V. Rich,2013-09 HERE IS THE STORY HOLLYWOOD DOES NOT WANT YOU TO READ Throughout the 1970 s and 80 s the United States and other nations conducted numerous scientific experiments intent upon recovering and then replicating the

DNA genomes of animals whose lives had been extinct for a period of over tens of thousands up to several millions of years. With no guidelines to follow and even worse no external monitoring many formerly extinct life forms were eventually cloned and successfully re created but with deadly and destructive results. Most of the nations involved in such devastating experiments including the United States promptly responded by enacting highly controversial laws prohibiting both the research into replicating the DNA and the revival of such extinct creatures. While some nations reacted by passing bans on such research for twenty five to fifty years the United States enacted a ban of only twenty years due to expire on January 1st 2015. Other nations including many third world countries openly resisted the pressure put upon them by the larger nations and opted out of enacting any type of restrictions. Sensing a shift in popular opinion during the two years preceding the expiration of the ban the United States Congress began to conduct numerous hearings on the matter including collecting the testimony of nearly one hundred fifty of the nation s most prominent geneticists and scholars. Among the group invited to testify before Congress was Nicholas P Heinz III a thirty two year old paleogeneticist and chairman of the highly esteemed research firm BioGen BioGenetics International Technologies LLC in Cupertino California. One of the last witnesses called to testify Heinz had hoped his impassioned testimony and detailed documentation of the myriad benefits derived from DNA genome research would help to continue the momentum gained from earlier witnesses and would sway the Congress into letting the ban expire without being renewed. From Kurt M V Rich the author of the critically acclaimed historical novel *Chasing the Golden Hoard: The Story of the Lydian Hoard* Re Creating the Cretaceous invites you to investigate the story of scientific wonders intermingled with greed arrogance subterfuge and a quest for power far beyond the imagination of Hollywood. *The Dinosaur Knights* Victor Milán, 2024-03-26. Paradise is a sprawling diverse often cruel world. There are humans on Paradise but dinosaurs predominate wildlife monsters beasts of burden and of war. Armored knights ride dinosaurs to battle legions of war trained Triceratops and their upstart peasant crews. Karyl Bogomirsky is one such knight who has chosen to rally those who seek a way from the path of war and madness. The fact that the Empire has announced a religious crusade against this peaceful kingdom the people who just wish to live in peace anathema and they all are to be converted or destroyed doesn t help him one bit. Things really turn to mud when the dreaded Grey Angels fabled ancient weapons of the Gods who created Paradise in the first place come on the scene after almost a millennia. Everyone thought that they were fables used to scare children. They are very much real. And they have come to rid the world of sin including all the humans who manifest those vices. *THE DINOSAUR KNIGHTS* is the second in Victor Milan s lush exotic tale about knights. Knights riding dinosaurs. *The Dinosaur Lords Series 1 The Dinosaur Lords 2 The Dinosaur Knights 3 The Dinosaur Princess*.
