Napoleon I (Emperor of the French),1858 Apostles of Modernity Osama Abi-Mershed,2010-05-10 Between 1830 and 1870

French army officers serving in the colonial Offices of Arab Affairs profoundly altered the course of political decision making in Algeria Guided by the modernizing ideologies of the Saint Simonian school in their development and implementation of colonial policy the officers articulated a new doctrine and framework for governing the Muslim and European populations of Algeria Apostles of Modernity shows the evolution of this civilizing mission in Algeria and illustrates how these 40 years were decisive in shaping the principal ideological tenets in French colonization of the region This book offers a rethinking of 19th century French colonial history It reveals not only what the rise of Europe implied for the cultural identities of non elite Middle Easterners and North Africans but also what dynamics were involved in the imposition or local adoptions of European cultural norms and how the colonial encounter impacted the cultural identities of the colonizers themselves *The Politics*

*of Imperial Memory in France, 1850-1900* Christina B. Carroll,2022-05-15 By highlighting the connections between domestic political struggles and overseas imperial structures *The Politics of Imperial Memory in France 1850 1900* explains how and why French Republicans embraced colonial conquest as a central part of their political platform Christina B Carroll explores the meaning and value of empire in late nineteenth century France arguing that ongoing disputes about the French state s political organization intersected with racialized beliefs about European superiority over colonial others in French imperial thought For much of this period French writers and politicians did not always differentiate between continental and colonial empire By employing a range of sources from newspapers and pamphlets to textbooks and novels Carroll demonstrates that the memory of older continental imperial models shaped French understandings of and justifications for their new colonial empire She shows that the slow identification of the two types of empire emerged due to a politicized campaign led by colonial advocates who sought to defend overseas expansion against their opponents This new model of colonial empire was

shaped by a complicated set of influences including political conflict the legacy of both Napoleons international competition racial science and French experiences in the colonies The Politics of Imperial Memory in France 1850 1900 skillfully weaves together knowledge from its wide ranging source base to articulate how the meaning and history of empire became deeply intertwined with the meaning and history of the French nation *Annual Report of the American Historical Association*
