none of us would be enjoying

widescreen films today Instead we d still be watching movies and TV on the same postage stamp screen that became standard when movies began to talk in 1927 This survey of Fox s contributions to the CinemaScope Revolution which that studio started back in 1953 examines no less than 140 key films with extensive cast and technical credits plus release details and other background information including prizes and awards

Raoul Walsh Marilyn Ann Moss,2011 Raoul Walsh 1887 1980 was known as one of Hollywood s most adventurous iconoclastic and creative directors He carved out an illustrious career and made films that transformed the Hollywood studio yarn into a thrilling art form Walsh belonged to that early generation of directors along with John Ford and Howard Hawks who worked in the fledgling film industry of the early twentieth century learning to make movies with shoestring budgets Walsh s generation invented a Hollywood that made movies seem bigger than life itself In the first ever full length biography of Raoul Walsh author Marilyn Ann Moss recounts Walsh s life and achievements in a career that spanned more than half a century and produced upwards of two hundred films many of them cinema classics Walsh originally entered the movie business as an actor playing the role of John Wilkes Booth in D W Griffith s *The Birth of a Nation* 1915 In the same year under Griffith s tutelage Walsh began to direct on his own Soon he left Griffith s company for Fox Pictures where he stayed for more than twenty years It was later at Warner Bros that he began his golden period of filmmaking Walsh was known for his romantic flair and playful persona Involved in a freak auto accident in 1928 Walsh lost his right eye and began wearing an eye patch which earned him the suitably dashing moniker the one eyed bandit During his long and illustrious career he directed such heavyweights as Humphrey Bogart James Cagney Errol Flynn and Marlene Dietrich and in 1930 he discovered future star John Wayne

[Catholics in the Movies](#) Colleen McDannell,2008 The common admission that everything I know about religion I learned from the movies is true for believers as much as for unbelievers And at the movies Catholicism is the American religion As an intensely visual faith with a well defined ritual and authority structure Catholicism lends itself to the drama and pageantry of film Beginning with the silent era of film and ending with movies today eleven prominent scholars explore how Catholic characters spaces and rituals are represented in cinema

Food in the Movies, 2d ed. Steve Zimmerman,2010-07-28 Although food has been part of motion pictures since the silent era for the most part it has been treated with about as much respect as movie extras it s always been there on the screen but seldom noticed For the most part filmmakers have settled on three basic ways to treat food as a prop in which the food is usually obscured from sight or ignored by the actors as a transition device to compress time and help advance the plot as a symbol or metaphor or in some other meaningful way to make a dramatic point or to reveal an aspect of an actor s character mood or thought process This hugely expanded and revised edition details 400 food scenes in addition to the 400 films reviewed for the first edition and an introduction tracing the technical artistic and cultural forces that contributed to the emergence of food films as a new genre originated by such films as *Tampopo* *Babette s Feast* and more recently by films like *Mostly Martha* *No Reservations* and *Ratatouille* A filmography is included as an appendix

Cartographic Cinema Tom Conley, Cartography and cinema are what might be called locational machinery Maps and movies tell their viewers where they are situated what they are doing and to a strong degree who they are In this groundbreaking work eminent scholar Tom Conley establishes the ideological power of maps in classic contemporary and avant garde cinema to shape the imaginary and mediated relations we hold with the world Cartographic Cinema examines the affinities of maps and movies through comparative theory and close analysis of films from the silent era to the French New Wave to Hollywood blockbusters In doing so Conley reveals that most of the movies we see contain maps of various kinds and almost invariably constitute a projective apparatus similar to cartography In addition he demonstrates that spatial signs in film foster a critical relation with the prevailing narrative and mimetic registers of cinema Conley convincingly argues that the very act of watching films and cinema itself is actually a form of cartography Unlike its function in an atlas a map in a movie often causes the spectator to entertain broader questions not only about cinema but also of the nature of space and being **Dreams & Dead Ends** Jack Shadoian, 2003 Table of contents [American Film Cycles](#) Amanda Ann Klein, 2011-12-01 A series of movies that share images characters settings plots or themes film cycles have been an industrial strategy since the beginning of cinema While some have viewed them as subgenres mini genres or nascent film genres Amanda Ann Klein argues that film cycles are an entity in their own right and a subject worthy of their own study She posits that film cycles retain the marks of their historical economic and generic contexts and therefore can reveal much about the state of contemporary politics prevalent social ideologies aesthetic trends popular desires and anxieties American Film Cycles presents a series of case studies of successful film cycles including the melodramatic gangster films of the 1920s the 1930s Dead End Kids cycle the 1950s juvenile delinquent teenpic cycle and the 1990s ghetto action cycle Klein situates these films in several historical trajectories the Progressive movement of the 1910s and 1920s the beginnings of America's involvement in World War II the birth of the teenager in the 1950s and the drug and gangbanger crises of the early 1990s She shows how filmmakers audiences film reviewers advertisements and cultural discourses interact with and have an impact on the film texts Her findings illustrate the utility of the film cycle in broadening our understanding of established film genres articulating and building upon beliefs about contemporary social problems shaping and disseminating deviant
