“Something that I read in a book”: **W. B. Yeats’s Annotations at the National Library of Ireland** Wayne K. Chapman,2022-02-12 This book is a resource to enable scholars and students in Yeats studies to explore the materials in his library which together with his unpublished papers and manuscripts forms part of the writer s archive in the National Library Generally this first volume describes the evidence that he and his wife George left in books by other authors including extensive indications of close reading and thinking on a surprising range of subjects This book could not have been written without the generous participation of the Yeats family over many years Their legacy now entrusted to the National Library is robust and endless in potential This book is about individual cases but also the building of an oeuvre In short this book enriches our understanding of Yeats s accomplishment as a writer in over fifty years of creative effort and nearly seventy four years of abundant life *The English Catalogue of Books [annual]* Sampson Low,1929 Vols for 1898 1968 include a directory of publishers *New Astrological Bulletina* ,1942 *The British Journal of Astrology* ,1926 **Whitaker's Cumulative Book List** ,1951 **The American News Trade Journal** ,1928 **The Publishers' Circular and Booksellers' Record** ,1929 *The Publisher and Bookseller* ,1928 Official organ of the book trade of the United Kingdom

Astrology and Western Society from the First World War to Covid-19 William Burns,2023-10-11 This book gathers contributions on the topic of astrology in the West during the twentieth and twenty first centuries from 1914 2022 It is the first collection exclusively devoted to a period that has been mostly neglected by historians of astrology who have mostly devoted themselves to the ancient medieval and early modern periods Uninterested in vindicating or debunking astrology contributors consider its cultural impact its relation to historical events and the ways in which it has changed in the last century The broad range of subjects on modern Europe and the US include the relation of astrology with indigenous thought interwar Polish astrology and the relation of American astrologers to COVID A bibliography of studies of modern astrology on a global basis is also included This collection is a thoughtful contribution to the history of astrology and the sociology of belief as well as carrying significant implications for twentieth and twenty first century history broadly **Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971** New York Public Library. Research Libraries,1979 **What the Heavens Reveal** Alexander C. Ross,1930 **Jung’s Studies in Astrology** Liz Greene,2019-09-04 Winner of the IAJS award for best authored book of 2018 C G Jung had a profound interest in and involvement with astrology which he made clear in virtually every volume of the Collected Works as well as in many of his letters This ancient symbolic system was of primary importance in his understanding of the nature of time the archetypes

synchronicity and human fate Jung's *Studies in Astrology* is an historical survey of his astrological work from the time he began to study the subject. It is based not only on his published writings but also on the correspondence and documents found in his private archives, many of which have never previously seen the light of day. Liz Greene addresses with thoroughness and detailed scholarship the nature of Jung's involvement with astrology, the ancient, medieval, and modern sources he drew on, the individuals from whom he learned his ideas about how and why it worked, its religious and philosophical implications, and its applications in the treatment of his patients as well as in his own self-understanding. Greene clearly demonstrates that any serious effort to understand the development of Jung's psychological theories as well as the nature of his world view needs to involve a thorough exploration of his astrological work. This thorough investigation of a central theme in Jung's work will appeal to analytical psychologists and Jungian psychotherapists, students and academics of Jungian and post-Jungian theory, the history of psychology, archetypal thought, mythology and folklore, the history of New Age movements, esotericism, and psychological astrology.
