Strange Nation J. Gerald Kennedy, 2016-03-21

After the War of 1812 Americans belatedly realized that they lacked national identity The subsequent campaign to articulate nationality transformed every facet of culture from architecture to painting and in the realm of letters literary jingoism embroiled American authors in the heated politics of nationalism The age demanded stirring images of U S virtue often achieved by contriving myths and obscuring brutalities Between these sanitized narratives of the nation and U S social reality lay a grotesque discontinuity vehement conflicts over slavery Indian removal immigration and territorial expansion divided the country Authors such as Washington Irving James Fenimore Cooper Catharine M Sedgwick William Gilmore Simms Nathaniel Hawthorne and Lydia Maria Child wrestled uneasily with the imperative to revise history to produce national fable Counter narratives by fugitive slaves Native Americans and defiant women subverted literary nationalism by exposing the plight of the unfree and dispossessed And with them all Edgar Allan Poe openly mocked literary nationalism and deplored the celebration of stupid books appealing to provincial self congratulation More than any other

Jacobs,2018-07-23 For centuries poets have turned to translation for creative inspiration Through and in translation poets have introduced new poetic styles languages and forms into their own writing sometimes changing the course of literary history in the process Strange Cocktail is the first comprehensive study of this phenomenon in modern Hebrew literature of the late nineteenth century to the present day Its chapters on Esther Raab Leah Goldberg Avot Yeshurun and Harold Schimmel offer close readings that examine the distinct poetics of translation that emerge from reciprocal practices of writing and translating Working in a minor literary vernacular the translation strategies that these poets employed allowed them to create and participate in transnational and multilingual poetic networks Strange Cocktail thereby advances a comparative and multilingual reframing of modern Hebrew literature that considers how canons change and are undone when translation occupies a central position how lines of influence and affiliation are redrawn and literary historiographies are revised when the work of translation occupies the same status as an original text when translating and writing go hand in hand *Strange Voices in Narrative Fiction* Per Krogh Hansen,Stefan Iversen,Henrik Skov Nielsen,Rolf Reitan,2011-10-27 From its beginnings narratology has incorporated a communicative model of literary narratives considering these as simulations of natural oral acts of communication This approach however has had some problems with accounting for the strangeness and anomalies of modern and postmodern narratives As many skeptics have shown not even classical realism conforms to the standard set by oral or natural storytelling Thus an urge to confront narratology with the difficult task of reconsidering a most basic premise in its theoretical and analytical endeavors has for some time been undeniable During the 2000s Nordic narratologists have been among the most active and insistent critics of the communicative model They share a marked skepticism towards the idea of using natural narratives as a model for understanding and interpreting all kinds of narratives and for all of them the distinction of fiction is of vital importance This anthology presents a collection of new articles that deal with strange narratives narratives of the strange or more generally with the strangeness of fiction and even with some strange aspects of narratology
