Rapcore The Nu Metal Rap Fusion:

Rapcore Dick Porter, 2002-11-30 Rapcore explores the evolution of the 21st century's preeminent genre of heavy rock Nu Metal Author Dick Porter defines the origins of the fusion of hip hop punk reggae and rock that drives this popular sound He discusses early innovators such as George Clinton and Run DMC contemporary masters Kid Rock and Limp Bizkit and peripheral but influential figures such as Ice T Eminem and Rob Zombie The contributions of Slipknot Linkin Park Papa Roach and others are also covered Music, Sound, and Silence in Buffy the Vampire Slayer Janet K. Halfyard, Paul Attinello, Vanessa Knights, 2017-07-05 The intense and continuing popularity of the long running television show Buffy the Vampire Slayer 1997 2003 has long been matched by the range and depth of the academic critical response This volume the first devoted to the show's imaginative and widely varied use of music sound and silence helps to develop an increasingly important and inadequately covered area of research the many roles of music in contemporary television In addressing this significant gap this book provides an exemplary overview of the functions of music and sound in the interpretation of a television show This is done through analyses that focus on scoring and source music the title theme the music production process the critically acclaimed musical episode voted number 13 in Channel Four's One Hundred Greatest Musicals the symbolic and dramatic use of silence and the popular reception of the show by its international fan base In keeping with contemporary trends in the study of popular music a variety of critical approaches are taken from musicology cultural studies and media and communication studies specifically employing critique musical analysis industry studies and hermeneutics Mortality and Music Christopher Partridge, 2015-08-27 The evidence of death and dying has been removed from the everyday lives of most Westerners Yet we constantly live with the awareness of our vulnerability as mortals Drawing on a range of genres bands and artists Mortality and Music examines the ways in which popular music has responded to our awareness of the inevitability of death and the anxiety it can evoke Exploring bereavement depression suicide violence gore and fans responses to the deaths of musicians it argues for the social and cultural significance of popular music's treatment of mortality and the apparent absurdity of existence **Slipknot Discography , Popular Music Genres** Stuart Borthwick, 2020-03-31 An accessible introduction to the study of popular music this book takes a schematic approach to a range of popular music genres and examines them in terms of their antecedents histories visual aesthetics and socio political contexts At the centre of each chapter is a textual analysis of key examples of the genres concerned soul psychedelia progressive rock reggae funk heavy metal punk rock rap synthpop indie jungle Within this interdisciplinary and genre based focus readers will gain insights into the relationships between popular music cultural history economics politics iconography production techniques technology marketing and musical structure Features Introduces key terms and concepts in the study of popular music Includes recommended further readings and audio texts at the end of each chapter Provides a glossary of key theoretical terms for reference *The Microgenre* Anne H. Stevens, Molly C. O'Donnell, 2020-01-23 Everybody knows

and maybe even loves a microgenre Plague romances and mommy memoirs Nudie cutie movies Nazi zombies and dinosaur erotica Baby burlesks Minecraft fiction grindcore premature ejaculation poetry microgenres come in all varieties and turn up in every form of media under the sun tailor made for enthusiasts of all walks of life Coming into use in the last decade or so the term microgenre classifies increasingly niche marketed worlds in popular music fiction television and the Internet Netflix has recently highlighted our fascination with the ultra niche genre with hilariously specific classifications independent supernatural dramedy featuring a strong female lead that can sometimes hit a little too close to home Each contribution in this collection introduces readers to a different microgenre drawn from a range of historical periods and from a variety of media The Microgenre presents a previously untreated point of cultural curiosity revealing the profound truth that humanity's desire to classify is often only matched by the unsustainability of the obscure and hyper specific It also affirms in colorful detail what most people suspect but have trouble fathoming in an increasingly homogenized and commercial West that imaginative projects are just that imaginative diverse and sometimes completely and hilariously inexplicable
